

BASF - We create chemistry –
Identification of new sourcing opportunities in Eastern Europe

Dear Ladies and Gentlemen,

In the face of rapidly changing business environments we as BASF want to deliver best solutions for our customers globally. Therefore, Global Indirect Procurement of BASF is conducting a wide ranged market study to identify new opportunities of sourcing. We see many existing potentials, especially in Eastern Europe.

About BASF

At BASF, we create chemistry for a sustainable future. We combine economic success with environmental protection and social responsibility. The approximately 122,000 employees in the BASF Group work on contributing to the success of our customers in nearly all sectors and almost every country in the world. Our portfolio is organized into six segments: Chemicals, Materials, Industrial Solutions, Surface Technologies, Nutrition & Care and Agricultural Solutions.

About the Market Study

In general, we are interested in services for BASF sites especially Ludwigshafen (Germany), Schwarzheide (Germany) and Antwerp (Belgium).

In detail, our team focuses on the two main categories:

1. **Engineering Services** consisting of the disciplines Civil Engineering, E&I Engineering, Mechanical Engineering, Piping Engineering and Process Engineering
2. **(Civil-)Construction** mainly consisting of
 - Piping Installation, E&I Installation, Crane and Rigging, Scaffolding, Insulation, Corrosion Protection
 - Civil Work Building, Civil Work Infrastructure, Steel Construction, Roofing, Heating/Ventilation/Air Conditioning (HVAC), Demolition

We kindly ask each potential company to share information which gives us the opportunity to learn more about their capabilities, office presence/locations and project references in the (Petro-)Chemical, Energy and Power industry.

All confidential information and documents will be handled accordingly.

If suitable, please send us your feedback until July 12, 2019.
