RISK FACTORS

The following is a disclosure of risk factors that may affect the ability of BASF and BASF Finance to fulfil their respective obligations under the Notes and the Guarantee and that are material to the Notes issued under the Program in order to assess the market risk associated with these Notes. Prospective investors should consider these risk factors before deciding to purchase Notes issued under the Program.

Prospective investors should consider all information provided in this Prospectus and consult with their own professional advisers (including their financial, accounting, legal and tax advisers) if they consider it necessary. In addition, investors should be aware that the risks described might combine and thus intensify one another.

RISK FACTORS REGARDING BASF SE AND BASF GROUP

BASF Group's business, financial condition or results of operations could suffer adverse material effects due to any of the following risks.

As a global company BASF is constantly exposed to a wide range of internal or external developments or events that could significantly impact the achievement of its financial and non-financial objectives. While all the risks considered material are described below, these are not the only risks BASF Group faces. Additional risks not known by BASF or not presently considered material might also impair BASF Group's business operations. The sequence in which the risks are listed does not apply any order of significance.

Demand fluctuations due to volatility in market growth may adversely affect BASF Group's sales and earnings.

The development of demand in BASF Group's sales markets represents one of the most important sources of risks. In addition to the baseline scenario, BASF Group also considers risk scenarios. BASF Group sees a significant macroeconomic risk in an increased slowdown of the Chinese economy, which would have considerable impact on demand for intermediate goods for industrial production as well as investment goods. This would have an effect on emerging markets that export raw materials as well as on advanced economies that specialize in technological goods. Risks to the global economy would also be posed by the possible escalation of geopolitical conflicts. The UK's recent Brexit decision has added to the overall economic uncertainty and market volatility. More recently, the situation in Turkey contributed to the political uncertainty. Should the macroeconomic environment develop more weakly than predicted by BASF, a further drop in the price of oil may be expected. In addition, the euro might depreciate relative to the U.S. dollar as compared with the planning assumptions, as the eurozone's economy shows a high level of dependency on exports and, in times of global economic weakness, the U.S. dollar tends to be preferred by investors as a safe haven.

The economic environment and market crises may adversely affect BASF Group's business and financial position.

BASF Group is dependent on the economic environment and cyclical trends in the world economy and may be adversely affected by any downturn in regional or worldwide economies, market crises as well as prolonged periods of instability. There is a considerable correlation between economic development and trade flows and, consequently, economic downturns and phases of prolonged instability often coincide with a decline in trade volumes.

BASF Group is exposed to margin volatility due to fluctuating raw material prices and/or product oversupply/shortage.

BASF Group uses significant amounts of raw materials and energy in manufacturing a wide variety of products. Significant variations in the cost and availability of raw materials, energy, precursors and intermediates may adversely affect BASF Group's operating results. For some products and value chains, it is possible that margin pressure could be increased by new capacities. This would have a negative effect on BASF Group's EBIT. The year's average oil price for Brent crude was around U.S. dollar 52 per barrel in 2015, substantially lower than in the previous year. For 2016, BASF anticipates an average oil price of U.S. dollar 40 per barrel. BASF therefore expects the low price levels to continue for the raw materials and petrochemical basic products that are important to its business. Yet an oil price level below the expected average would pose risks for BASF Group's oil and gas business, whose EBIT dips by approximately EUR 20 million for every U.S. dollar 1 decrease in the average annual barrel price of Brent crude.

Changes in regulation and political risks, including the imposition of trade barriers, such as sanctions in Ukraine crisis or OPEC quotas for oil production, could impact BASF Group's business and operating results.

BASF Group must comply with a broad range of regulatory controls on the testing, manufacturing and marketing of many of its products. Due to the European chemicals regulation REACH, which came into force in 2007, BASF and its European customers face the risk of being placed at a disadvantage to their non-European competitors due to the cost-intensive test and registration procedures.

Other risks for BASF Group include further regulation, for example, for the use of chemicals; the intensification of geopolitical tensions; the destabilization of political systems; and the imposition of trade barriers, such as sanctions in Ukraine crisis or OPEC quotas for oil production. Furthermore, BASF is closely observing the political situation in Argentina, where economic policy reforms could revitalize the business environment.

The German Renewable Energy Act (EEG) is poised for reform in 2016. This regulates the expansion of electricity generation from renewables and passing on costs to energy customers through the EEG surcharge. Currently, existing power plants for self-generated energy are not subject to the EEG surcharge. Consequently, there is currently no additional financial burden for the electricity BASF generates in its existing power plants. The upcoming EEG amendment, however, means that the German federal government needs to review, and possibly revise, this matter in accordance with the E.U. Commission's mandate. It is possible that these plants would need to pay a portion of the EEG surcharge in the future, which would negatively affect the competitive ability of the affected production sites. A proportional EEG surcharge of 20% would translate into additional charges of EUR 75 million per year (before taxes), and the complete EEG surcharge would lead to expenses of around EUR 400 million each year. It is important that negotiations between the federal government and the E.U. Commission find a solution that avoids putting a considerable strain on the affected companies.

Crisis and other developments in politically unstable countries could adversely affect BASF's business and financial position.

BASF Group's business is exposed to economic, political and legal risks due to the international nature of its business. Some of the countries in which BASF Group manufactures or offers services or into which it exports are subject to reduced economic, political, social or legal stability. Potential risks BASF Group might encounter in different countries include in particular the nationalization or expropriation of assets, legal risks, the prohibition of capital transfers, war, terrorist attacks and other unrest. There could also be an indirect negative impact on BASF Group's business outside of a region directly affected by the relevant crisis especially if BASF Group customers in other countries were to change their investment and business plans as a result of the relevant crisis. There is also the risk that embargoes might be agreed for certain countries in which BASF Group operates, which could have an adverse impact on existing trading relations or investment plans which are in place before the embargo comes into force.

BASF Group is exposed to the risk of delivery bottlenecks.

Delivery bottlenecks resulting from interruptions in production or the supply chain and raw material shortages may adversely affect BASF Group's operating results.

BASF Group is subject to the risks associated with the use of information technology.

As a result of the increasing complexity of the electronic information and communication technology, BASF is exposed to various risks, ranging from the loss or theft of data, cyber-attacks, stoppages and interruptions to the business, to systems failure and technical obsolescence of IT systems. BASF Group relies on a number of information technology (IT) systems in order to carry out its day-to-day operations. The non-availability, violation of confidentiality, or the manipulation of data in critical IT systems and applications can lead to the uncontrolled outflow of data and expertise and have a direct impact on production and logistic processes. The threat environment has changed in recent years, as attackers have become better organized, use more sophisticated tools, and have far more resources available. If data are lost or manipulated, this can, for example, negatively affect process safety and the accuracy of BASF Groups financial reporting. Unauthorized access to sensitive data, such as personnel records, competition-related information or research results, can result in legal consequences or jeopardize BASF's competitive position. This would also be accompanied by the associated loss of reputation.

Litigations and claims could harm BASF Group's operating results and cash flows.

With its international operations, BASF Group is exposed to numerous legal risks. These may include, in particular, risks relating to product liability, competition and antitrust law, export control, data protection,

patent law, procurement law, tax legislation and environmental protection in the countries where the BASF Group operates, including countries such as the United States, where legal risks – in particular legal risks stemming from class action product liability - have historically been more significant than in other countries. BASF Group is involved in legal, regulatory, governmental and arbitration proceedings and may become involved in additional proceedings. These proceedings involve claims by and against BASF Group, which arise in the ordinary course of its businesses, including in connection with its business activities, employer, investor and taxpayer. Any proceeding might negatively impact BASF Group. The outcome of current pending or future proceedings and investigations can often not be predicted with certainty. Legal or regulatory judgements or agreed settlements may give rise to significant losses, costs and expenses which are not covered, or not fully covered, by insurance benefits. Such losses, costs and expenses may have a material adverse impact on the business, earnings and financial position of the BASF Group.

