# Promoting Sustainability in Action in Thailand

**BASF Thailand Sustainability Webinar:** Sharing insights from our expert team on global key sustainability issues and highlight how BASF's innovation and co-creation enable customers to grow more sustainably from real cases across industries.

# BASF Kids' Lab brings the fun of chemistry to children since 1997

- The BASF Kids' Lab program is an interactive, fun and free chemistry education program designed for kids aged 6 to 12 years to **discover the world of chemistry through simple and safe hands on experiments.**
- Established in 1997 in Ludwigshafen, Germany, it has been brought to more than 40 countries across the globe.
- **Virtual Kids' Lab:** <http://kidslab.basf.com/virtual-lab> (Thai version is also available)

# BASF Volunteering for Community

As a founding member of the **Alliance to End Plastic Waste (AEPW)**, BASF participated in **Beach Cleaning activity** to raise awareness on how systematic waste management ranging from collecting to sorting waste can help extend lifecycle of items and promote a low carbon and circular economy. Other community activities: **Mangrove planting, Donation to Hospitals and schools, etc.**
