

Clemson, South Carolina

ADDRESS | 1215 SC-93, Central, South Carolina 29630

START OF OPERATIONS | BASF purchased the site in 1985

LOCATION | The site sits on more than 200 acres just north of Central, South Carolina

SITE MANAGER | Theresa Vaughn

The site produces polyurethanes for diverse applications

This includes:

- Insulation for commercial coolers, refrigerated tractor trailers, building construction, water heaters, and picnic coolers, as well as flotation foam for use in boats and personal watercraft.
- Clemson also serves as the home to the polyurethanes Parts and Equipment group, which fabricates and repairs equipment for application of the foam products at Clemson and the other North American Systems Houses.

Community Relations

BASF has been investing in the site and supporting the local economy by hiring employees from Pickens, Anderson, Oconee and Greenville Counties. BASF Clemson employees are also actively involved in area non-profits and regularly visit nearby schools to promote STEM education.

Economic Impact

- Annual payroll and benefits of \$5 million*
- Payment of \$400K in local and state taxes*
- Capital investment of \$1 million*