Investigations of possible legal or regulatory violations, such as potential infringements of antitrust law or certain marketing and / or distribution methods, may result in the imposition of civil or criminal penalties – including substantial monetary fines – and / or other adverse financial consequences, harm BASF's reputation and ultimately hamper its commercial success.

BASF Group is exposed to foreign exchange risks.

BASF Group conducts a significant portion of its operations outside of Europe and is therefore exposed to risks associated with the fluctuations of foreign currencies. For BASF Group's purchasing, risks arise in particular when the U.S. dollar exchange rate fluctuates. A full-year rise in the value of the U.S. dollar/euro exchange rate by U.S. dollar 0.01 would result in an increase of around EUR 40 million in BASF Group's EBIT, assuming other conditions remain the same. Financial currency risks result from the translation of receivables, liabilities and other monetary items in accordance with IAS 21 at the closing rate into the functional currency of the respective Group company. In addition, BASF incorporates planned purchase and sales transactions in foreign currencies into its financial foreign currency risk management. These risks are hedged using derivative instruments, if necessary.

BASF Group is exposed to interest rate risks.

BASF Group is subject to interest rate risks in the ordinary course of its business and resulting from its financial structure. Interest rate risks result from potential changes in prevailing market interest rates. These can cause a change in the present value of fixed-rate instruments and fluctuations in the interest payments for variable-rate instruments, which would positively or negatively affect earnings. To hedge these risks, interest rate swaps and combined interest rate and currency derivatives are used in individual cases.

In addition to market base interest rates, BASF Group's financing costs are determined by the credit risk premiums to be paid. These are mainly influenced by the company's credit rating and the market conditions at the time of issue.

BASF Group is subject to risks resulting from metal and raw materials trading.

In the catalysts business, BASF Group employs commodity derivatives for precious metals and trades precious metals on behalf of third parties and on its own account. Furthermore, the company uses its knowledge of the markets for crude oil and oil products to generate earnings from the trade of raw materials. Although trading is conducted within predetermined limits and exposure constraints, adverse market developments could lead to significant losses or changes in market values of employed instruments, which may require significant liquidity.

BASF Group is exposed to liquidity risks.

BASF's ability to finance its business depends on future developments of financial markets. Access to liquid funds may be limited during a financial crisis.

BASF Group is exposed to the risk of impairment of individual assets.

The risk of asset impairment occurs if the assumed interest rate in an impairment test increases or the predicted cash flows decline. Albeit impairment risk for individual assets such as customer relationships, technologies and brands, as well as goodwill is considered nonmaterial in the current business environment, an economic downturn with an associated reduction in projected cash flows or an increase in interest rates could increase such risk and thereby affect profitability. Also, a continuing decline in the price of oil below the assumed planning level of BASF Group would result in impairment risks for the Oil & Gas segment's assets, especially the recently acquired fields measured at fair value.

BASF Group is exposed to the risk of asset losses.

Although BASF only engages in transactions with banks with good credit ratings and by adhering to fixed limits for exposures, any counterparty might not be able to fulfil its obligations and BASF might not be able to close open positions in advance. Customers might also not fulfil their obligations from purchase agreements, resulting in an impairment of receivables. Even though BASF limits country-specific risks by internally determining country ratings, which are continuously updated to reflect changing environment conditions, BASF might suffer from losses of assets in individual countries.

BASF Group is exposed to risks arising from its pension obligations.

BASF Group has obligations to current and former employees relating to pensions and other post-employment benefits. BASF Group predominantly finances company pension obligations externally through separate plan assets. This particularly includes BASF Pensionskasse VVaG and BASF Pensionstreuhand e.V. in Germany, in addition to the large pension plans of BASF Group companies located in North America, the United Kingdom and Switzerland.

The fund assets required to cover future pension obligations are actuarially determined using, among others, assumptions concerning the expected return on plan assets. The plan assets are partially comprised of equity and other risky investments. Declining or even negative returns on these investments and a lack of diversification between different asset classes may adversely affect the future fair value of plan assets and could trigger an additional contribution to the pension plan to cover future pension obligations. Additional contributions to pension plans may also be triggered by declining interest rates leading to higher present values of future pension liabilities.

Long-term incentive program for executives may affect personnel costs.

BASF Group executives have the opportunity to participate in a stock-price-based compensation program. The need for provisions for this program varies, among other factors, according to the development of the BASF share price and the MSCI World Chemicals Index which leads to a corresponding increase or decrease in personnel costs.

Increasing competition may adversely affect BASF Group's operating results.

Increasing competition, in particular from emerging markets, may pose a risk to BASF Group's earnings and market shares. Furthermore, BASF Group may face competition from raw material suppliers expanding their value chains.

BASF Group is exposed to technical risks.

Guaranteeing the quality and availability of BASF Group's products can require unforeseen technical measures. Moreover, there is the risk that unscheduled plant shutdowns will be required for safety reasons or due to technical problems. For example, as a precaution BASF Group shuts down plants at the sites on the U.S. Gulf Coast in the event of hurricane warnings. These events may adversely affect BASF Group's operating results.

Cyclicality may adversely affect BASF Group's operating margins.

The results of BASF Group's segments are affected by cyclicality and migration of various industries in which they operate, including the automotive, construction, electrical and electronics industries.

The results of BASF Group's crop protection business are dependent on weather conditions and can be affected by local and regional economic circumstances.

Sales volumes of BASF Group's crop protection products are subject to the agricultural sector's dependency on weather conditions. Adverse weather conditions in a particular growing region could materially negatively affect the results of operations of BASF Group's crop protection business. Demand

for crop protection products is further influenced by the agricultural policies of governments and multinational organizations. In addition, BASF Group's crop protection products are typically sold pursuant to contracts with long payment terms. These extended payment periods make BASF Group's crop protection business susceptible to losses on receivables during local or regional economic crises and may adversely affect BASF Group's operating results.

Risks from handling hazardous materials could adversely affect BASF Group's operating results.

BASF Group is subject to operating risks associated with chemical manufacturing, including the risks of production, distribution, handling and storage of BASF Group's products. These operating risks do have the potential to cause personal injury, property damage and environmental contamination, and may result in business interruptions, the shutdown of affected facilities and liability for compensation payments. Any of these events may adversely affect BASF Group's operating results.

Exploration risk may adversely affect the business of BASF Group's Oil & Gas segment.

The future growth of the exploration and production unit of BASF Group's Oil & Gas segment is dependent on successful findings. The search for new oil and natural gas reserves involves certain geological risks that relate to the availability of hydrocarbon products and the quality thereof.

Failure to develop new products and production technologies may harm BASF Group's competitive position and operating results.

BASF Group's operating results depend on the development of commercially viable new products and production technologies. BASF Group devotes substantial resources to research and development. Due to the high degree of complexity and uncertainty involved in chemical and biological research, there is a risk that projects might be discontinued for technical or economic reasons, budgets may be exceeded or developed products will not receive regulatory approval for sale or will not achieve the expected commercial success.

BASF Group is subject to risks arising from acquisitions and investment decisions.

Acquisition and investment decisions are associated with complex risks due to the high level of capital involved and the long-term capital commitment. Examples of risks include increased staff turnover and loss of knowledge and expertise, unexpected high integration costs, delayed realization of synergies and the assumption of obligations that were not precisely quantifiable in advance. These risks could result in material impairments of the respective assets and the expected earnings. In addition, there is the risk that BASF's profitability might be reduced because successful claims relating to representations and warranties given in the course of the sale of a company or assets are successfully made against BASF.

BASF Group is dependent upon hiring and retaining highly qualified management and technical personnel.

BASF Group's future success depends in part on its continued ability to hire, integrate and retain highly skilled employees. BASF expects a medium to long-term shortage of skilled employees due to demographic changes, especially in North America and Europe. As a result, there is an increased risk that job vacancies may not be filled with suitable applicants, or only after a delay. Therefore business could negatively be affected. Also challenges from additional recruitment demand in Asia could affect BASF's targeted growth in this region negatively.

