² All companies and sites as of December 31, 2023

Somersby (New South Wales)	Agricultural Solutions
Auckland (New Zealand)	Chemetall Surface Treatment, Food, Aerospace and General Industry

Research and development

- BASF operates an agricultural solutions farm in Tamworth (New South Wales), where research focuses on developing a wide range of cropping solutions in representative Australian conditions. BASF also operates a Breeding Center in Longerenong (Victoria) where research focuses on developing varieties with higher yields to help improve sustainability and productivity for Australian farmers.
- BASF Australia has two technical support and development laboratories, located in Kwinana (WA) and Somersby (NSW). In these labs our Mining Solutions experts carry out test work to support our customer requirements and conduct new product development and characterisation work.
- BASF works closely with several leading universities, including Monash University (Vic), Curtin University (WA) and University of Melbourne (Vic).

Community engagement

- BASF runs an annual **Kids' Lab** program to encourage interest in science from an early age by conducting fun, hands-on chemistry-related experiments. The program is conducted in partnership with universities around Australia and New Zealand, with previous events held in Melbourne, Perth, Kalgoorlie, Mandurah, Sydney and Auckland.
- BASF sponsors the education of disadvantaged children through independent, national children's charity, **The Smith Family**, investing over A\$727,000 since 2004.
- BASF is proud to sponsor **Science Gallery** Melbourne's Mediator program. Comprised of a team of science students and recent graduates, the Mediators are the public face of Science Gallery and play a vital role in hosting visitors through the thought-provoking art-meets-science exhibitions.
- To foster the exchange between Australia and Germany, BASF supports the **Scholarship for Australian-German Student Exchange**. Each year, the society awards scholarships to Australian students to travel to Germany during their summer holidays, giving them an insight into a foreign culture and building up links of friendship between the youth of these two countries.
- In 2023, BASF has also partnered with online business community **One Roof** to sponsor three One Roof Scholarships for women or non-binary people who are working in STEM or building businesses with a positive environmental impact.
