Cautionary note regarding forward-looking statements

This presentation contains forward-looking statements. These statements are based on current estimates and projections of the Board of Executive Directors and currently available information. Forward-looking statements are not guarantees of the future developments and results outlined therein. These are dependent on a number of factors; they involve various risks and uncertainties; and they are based on assumptions that may not prove to be accurate. Such risk factors include those discussed in Opportunities and Risks on pages 158 to 166 of the BASF Report 2020. BASF does not assume any obligation to update the forward-looking statements contained in this presentation above and beyond the legal requirements.

Strong performance in Q4 2020 due to higher volumes and prices; EBIT before special items of €3.6 billion in 2020

- **BASF benefitted from economic recovery in Q4 2020:**
 - Volume growth across all regions, Greater China with double-digit growth rates
 - Volume increase across almost all segments
 - Margin expansion in some commodity lines, e.g., isocyanates
 - Lower fixed costs supporting BASF's strong earnings growth
- **Measures to tackle the pandemic continued:**
 - Safety and health of our employees as well as safe operations are the top priority
 - Focus on cash generation, cost control and reduction of capex
 - High liquidity and unrestricted access to debt markets thanks to strong balance sheet and good credit ratings

Sustainable product portfolio

	Target	2020 status
Achieve €22 billion in Accelerator sales ² by 2025	€22.0 billion	€16.7 billion

¹ Return on capital employed (ROCE) is a measure of the profitability of our operations. We calculate this indicator as the EBIT generated by the segments as a percentage of the average cost of capital basis
² Accelerator products are products that make a substantial sustainability contribution in the value chain.

BASF has further strengthened its position in sustainability

Carbon Management

- Completed construction of **methane pyrolysis pilot** reactor for CO₂-free hydrogen
- Secured **renewable energy supply** for manufacturing sites in Freeport, Texas, and Pasadena, Texas, through power-purchasing agreements
- Pursuing more than **5,000 operational effectiveness measures**, of which **~25%** related to carbon management
- Ongoing roll-out of **product carbon footprints** for 45,000 BASF products – to be completed in 2021

Circular Economy

- Successful marketing of first commercial volumes of **Ccycled™ material**
- Supported our partner Quantafuel in **start-up** of their plant for chemical recycling of mixed plastic waste
- Broadened **raw material base** to waste tires: Investment into Pyrum, supply agreement with New Energy
- Established **circular economy program** with ambitious target: double circular sales to €17 billion by 2030

Excellence Program 2019–2021: On track to achieve the targeted annual EBITDA contribution

million €

Key measures:

- Operational excellence with focus on production, logistics and planning
- Organizational development targeting leaner structures in the areas of services, headquarters and R&D