Missing targets on sustainability might entail reputational losses, potentially resulting in operational or strategic risks.

BASF Group is committed to integrating environmental protection and socially responsible conduct into its business activities. Infringements of BASF Group's voluntary commitment or legal violations represent a reputational risk and could lead to operational or strategic risks. In terms of upcoming risks, material aspects identified included: energy and climate, water, resources and ecosystems, responsible production, and employment and employability. In addition to specific requirements for these aspects, discussion is growing surrounding the internalization of external effects. For BASF as an energy-intensive company, risks arise particularly from regulatory changes in carbon prices through emissions trading systems, taxes or energy legislation.

Credit ratings assigned to BASF or any of the Notes may not reflect all the risks associated with an investment in the Notes.

A rating downgrade may increase BASF Group's financing costs and negatively impact the market values of the Notes. Credit ratings assigned to BASF or any of the Notes may not reflect the potential impact of all risks related to structure, market and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time and on short notice. Rating agencies may also change their methodologies for rating issuers or securities in the future. An actual or anticipated downgrade of ratings could result in increased interest and other financial expenses. It could also have a material negative impact on the market values of the Notes.

BASF Group is subject to risks in connection with future changes in taxation and uncertain tax environments.

As a group with global operations, BASF Group is governed by the tax rules and regulations applicable in each country in which it operates. A change in such rules and regulations may result in a higher tax rates or expenses. In addition, changes in tax legislation may have a significant impact on BASF Group's tax receivables and tax liabilities as well as on its deferred tax assets and deferred tax liabilities. BASF Group also operates in countries with complex tax regulations which could be interpreted in different ways. Future interpretations of these regulations and/or changes in the tax system might have an impact on BASF Group's tax liabilities, profitability and business operations. BASF Group is regularly audited by the tax authorities in various jurisdictions and cannot exclude that such tax audits will lead to additional tax claims that could have a material adverse effect on its business, financial condition and results of operations.

BASF Group is exposed to compliance risks

Unethical behavior and non-compliance with BASF Group's integrity standards due to intentional and fraudulent behavior of employees could materially harm BASF Group's business, financial position, profit, and reputation. BASF Group may encounter unethical behavior and non-compliance with BASF Group integrity standards due to intentional and fraudulent behavior of individual employees, possibly in collusion with external third parties. In addition to intentional behavior, problems could also arise due to negligence in the adherence to rules and regulations. Unethical behavior and misconduct attributable to BASF Group could not only lead to criminal charges, fines, and claims by injured parties, but also to financial loss, and severe reputational damage. This could have a material adverse effect on BASF Group's business, financial position, profit, and cash flows.

There may be risks which are unknown to BASF Group or which are currently believed to be immaterial which could, however, have a material adverse effect on BASF Group's business, competitive position, financial position and results of operations.

BASF Group's businesses are exposed to varying degrees of risk and uncertainty related to other factors including competitive pricing, consumption levels, physical risks, rates of inflation, legislative, fiscal and regulatory developments, loss of reputation, terrorism and economic, political and social conditions in the environments where it operates. All of these risks could materially affect BASF Group's business, its turnover, operating profit, net profit, net assets and liquidity. There may be risks which are unknown to BASF Group or which are currently believed to be immaterial.

RISK FACTORS REGARDING BASF FINANCE EUROPE N.V.

BASF Finance continued operations depend on the ability of BASF and other members of BASF Group to meet their payment obligations under intra-group loans provided to them by BASF Finance. In the event that a member of the BASF Group fails to make a payment under an intra-group loan, BASF Finance may not be able to meet its payment obligations under the Notes issued by it.

All debt securities of BASF Finance (such as the Notes) are wholly and unconditionally guaranteed by BASF in respect of principal and interest payments. This Guarantee is enforceable under the laws of Germany.

For the risk factors regarding BASF, as Guarantor and debtor to BASF Finance, please see the separate section above.

RISK FACTORS REGARDING THE NOTES

Notes may not be a suitable investment for all investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Liquidity risk

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Prospectus to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange. In addition, the Program provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there is a risk that no liquid secondary market for the Notes will develop or, if it does develop, that it will not continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted Notes. If Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market price risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The Holders of Notes are therefore exposed to the risk of an unfavourable development of market prices of their Notes, which materializes if the Holders sell the Notes prior to the final maturity of such Notes. If a Holder of Notes decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the relevant Final Terms.

Currency risk

A Holder of Notes denominated in a foreign currency (*i.e.* a currency other than euro) is particularly exposed to the risk of changes in currency exchange rates, which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the euro, for example, will result in a corresponding change in the euro value of Notes denominated in a currency other than euro and a corresponding change in the euro value of interest and principal payments made in a currency other than euro in accordance with the terms of such Notes. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Notes and the value of interest and principal payments made thereunder expressed in euro falls.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

Risk of early redemption

The applicable Final Terms will indicate whether an Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (early redemption event). In addition, each Issuer will always have the right to redeem the Notes if the relevant Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the relevant Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a Holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise its optional call right if the yield on comparable Notes in the capital market has increased. In this event, an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the relevant Issuer may exercise any optional call right irrespective of market interest rates on a call date.

Fixed Rate Notes

A Holder of Fixed Rate Notes is particularly exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Notes, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of Fixed Rate Notes also changes, but in the opposite direction. If the market interest rate increases, the price of Fixed Rate Notes typically falls, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of Fixed Rate Notes typically increases, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the Holder of Fixed Rate Notes holds such Notes until maturity, changes in the market interest rate are without relevance to such Holder as the Notes will be redeemed at a specified redemption amount, usually the principal amount of such Notes.

Floating Rate Notes

A Holder of Floating Rate Notes is particularly exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Resolutions of Holders

Since the Notes provide for meetings of Holders or the taking of votes without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Holdings' Representative

Since the Notes provide for the appointment of a Holdings' Representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holdings' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

Risks related to Renminbi ("RMB") denominated Notes

RMB is not freely convertible; there are significant restrictions on remittance of RMB into and outside the People's Republic of China (the "PRC").

RMB is not freely convertible at present. This may adversely affect the liquidity of the RMB denominated Notes ("**RMB Notes**"); the availability of RMB funds for servicing the RMB Notes may be subject to future limitations imposed by the PRC government.

The PRC government continues to regulate conversion between RMB and foreign currencies, including the euro, despite the significant reduction over the years by the PRC government of control over routine

foreign exchange transactions under current accounts. Currently participating banks in, *inter alia*, Frankfurt, London, Singapore, Hong Kong, Macau and Taiwan have been permitted to engage in the settlement of RMB trade transactions. This represents a current account activity.

While there have been several reforms to further reduce governmental control over foreign exchange transactions in recent years, there is no assurance that the PRC government will continue to liberalize a control over cross-border RMB remittances in the future or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of RMB into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in RMB, this may affect the overall availability of RMB outside the PRC and the ability of the Issuer to source RMB to perform its obligations under RMB Notes.

There is only limited availability of RMB outside the PRC, which may affect the liquidity of the RMB Notes and the Issuer's ability to source RMB outside the PRC to service the RMB Notes.

As a result of the restrictions imposed by the PRC government on cross-border RMB fund flows, the availability of RMB outside of the PRC is limited. Currently, licensed banks in Singapore, Hong Kong and Taiwan may offer limited RMB-denominated banking services to Singapore residents, Hong Kong residents, Taiwan residents and specified business customers. The People's Bank of China ("**PBOC**") has also established a RMB clearing and settlement system for participating banks in Hong Kong, Singapore, Taiwan, London, Frankfurt and Seoul. Each of Industrial and Commercial Bank of China, Singapore Branch, Bank of China (Hong Kong) Limited, Bank of China, Taipei Branch, China Construction Bank (London) Limited, Bank of China, Frankfurt Branch and Bank of Communications, Seoul Branch (each an "**RMB Clearing Bank**") has entered into settlement agreements with the PBOC to act as the RMB clearing bank in Singapore, Hong Kong, Taiwan, London, Frankfurt and Seoul, respectively.

