ADDRESS | 4750 W. Dickman Road, Battle Creek, MI, 49037

START OF OPERATIONS | 2011

LOCATION | Located northwest of downtown Battle Creek

SITE MANAGER | Wir Wong

Battle Creek manufacturing facility

Products such as:

- The Battle Creek battery materials manufacturing plant produces cathode materials used in lithium-ion batteries that power electric vehicles and consumer electronic applications. A variety of oxide cathode materials serve both existing customers and emerging players in the battery materials industry.

Community Relations

The Battle Creek site maintains its relationship as a good corporate citizen within the community by meeting with community leaders and supporting local programs. Working closely with community schools, the site has offered internships to area Math and Science Center students, promoted STEM education at the grade school level and regularly participates in the area Manufacturing Consortium.

Economic Impact

- Annual payroll in excess of \$4.78 Million
- \$0.11 million in total taxes paid
- Capital improvement: \$2.01 Million
