

1. General

1.1 These conditions of purchase form an integral part of all (future) contracts on the delivery of goods or the provision of services between the supplier of goods or the service provider, respectively, (hereinafter "Contractor") and BASF Hungária Kft. or its affiliated companies located in Hungary, respectively, (hereinafter "Principal"). They shall apply if and to the extent that no other terms have been agreed upon and stipulated in the individual contract. Any terms of business of the Contractor are only valid if and to the extent the written agreement of the Principal is received by the Contractor expressly confirming the Principal's acceptance of the Contractor's terms of business. In particular, any references of the Principal to correspondence from the Contractor containing or referring to the Contractor's terms of business shall not constitute the Principal's acceptance of the applicability to this contract of such terms of business.

1.2 These conditions of purchase shall remain valid and shall prevail over any terms of business of the Contractor even if the Principal should accept any goods / services in the knowledge that the Contractor has purported to deliver them on terms of business of the Contractor that deviate from or are in conflict with these conditions of purchase.

2. Bid

2.1 Bids and price quotes shall not be remunerated and shall not create any obligations on the part of the Principal.

2.2 In its offer the Contractor shall explicitly expose any discrepancies between its offer and the Principal's inquiry. If the Contractor has an alternative solution for an inquiry which is technologically or economically superior it shall additionally present this offer to the Principal.

3. Delivery Date, Partial Delivery of Goods / Partial Provision of Services

3.1 The Contractor must comply with the agreed dates of delivery or dates of provision of services, respectively. In case of the delivery of goods such compliance requires the delivery free of any defects to the Principal within the Principal's regular business hours accompanied by the required shipping documents to the address specified in the purchase order (hereinafter "Place of Destination"). If the Principal and the Contractor have agreed to a delivery including assembly / service, the delivery of the goods free of any defects shall not be considered to have taken place until the assembly / service has been duly carried out as specified in the contract. If a formal acceptance procedure is stipulated by law or specified in the contract, the time specified for such acceptance shall be adhered to by both parties. Advance deliveries of goods / provision of services or partial deliveries / partial provision of services require the Principal's prior agreement.

3.2 If the Contractor recognizes that it will not be able to fulfill its contractual obligations either in full or in part, or not within the stipulated timeframe, it must notify this to the Principal in writing forthwith. The notice must state both the reason(s) for the delay and the predicted delay in delivery time. Any acceptance by the Principal of a delayed or partial delivery of goods / provision of services shall by no means constitute a waiver of any rights of the Principal related to late or partial delivery of goods / provision of services.

3.3 If any documents are being prepared by the Principal to enable the Contractor to carry out the order, it is the

responsibility of the Contractor to request these documents in due time.

4. Sustainability

4.1 The Principal conducts its business in accordance with the principle of sustainable development and adheres to internationally recognized fundamental standards for occupational health and safety, environmental protection, labor and human rights as well as responsible corporate governance (hereinafter "ESG Standards"). The Principal has described its understanding of the ESG Standards in the Supplier Code of Conduct (<http://www.basf.com/supplier-code-of-conduct>). The Principal expects the Contractor to adhere to the ESG Standards. Furthermore the Principal calls upon the Contractor to ensure that all its subcontractors of any tier adhere to the ESG Standards likewise. The Principal shall have the right to check adherence to the ESG Standards, either itself or through third parties commissioned by the Principal.

4.2 While performing the contract, the Contractor must adhere to the occupational health and safety and environmental protection requirements as specified in the Principal's purchase order.

(e) Principal may terminate this Contract [and any Purchase Contract] with immediate effect if (1) Contractor does not comply with the obligations under this section, (2) the Expectations are substantially violated or (3) the implementation of the Remedial Plan does not remedy the Violation within a timetable set in the Remedial Plan.

For this express purpose the Principal is authorized to enter the Contractor's works and visit the installations and facilities relevant for the performance of the contract during the Contractor's usual business hours after giving prior notice. The Contractor and the Principal shall each bear their own costs incurred in conducting any such inspections.

7.2 Such inspections shall not constitute a waiver of any contractual or legal rights of the Principal.

If the parties have agreed a delivery inclusive of installation / assembly / service, the risk of loss or damage shall pass to the Principal after the installation / assembly / service has been duly completed in accordance with the contract and following the handover of the goods.

If a formal acceptance is stipulated by law or by the contract, the deadline for acceptance shall be specified by both parties upon written request by the Contractor. The result of the acceptance inspection shall be documented in an acceptance certificate. Risk of loss shall not pass from the Contractor to the Principal before a successful acceptance has been confirmed by the Principal in the acceptance certificate. 11.4 In the event of any defects, the Principal has the right to demand rectification of such defects according to applicable law. The mode of rectification shall be at the Principal's discretion. For the purposes of the rectification, the goods shall be made available to the Contractor either at the Place of Destination or at the location where the goods were located when defects were identified, according to the Principal's preference.