However, the current size of RMB-denominated financial assets outside the PRC is limited. RMB business participating banks do not have direct RMB liquidity support from the PBOC. They are only allowed to square their open positions with the relevant RMB Clearing Bank after consolidating the RMB trade position of banks outside Singapore, Hong Kong, Taiwan, London, Frankfurt and Seoul that are in the same bank group of the participating bank concerned with their own trade position and the relevant RMB Clearing Bank only has access to onshore liquidity support from the PBOC for the purposes of squaring open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations relating to cross-border trade settlement. The relevant RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source RMB from the offshore market to square such open positions.

Although it is expected that the offshore RMB market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the settlement agreements will not be terminated or amended in the future which will have the effect of restricting availability of RMB offshore. The limited availability of RMB outside the PRC may affect the liquidity of the RMB Notes. To the extent the Issuer is required to source RMB in the offshore market to service its RMB Notes, there is no assurance that the Issuer will be able to source such RMB on satisfactory terms, if at all.

Investments in the RMB Notes are subject to RMB exchange rate risks.

The value of the RMB against the euro and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. Except in the limited circumstances as described in the Conditions, the Issuer will make all payments of interest and principal with respect to the RMB Notes in RMB. As a result, the value of these RMB payments in euro or other applicable foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against the euro or other applicable foreign currency, the value of a noteholder's investment in euro or other applicable foreign currency terms will decline.

Investments in the RMB Notes are subject to currency risks.

If the Issuer cannot obtain RMB and is not able, or it is impracticable for it, to satisfy its obligation to pay interest and principal on the RMB Notes when due, in whole or in part, in RMB in the relevant RMB Settlement Centre as a result of Inconvertibility, Non transferability or Illiquidity (each, as defined in § 4(7)(d) in the Terms and Conditions of Option I), the Issuer shall be entitled to postpone any such payment or, on giving not less than five or more than 30 days' irrevocable notice to the noteholders prior to the due date for payment, to settle any such payment, in whole or in part, in U.S. dollars on the due date at the U.S. Dollar Equivalent (as defined in the Terms and Conditions of Option I) of any such interest or principal amount otherwise payable in RMB, as the case may be. The Issuer may early terminate the RMB

Notes if it decides to settle payments at the U.S. Dollar Equivalent due to Inconvertibility, Non-transferability or Illiquidity.

Notes issued by BASF Finance will have the benefit of a Guarantee (the "**Guarantee**") given by BASF. The Guarantee constitutes an irrevocable, unsecured and unsubordinated obligation of the Guarantor ranking *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor.

Notes may be issued on a continuing basis to one or more of the Dealers. Notes may be distributed by way of public offer or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each tranche ("**Tranche**") will be stated in the relevant final terms (the "**Final Terms**"). The Notes may be offered to qualified and non-qualified investors.

Notes will be issued in Tranches, each Tranche in itself consisting of Notes, which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and identical in all respects, but having different issue dates, interest commencement dates, issue prices and dates for first interest payments may form a series ("**Series**") of Notes. Further Notes may be issued as part of existing Series.

Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 1,000, and, if in any currency other than euro, an amount in such other currency nearly equivalent to EUR 1,000 at the time of the issue of Notes. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Application has been made to the Commission, which is the Luxembourg competent authority for the purpose of the Prospectus Directive for its approval of this Prospectus.

Application has been made to the Luxembourg Stock Exchange for Notes issued under this Program to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange. Clearstream Banking, société anonyme, Luxembourg and Euroclear Bank SA/NV. Notes denominated in euro or, as the case may be, such other currency recognized from time to time for the purposes of eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem are intended to be held in a manner, which would allow Eurosystem eligibility. Therefore, the Notes will be deposited initially upon issue with in the case of (i) a new global note either Clearstream Banking société anonyme, Luxembourg or Euroclear Bank SA/NV as common safekeeper or, (ii) a classical global note Clearstream Banking AG, Frankfurt am Main. It does not necessarily mean that the Notes will be recognized as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Deutsche Bank Luxembourg S.A. will act as Luxembourg Listing Agent and Deutsche Bank Aktiengesellschaft will act as fiscal agent and paying agent (the "**Fiscal Agent**").

II. Issue Procedures

General

The relevant Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each particular Tranche of Notes (the "**Conditions**"). With respect to each type of Notes, the respective Option I A, Option I B, Option I C, Option I D, Option II A, Option II B, Option II C and Option II D are incorporated by reference into this Prospectus for the purpose of a potential increase of Notes outstanding and originally issued prior to the date of this Prospectus.

Documentation of the Conditions

The relevant Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Prospectus only. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options (characterized by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterized by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The relevant Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

As to the controlling language of the respective Conditions, the following applies:

- In the case of Notes (i) publicly offered, in whole or in part, in Germany, or (ii) initially distributed, in whole or in part, to non-qualified investors in Germany, German will be the controlling language. If, in the event of such public offer or distribution to non-qualified investors, however, English is chosen as the controlling language, a German language translation of the Conditions will be available from the principal offices of the Fiscal Agent and BASF, as specified on the back cover of this Prospectus.
- In other cases the relevant Issuer will elect either German or English to be the controlling language.

ALTERNATIVE PERFORMANCE MEASURES (APM)

The Prospectus also uses the following alternative performance measures, not defined by IFRS, to describe the BASF Group's results of operations. These should not be viewed in isolation, but treated as supplementary information.

The special items used below to calculate some alternative performance measures arise from the integration of acquired businesses, restructuring measures, impairments, gains or losses resulting from divestitures and sales of shareholdings, and other material expenses and income that generally do not arise in conjunction with ordinary business activities.

Adjusting for special items makes EBIT before special items an especially suitable figure for illustrating the development of operating business over time as well as for forecasts. It is therefore among the most important performance measures for managing the BASF Group.

Income from operations before depreciation and amortization (EBITDA) describes operational performance independently of age-related amortization and depreciation of assets and any valuation allowances (impairments or write-ups). It is therefore particularly useful for comparing companies.

The values for the respective APM for the first half of 2016/2015 are shown on page 42 of the H1 Report 2016.

The values for the respective APM for the full Year 2015/2014 are shown below.

GENERAL INFORMATION ABOUT BASF SE

HISTORY AND DEVELOPMENT OF THE ISSUER

BASF was incorporated as a stock corporation under the laws of Germany on January 30, 1952 under the name "Badische Anilin- und Soda-Fabrik AG". In 1973, BASF changed its name to BASF Aktiengesellschaft. BASF Aktiengesellschaft was registered until January 14, 2008 in the commercial register (*Handelsregister*) of the local court (*Amtsgericht*) Ludwigshafen am Rhein, Germany, under the entry number HRB 3000.

The Annual Shareholders' Meeting of BASF shareholders on April 26, 2007 approved the proposal of the Board of Executive Directors and the Supervisory Board to convert BASF Aktiengesellschaft into a European Company (*Societas Europaea*, SE) with the name BASF SE. BASF SE is registered as of January 14, 2008 in the new legal form of a European Company (*Societas Europaea*, SE) in the commercial register (*Handelsregister*) of the local court (*Amtsgericht*) of Ludwigshafen am Rhein, Germany, under the entry number HRB 6000. As set forth in Art. 37 para. 2 of Council Regulation (EC) No. 2157/2001 of October 8, 2001 on the Statute for a European Company (SE) this conversion neither resulted in the dissolution of the company nor in the establishment of a new legal person. Therefore, through such conversion BASF SE is the same legal person as BASF Aktiengesellschaft.

