## **BASF to lift Force Majeure for EO-based products in the portfolio of Care Chemicals as of July 10, 2015**

Ludwigshafen, Germany – June 29, 2015 – BASF will lift Force Majeure declared on May 21 for ethylene oxide (EO)-based products produced in Europe in the portfolio of Home Care and Industrial & Institutional Cleaning, Formulation Technologies, AgChem Additives and certain EO-based products in the portfolio of Personal Care as of July 10, 2015.

BASF announced the lifting of Force Majeure for EO as of July 1, 2015. With the improved ethylene oxide supply situation the production of EO-based products is ramping-up. Consequently, Force Majeure will be lifted as of July 10 for all affected EO-based products in the portfolio of Care Chemicals.

All customers are currently being informed about the improving supply situation of their affected products.

### **About BASF**

At BASF, we create chemistry — and have been doing so for 150 years. Our portfolio ranges from chemicals, plastics, performance products, and crop protection products to oil and gas. As the world's leading chemical company, we combine economic success with environmental protection and social responsibility. Through science and innovation, we enable our customers in nearly every industry to meet the current and future needs of society. Our products and solutions contribute to conserving resources, ensuring nutrition, and improving the quality of life. We have summed up this contribution in our corporate purpose: we create chemistry for a sustainable future. BASF generated sales of over €74 billion in 2014 and had around 113,000 employees as of the end of the year. BASF shares are

#### **About BASF's Care Chemicals division**

The BASF division Care Chemicals offers a broad range of ingredients for hygiene, personal care, home care, industrial & institutional cleaning, and technical applications. We are the leading supplier for the cosmetics industry as well as the detergents and cleaning agents industry and support our customers worldwide with innovative and sustainable products, solutions, and concepts. The division's high-performance product portfolio includes surfactants, emulsifiers, polymers, emollients, chelating agents, cosmetic active ingredients, pigments, and UV filters. Superabsorbents developed for the full spectrum of hygiene applications complete the range. We have production and development sites in all regions and are expanding our presence in emerging markets.
