Address: 3835 Thatcher Avenue, Saskatoon, Saskatchewan

Start of Production: 1988

Location: Approximately 6 km north of Saskatoon International Airport.

Site Leader: Mark Timbres

Number of Employees: ~60

The Saskatoon site is dedicated to the production of seed (sterile peat) and soil (solid core granular) applied biological based Rhizobium/Bacillus inoculants for agricultural markets. Products from this location are produced for global markets.

BASF is active in the Saskatoon community, supporting science education, ecology, health and safety programs and other local community based initiatives through monetary donations and employee volunteer efforts. The site has supported organizations including the Jim Pattison Children's Hospital, Children's Wish Foundation, Read Saskatoon, Saskatchewan Safety Council, Ag in the Classroom, and the Saskatoon Food Bank and Learning Center. Since 2013, the company has delivered its BASF Kids' Lab chemistry workshops to students between the ages of 6-12 across the country. Most recently, offering the sessions through a virtual series.