The legal foundations of BASF SE's corporate constitution are primarily the SE Council Regulation of the European Union, the German SE Implementation Act and the German Stock Corporation Act. Despite these new legal foundations, the previous fundamental elements of BASF Aktiengesellschaft's corporate constitution remain unchanged in BASF SE: these are the two-tier system consisting of BASF's Board of Executive Directors and the Supervisory Board, the equal representation of shareholders and employees in the Supervisory Board and the shareholders' rights of co-administration and supervision at the Annual Shareholders' Meeting.

BASF's headquarter is located in Ludwigshafen am Rhein, Germany; its registered office is located at Carl-Bosch-Straße 38, 67056 Ludwigshafen am Rhein, Germany, telephone 0049-621-60-0. It operates under German law.

Management and Supervisory Bodies

General

In accordance with the maintained two-tier administrative system, BASF has a Board of Executive Directors (*Vorstand*) and a Supervisory Board (*Aufsichtsrat*). The two boards are separate, and no individual is simultaneously a member of both boards.

The Board of Executive Directors is responsible for managing the business of BASF in accordance with the German Stock Corporation Act and BASF's Articles of Association. The Board of Executive Directors also represents BASF in its dealings with third parties and in court.

The principal function of the Supervisory Board is to appoint and supervise the Board of Executive Directors. The Supervisory Board may not make management decisions, but BASF's Articles of Association or the Supervisory Board itself may require the prior consent of the Supervisory Board for certain types of transactions.

Members of both the Board of Executive Directors and the Supervisory Board owe a duty of loyalty and care to BASF. In exercising these duties, the applicable standard of care is that of a diligent and prudent business person. Members of both boards must take into account a broad range of considerations when

making decisions, foremost the interests of BASF, including its shareholders, employees and creditors and, to a certain extent, the interests of society. The members of the Board of Executive Directors and the Supervisory Board are personally liable to BASF for breaches of their duties of loyalty and care.

None of the members of the Supervisory Board or the Board of Executive Directors of BASF have any material conflicts of interests between any duties to BASF and their private interests or other duties. The members of the Supervisory Board and of the Board of Executive Directors can be contacted at the address of the headquarters of BASF.

The Supervisory Board is also entitled to request special reports at any time.

The Supervisory Board appoints members to the Board of Executive Directors for a maximum term of five years. Members of the Board of Executive Directors may be re-appointed (even prior to the expiration of her or his term) or have their terms extended for one or more terms. Each re-appointment or extension shall have a maximum term of five years.

Under certain circumstances, such as a serious breach of duty or a bona fide vote of no confidence by a majority of votes at a Shareholders' Meeting, a member of the Board of Executive Directors may be removed by the Supervisory Board prior to the expiration of her or his term. A member of the Board of Executive Directors may not deal with or vote on matters relating to proposals, arrangements or contracts between that member and BASF.

The Articles of Association of BASF require decisions of the Board of Executive Directors to be made by a simple majority unless the law requires a larger majority. In case of a tie, the chairman has the casting vote.

(1) Employee representative

BASF SE's Supervisory Board established a total of three Supervisory Board Committees: the Personnel Committee, the Audit Committee and the Nomination Committee.

The Personnel Committee's duties include, amongst others, preparing the appointment of members to the Board of Executive Directors by the Supervisory Board and the employment contracts to be entered into with members of the Board of Executive Directors. When making recommendations on appointments to the Board of Executive Directors, the Personnel Committee takes into account their professional qualifications, international experience and leadership skills, long-term succession planning as well as diversity and, in particular, the appropriate consideration of women. It also prepares the resolutions made by the Supervisory Board with regard to the system and determination of the amount of compensation paid to members of the Board of Executive Directors. The committee comprises Supervisory Board Chairman Dr. Jürgen Hambrecht (chairman), Supervisory Board Vice Chairmen Michael Diekmann and Robert Oswald, and Michael Vassiliadis.

The Audit Committee prepares the negotiations and resolutions of the Supervisory Board for the approval of the financial statements and consolidated financial statements, and discusses the quarterly and first-half financial reports with the Board of Executive Directors prior to their publication. It also deals with: Monitoring the financial reporting process, the annual audit, the effectiveness of the internal control system, the risk management system, and the internal auditing system as well as compliance issues. The Audit Committee is also responsible for business relations with the company's external auditor: It prepares the Supervisory Board's proposal to the Shareholders' Meeting regarding the selection of an auditor, monitors the auditor's independence, defines the focus areas of the audit together with the auditor, negotiates auditing fees and establishes the conditions for the provision of the auditor's non-audit services. The Audit Committee is authorized to request any information that it deems necessary from the auditor or Board of Executive Directors. It can view all of BASF's business documents and examine these and all other assets belonging to BASF. The Audit Committee can also engage experts such as auditors or lawyers to carry out these inspections. The members of this committee are Dame Alison J. Carnwath DBE (chairwoman), Ralf-Gerd Bastian, Franz Fehrenbach and Michael Vassiliadis. Dame Alison J. Carnwath DBE has particular knowledge in the application of accounting principles and internal audit procedures based on her role as Senior Advisor to Evercore Partners and her substantial financial industry experience in various supervisory mandates.

According to the recommendation of the German Corporate Governance Code, BASF SE's Supervisory Board established a Nomination Committee that will prepare the proposals for the Supervisory Board members to be elected at the Shareholders' Meeting. The members of the Nomination Committee are the members of the Supervisory Board elected at the BASF Shareholders' Meeting: Dame Alison J. Carnwath DBE, Prof. Dr. François Diederich, Michael Diekmann, Franz Fehrenbach, Dr. Jürgen Hambrecht and Anke Schäferkordt.

German corporate governance rules

Principal sources of enacted corporate governance standards for BASF are the SE Council Regulation of the European Union, the German SE Implementation Act (*Gesetz zur Einführung der Europäischen Aktiengesellschaft* - "**SEEG**"), the German Stock Corporation Act (*Aktiengesetz* - "**AktG**") and the Agreement Concerning the Involvement of Employees in BASF. In addition, the German Corporate Governance Code (the "**Code**"), published by the German Ministry of Justice (*Bundesministerium der Justiz*) in 2002, as amended, presents essential widely accepted standards for the corporate governance of German listed companies. The aim of the Code is to make the German corporate governance rules applicable to listed German stock corporations transparent for national and international investors.

According to § 161 AktG (Stock Corporation Act), the Board of Executive Directors and the Supervisory Board of a listed German stock corporation are required to declare annually (declaration of compliance) either:

- (i) that the company has complied, and does comply, with the recommendations set forth in the Code, or, alternatively,
- (ii) that the company has not or does not comply with certain recommendations and the reason why it does not comply with these recommendations (so-called comply or explain system).

In December 2015, the Board of Executive Directors and the Supervisory Board of BASF declared pursuant to § 161 AktG (Stock Corporation Act) the following:

1. The recommendations of the Government Commission on the German Corporate Governance Code as amended on June 24, 2014, published by the Federal Ministry of Justice on September 30, 2014, in

the official section of the electronic Federal Gazette, have been complied with since the submission of the last Declaration of Conformity in December, 2014.

- The recommendations of the Government Commission on the German Corporate Governance Code as amended on May 5, 2015, published by the Federal Ministry of Justice on June 12, 2015, in the official section of the electronic Federal Gazette, are complied with and will be complied with.

Employees

As of December 31, 2015, BASF Group employed a workforce of 112,435 employees worldwide. About 47% of the workforce is based in Germany. In 2015, BASF Group spent EUR 9,982 million on wages and salaries, social security contributions and expenses for pensions and assistance. Personnel expenses increased by 8.2% compared to the previous year, particularly owing to currency effects. Higher salaries and wages, in addition to expenses for the anniversary bonus and the long-term incentive (LTI) program, also contributed to the increase.

The following table details BASF Group's workforce on a regional basis as of December 31, 2015 and 2014, respectively.

² Standard & Poor's has assigned the long-term credit rating A (outlook stable) to BASF, which indicates that the Issuer has a strong capacity to meet its financial commitments, but is somewhat susceptible to adverse economic conditions and change in circumstances. The "stable" outlook reflects that Standard & Poor's is not likely to change the rating in the next 6 to 24 months.

³ A credit rating assesses the creditworthiness of an entity and informs an investor therefore about the probability of the entity being able to redeem invested capital. It is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

⁴ Moody's is established in the European Community is registered under the CRA Regulation.

⁵ The European Securities and Markets Authority publishes on its website (www.esma.europa.eu/page/List-registered-and-certified-CRAs) a list of credit rating agencies registered in accordance with the CRA Regulation. That list is updated within five working days following the adoption of a decision under Article 16, 17 or 20 CRA Regulation. The European Commission shall publish that updated list in the Official Journal of the European Union within 30 days following such update.

⁶ Moody's has assigned an "A1" rating (outlook stable) which means that obligations of the Issuer are judged to be upper-medium grade and are subject to low credit risk. A "stable" outlook indicates a low likelihood of a rating change over the medium term.

⁷ Scope Ratings is established in the European Community is registered under the CRA Regulation.

With around 112,000 employees, six Verbund sites and 338 additional production sites worldwide BASF Group supports customers and partners in almost every country in the world. The portfolio ranges from chemicals, plastics, performance products and crop protection products to oil and gas.

For the year ended December 31, 2015, BASF Group reported sales of EUR 70,449 million, income from operations before special items of EUR 6,739 million.

Markets and sites

BASF has companies in more than eighty countries and supplies products to a large number of business partners in nearly every part of the world. In 2015, BASF Group achieved 52% of its sales with customers in Europe. In addition, 22% of sales were generated in North America; 18% in Asia Pacific; and 8% in South America, Africa and Middle East. BASF Group operates six Verbund sites as well as 338 additional production sites worldwide. The Verbund site in Ludwigshafen is one of the largest integrated chemical complexes in the world. This was where the concept of integrated production facilities (the "**Verbund**") was developed and continuously optimized before it was applied to other sites around the world.

The Production Verbund, for example, intelligently links production plants and thereby creates efficient value chains from basic chemicals right through to high value-added products such as aroma chemicals or crop protection products. In addition, by-products from one plant can be used as raw materials elsewhere. With this closely interlinked production system, BASF saves raw materials and energy costs. Another important part of the Verbund concept is the Energy Verbund, in which steam from production processes is not discharged into the environment, but is captured to be used as an energy source at other production plants, thus making a major contribution to energy efficiency.

Organization of BASF Group

BASF Group is arranged into five segments: Chemicals, Performance Products, Functional Materials & Solutions, Agricultural Solutions and Oil & Gas. Since January 1, 2016, these five segments contained 13 divisions that managed and bore operational responsibility for BASF's 61 global and regional business units. The divisions develop strategies for 84 strategic business units and are organized according to sectors or products. At the end of September 2015, BASF rearranged the activities in the Oil & Gas segment, which are bundled into the Wintershall Group. As part of the asset swap with BASF's partner Gazprom, BASF handed over their shares in the previously jointly run natural gas trading and storage business and in return are expanding the oil and gas production in western Siberia. BASF continues to operate the natural gas transport business together with Gazprom, but do not report on it separately.

The regional divisions contribute to the local development of BASF's business and help to exploit market potential. They are also responsible for optimizing the infrastructure for BASF's business. For financial reporting purposes, the divisions are grouped into the following four regions: Europe; North America; Asia Pacific; and South America, Africa, Middle East.

Three central divisions, six corporate units and ten competence centers provide services for the BASF Group in areas such as finance, investor relations, communications, human resources, research, engineering and site management, as well as environment, health and safety.

In the BASF Group Consolidated Financial Statements, 251 companies including BASF SE are fully consolidated. BASF consolidates seven joint operations on a proportional basis, and 32 companies are accounted for using the equity method.

BASF Group strategy

BASF Group is one of the world's leading chemical companies and it aims to strengthen this position. Its portfolio ranges from chemicals, plastics, performance products and crop protection products to oil and gas. BASF strives to combine economic success with environmental protection and social responsibility. Through research and innovation BASF aims to enable its customers in nearly every industry to meet the current and future needs of society. BASF's products and solutions contribute to conserving resources, ensuring nutrition and helping to improve the quality of life. BASF has summed up this contribution in its corporate purpose: "We create chemistry for a sustainable future".

It is estimated that in 2050 around ten billion people will live on this planet. This population growth is associated with global challenges but BASF also sees opportunities, especially for the chemical industry. BASF expects the chemical industry to grow particularly strongly in the emerging economies. Innovations based on chemistry are expected to play a key role in the following areas in particular: resources, environment and climate; food and nutrition; and quality of life. Sustainability is becoming increasingly important as a key factor for growth and value creation. Customers tend to favor sustainable products and system solutions and employees expect companies to integrate sustainability into their day-to-day activities. That is why BASF intends to integrate sustainability even more closely into its business.

Four Strategic Principles

BASF Group strives to add value as one company: BASF Group's Verbund system is unique in the industry. BASF plans to strengthen this sophisticated and profitable Verbund system even further, hereby benefiting from its broad portfolio, operational excellence and solid financing. The concept extends from the Production Verbund and Technology Verbund to the Know-How Verbund, and provides access to all relevant customer industries worldwide. In this way, BASF Group combines its strengths and adds value as one company.

BASF Group wants to innovate to make its customers more successful: BASF Group also intends to align its business even more with customers' needs and contribute to their success with innovative and sustainable solutions. Through close partnerships with customers and research institutes, BASF links expertise in chemistry, biology, physics, materials science and engineering to jointly develop customized products, functional materials, and system solutions as well as processes and technologies.

BASF Group intends to drive sustainable solutions: In the future, sustainability will increasingly become a starting point for new business opportunities. BASF therefore values sustainability and innovation as important drivers for profitable growth.

BASF Group strives to form the best team: Committed and qualified employees around the world are key to making BASF Group's contribution to a sustainable future. That is why BASF will continue to pursue the goal of building the best team by offering good working conditions as well as an inclusive leadership culture that fosters mutual trust, respect and dedication to top performance.

Strategic levers

Portfolio management: BASF pursues active portfolio management. In recent years, BASF has continuously optimized its portfolio through acquisitions, divestitures and partnerships. BASF makes acquisitions to build on its strengths and to increase the Group's competitiveness. BASF's portfolio consists of two distinct business models: specialties and solutions as well as differentiated commodities. BASF aims to generate ~50% of sales in each of the business models.

Market approach: BASF aligns its business models and sales channels to customer groups and market segments by pooling products and services to even better meet the needs of customers from different industries. BASF Group has identified main customer industries that are served by its divisions. Main customer industries are targeted by a cross-divisional approach.

Innovations: Innovations based on effective and efficient research will play an important part in enabling BASF to achieve its targets. Therefore, BASF is broadening its long-term research activities to encompass the development of new business areas. BASF focusses on three areas which chemistry-based innovations are expected to play a key role in the futures: resources, environment and climate; food and nutrition; and quality of life. At the beginning of 2015, BASF arranged the central Research units Process Research & Chemical Engineering, Advanced Materials & Systems Research, and Bioscience Research into three global platforms each headquartered in one of the regions particularly significant for BASF: Europe, Asia Pacific and North America. As knowledge and competence centers, they form the core of BASF's global Know-How Verbund, joined by the development units in BASF's operating divisions. BASF New Business and BASF Venture Capital supplement this network. Their task is to develop attractive new markets and new business models for BASF based on new technologies.

Investments: Investments targeting organic growth are one of the levers for BASF's future growth. BASF expects emerging markets to be a main driver of global growth in chemical production and hence intends to intensify the investments in emerging markets, while continuing the investments in mature markets. In 2015, BASF invested EUR 5,651 million in property, plant and equipment. Total investments therefore exceeded the previous year's level by EUR 283 million. BASF presumes that the average yearly investment between 2016 and 2020 will be lower compared with 2015, after having started up operations at several major plants. Recent major investment projects include a new MDI plant in Chongqing, China, as well as an integrated TDI complex in Ludwigshafen, Germany, with a capacity of 300,000 metric tons per year. In Kuantan, Malaysia, BASF is building an aroma ingredients plant. The expansion of its Verbund site in Nanjing, China, is proceeding well. Together with Yara International ASA, based in Oslo, Norway, BASF has begun construction on an ammonia production plant in Freeport, Texas. In the Oil & Gas segment, BASF invested primarily in field development projects in Argentina, Norway and Russia in 2015.

Acquisitions: Acquisitions are a contributing factor for achieving strategic targets. BASF Group has strategic and financial acquisition criteria which are used to evaluate potential acquisition targets. In recent years, BASF Group acquired a number of specialized, close-to-end-user businesses (such as Cognis). In turn, the company divested more commoditized and cyclical businesses (such as styrenics).

Operational excellence: BASF Group constantly works on improving its sites, plants and processes and will continue with its restructuring and cost-cutting measures in the future. At the same time, BASF is increasing its operational excellence through ongoing improvements by harmonizing business processes worldwide and improving their efficiency. The strategic excellence program, STEP, has strengthened BASF's competitiveness and profitability. By the end of 2015, STEP contributed around EUR 1.3 billion in savings each year, compared with the baseline year 2011. BASF's current strategic excellence program DrivE is expected to further strengthen the competitiveness and profitability. By the end of 2018, DrivE is expected to contribute around EUR 1 billion to earnings, compared with the baseline year 2015. This program includes measures in the areas of production, engineering, maintenance, logistics, procurement and administration, that are expected to lower fixed costs and raise profit margins.

BASF Group's segments

CHEMICALS

Segment overview

The Chemicals segment consists of the Petrochemicals, Monomers and Intermediates divisions. BASF produces a broad range of basic chemicals and downstream products in Europe, Asia and North America for internal and external customers.

Segment strategy

The segment creates value by driving growth with an attractive portfolio, investments in future markets and process and product innovations as well as by the competitive and flexible integration of its production into the BASF Verbund structures. The segment supplies other BASF Group segments with basic chemicals for the production of high-value products. As a supplier, it markets its products to customers in downstream industries. It continually improves its value-adding chains with innovations, capital expenditures and acquisitions as well as through collaborations in future markets. Main success factors for the Chemicals segment are operational and technological excellence, scale effects, integration and raw material availability, reliable and low cost logistics, as well as the reduction of complexity. The segment constantly optimizes its portfolio and production structures and aligns them with regional market requirements.

Innovation

Research activities in the segment are focused on the development of innovative production processes that aim to make BASF more competitive. Cost leadership and a clear orientation along individual value chains are among the most important competitive advantages. The segment also continuously improves existing products and applications. In developing new products, it looks at the needs of external and internal customers and takes advantage of the opportunities offered by value-adding chains in the BASF Verbund and in its markets.

For example, over the last few years, BASF constantly has improved the production process for isononanol (INA), an important precursor for products like plasticizers. BASF has been able to raise the production and energy efficiency of this process and expand its raw material base, so that in addition to steam cracker products, side streams from refineries can also be used as a raw material. This increases the supply security and improves the cost structure. Together with BASF's partner Sinopec, BASF started up a new INA production plant in October 2015 in Maoming, China, in which the new process has already been successfully implemented.

BASF Group business review and analysis

In the Chemicals segment, sales to third parties declined by EUR 2,298 million to EUR 14,670 million in 2015. This was essentially due to lower prices on account of decreased raw material costs, especially in the Petrochemicals division (volumes -2%, prices -17%, portfolio -2%, currencies 7%). Sales were also reduced by the disposal of BASF's share in the Singapore-based Ellba Eastern Private Ltd. joint operation. Income from operations before special items fell by EUR 211 million to EUR 2,156 million. This was primarily attributable to the declining TDI margins in the Monomers division as well as rising fixed costs from the startup of new production plants. Income from operations decreased by EUR 265 million to EUR 2,131 million. Special items had no material effect on earnings in 2015.

Petrochemicals

In the Petrochemicals division, sales to third parties decreased by EUR 2,104 million to EUR 5,728 million in 2015, mostly because of a sharp drop in sales prices (volumes -4%, prices -25%, portfolio -4%,

currencies 6%). This development was largely the result of the sharp decrease in raw material prices since the fourth quarter of 2014, especially for naphtha. Sales were furthermore diminished by the consequences of a production outage at the Ellba C.V. joint operation at the Moerdijk, Netherlands, site since June 2014 as well as the divestiture of BASF's shares in the Singapore-based Ellba Eastern Private Ltd. joint operation at the end of 2014. In North America, higher prices for condensate led to reduced capacity utilization of the condensate splitter and therefore to lower sales volumes. Currency effects, however, were overall positive.

For steam cracker products as well as ethylene oxide and glycols, BASF saw good margin development in the first half of 2015 in both Europe and North America as a result of market scarcity. As the second half of the year progressed, margins weakened perceptibly as product availability on the market increased. In the industrial petrochemicals business, margins improved for solvents and plasticizers in Europe, and for solvents and acrylic monomers in North America. The startup of new plants led to higher fixed costs overall. As a result, income from operations before special items remained slightly below the high level of 2014, despite improved margins overall.

BASF's new acrylic acid complex in Camaçari, Brazil, began operations in the second quarter of 2015 with an annual capacity of 160,000 metric tons. In October 2015, BASF started up an isononanol plant in a joint venture with Sinopec in Maoming, China, with a capacity of 180,000 metric tons a year.

Monomers

In 2015, sales to third parties in the Monomers division were down by EUR 244 million to EUR 6,093 million (volumes -1%, prices -10%, portfolio -1%, currencies 8%). This was predominantly due to lower sales prices for polyamides and isocyanates due to lower raw material costs. The appreciation of currencies, especially the U.S. dollar, relative to the euro had a positive effect on sales.

Volumes growth for MDI and the polyamide-6 extrusion polymers was not fully able to offset the decline in the TDI business; sales volumes fell slightly as a result. Income from operations before special items declined considerably, largely influenced by lower margins for TDI. This came especially from slower growth in China and intense competitive pressure through newly expanded capacities on the market. Earnings were additionally weighed down by startup costs for new production plants.

In China, BASF began operations at the MDI complex in Chongqing and a polyamide-6 extrusion plant in Shanghai in 2015. The TDI production complex in Ludwigshafen, Germany, gradually began operations starting November 2015.

Intermediates

In the Intermediates division, sales to third parties rose in 2015 by EUR 50 million to EUR 2,849 million year-on-year due to positive currency effects and higher sales volumes. Prices were lower than in the previous year as a result of significantly reduced raw material prices (volumes 3%, prices -9%, portfolio -1%, currencies 9%).

Volumes growth was particularly observed in both the amines and polyalcohol businesses, as well as in specialties, primarily in North America and Asia. Competitive pressure from the startup of new capacities in the butanediol and derivatives business had a negative effect on sales. Income from operations before special items rose slightly compared with the previous year, predominantly from volumes growth, an increased proportion of specialties in BASF's product mix, and improved margins, especially for amines. This enabled BASF to more than compensate for overall higher fixed costs resulting from the greater number of scheduled plant turnarounds.

BASF concluded numerous investment projects in 2015, especially at BASF's Verbund sites: BASF started up a formic acid plant in Geismar, Louisiana, while new facilities began operations for special amines in Ludwigshafen, Germany, and in Nanjing, China. With BASF's joint venture partner Sinopec, BASF completed the construction of a neopentyl glycol plant in Nanjing, China.

PERFORMANCE PRODUCTS

Segment overview

The Performance Products segment consists of the Dispersions & Pigments, Care Chemicals, Nutrition & Health and Performance Chemicals divisions.

Customers use products and solutions of the segment to make their production processes more efficient or give their products improved application properties. The segment also offers high-performance products for detergents and cleaners, for cosmetics and for better nutrition. Other products from this segment improve processes in the paper industry, oil and gas production, mining and water treatment. They are

also designed to enhance the efficiency of fuels and lubricants, the effectiveness of adhesives and coatings, and the stability of plastics.

Segment strategy

BASF takes on the challenges arising from important future issues, especially population growth: scarce resources, environmental and climatic stressors, greater demand for food and the desire for better quality of life. In doing so, BASF focuses on research and development and maintain close relationships to leading companies in its key customer industries. BASF positions itself globally in order to reliably supply customers in all regions. BASF invests in the development of innovations that enable its products and processes – as well as its customers' applications and processes – to make a contribution to sustainability: for example, enabling the more efficient use of resources.

Industry-specific specialties make up a major part of the segment's product range. These products create additional value for customers, which allows them to stand out from the competition. It also develops new solutions together with its customers and strives for long-term partnerships, which create profitable growth opportunities for both sides.

The segment pursues a different business model for standard products, such as vitamins or dispersions for paper coatings. Here, efficient production setups, backward integration in BASF's Production Verbund's value chains, capacity management, and technology and cost leadership are all essential. BASF supports its customers by serving as a reliable supplier with consistent product quality, a good value for money and lean processes.

In January 2016, BASF combined its pigments activities into a new global business unit (GBU) based in Ludwigshafen, Germany. All employees in the pigments business are part of the new GBU. As of July 1, 2016 the core activities of the pigment business have been transferred into newly established BASF subsidiaries. This reorganization allows for better adaptation to the challenges facing the pigment industry.

Innovation

The success of the Performance Products segment is driven by product innovations. To this end, the segment focusses on customer needs and market trends. Sustainability is viewed as an opportunity to create value for customers and society using chemistry.

For example, paint manufacturers want to offer products that can be applied in a short amount of time without compromising on high quality and attractive appearance. BASF's Acronal® EDGE 4750 dispersion in the North American decorative paint portfolio allows its customers to combine the demands of both primer and top coat into a single paint: Acronal® EDGE 4750 adheres well and prevents stains from penetrating the paint while providing coverage, durability and stain resistance. Painters can therefore dispense with a whole process step and still achieve the highest-quality results. The minty taste of menthol, the world's top-selling flavor, can be found in countless everyday products. Unlike other flavorings that remain in liquid form, menthol crystallizes to a solid at room temperature. Customers first have to melt it again before using it. Yet BASF already supplies its menthol in liquid form by transporting and storing the still-hot menthol from the production facility in containers with a mobile heating element. This saves its customers several processing steps along the value chain, allowing them to put it to direct use: a sustainable business model with both economic and environmental benefits.

The high-performance polymer Sokalan® HP 20 gets laundry clean with fewer resources. It can be used in both conventional and highly concentrated liquid laundry detergents, removing stains from textiles even at low washing temperatures. Sokalan® HP 20 also prevents the redeposition of removed soil onto the washed fabric, keeping colors bright and white laundry from turning grey.

Since 2014, the United States has had very stringent regulations on the environmental friendliness of certain lubricants in the shipping industry – such as those used for marine propulsion and steering systems. BASF's Synative® ES TMP ester base stocks contain a large amount of renewable raw materials, are biodegradable, and are nontoxic to marine organisms. Because they work effectively and yet also in a more environmentally friendly manner than many comparable products in the marine industry, they help protect marine life and are employed in many applications subject to especially strict regulations.

BASF Group business review and analysis

At EUR 15,648 million, sales to third parties in the Performance Products segment in 2015 were EUR 215 million above the level of the previous year. Positive currency effects in all divisions were able to more than compensate for lower sales prices and weaker volumes (volumes -1%, prices -4%, portfolio -1%, currencies 7%). Decreased volumes were mainly brought about by lower volumes of pigments and weak demand in the oilfield chemicals business in connection with the price of oil, as well as the unscheduled

shutdown of a polyisobutene plant in Antwerp, Belgium. The market environment for paper chemicals remained difficult. BASF's prices were also negatively impacted by factors such as intense competition in the hygiene business and vitamin E, along with lower raw material costs.

Income from operations before special items declined by EUR 89 million to EUR 1,366 million owing to higher fixed costs. These resulted from negative currency effects and the startup of new plants – such as those in Camaçari, Brazil, and Freeport, Texas – as well as inventory reductions. Income from operations fell by EUR 77 million to EUR 1,340 million. Special charges were predominantly attributable to restructuring measures. By contrast, special income arose mainly from the sale of the textile chemicals business, as well as parts of the pharmaceutical ingredients and services business.

Dispersions & Pigments

Sales to third parties in the Dispersions & Pigments division in 2015 rose year-on-year by EUR 128 million to EUR 4,629 million, mainly as a result of currency developments. Prices and volumes fell slightly (volumes -1%, prices -4%, portfolio 1%, currencies 7%). In the pigments business, an intense competitive environment led to a significant decline in volumes. Sales volumes in the paper chemicals business integrated into the division since 2015 decreased in step with the development of the relevant market. Volumes developed positively in the dispersions business – especially in North America, due to new capacities in Freeport, Texas – and grew slightly overall. The startup of new plants since the fourth quarter of 2014 led to considerable sales growth for resins in all regions. BASF was also able to raise sales of additives in all regions. BASF slightly improved income from operations before special items compared with 2014 through higher margins. Fixed costs rose, especially because of new plant startups in Freeport, Texas, and Dahej, India. Special charges were above the level of the previous year, and were mostly related to restructuring measures. In January 2016, BASF combined its pigments activities into a new global business unit (GBU) based in Ludwigshafen, Germany.

Care Chemicals

In the Care Chemicals division, sales to third parties rose by EUR 65 million to reach EUR 4,900 million in 2015. This was largely the result of positive currency effects, especially in connection with the U.S. dollar. Prices declined, predominantly as a consequence of the decrease in raw material costs but also as a result of competitive pressure, especially in the hygiene business. Sales volumes matched the level of the previous year (volumes 0%, prices -5%, portfolio 0%, currencies 6%).

A raw material bottleneck in the production of a range of Care Chemicals products reduced sales volumes. In a market environment that continues to be challenging, BASF was able to compensate for this development through volume increases in other business areas, especially in Asia. Oleochemical surfactants and fatty alcohols made the strongest contributions. Income from operations before special items fell considerably due to higher fixed costs. Contributing factors included the startup of new plants as well as a lower level of capacity utilization than in the previous year, due in part to a reduction in inventories. Special charges were largely attributable to restructuring measures.

In the second quarter of 2015, BASF began operations at a superabsorbent production plant in Camaçari, Brazil. Moreover, BASF invested in the modification of a new superabsorbent technology platform in Antwerp, Belgium, and in new capacities for chelating agents in Theodore, Alabama.

Nutrition & Health

In the Nutrition & Health division, sales to third parties decreased in 2015 by EUR 31 million to EUR 1,998 million despite positive currency effects (volumes 1%, prices -7%, portfolio -3%, currencies 7%). Intense competitive pressure, especially in the vitamin E business, along with decreased raw material costs in the aroma chemicals business, led to a decline in prices. Sales were furthermore reduced by the disposal of parts of the pharmaceutical ingredients and services business, which involved the custom synthesis business and parts of the active pharmaceutical ingredients portfolio. Sales volumes were slightly up compared with 2014, thanks to a large extent to increased volumes in the businesses with human and animal nutrition as well as flavors and fragrances. Income from operations before special items declined considerably. This was mainly because of margin pressure, in addition to effects from plant shutdowns and divestitures. BASF was able to stabilize fixed costs on the prior-year level by implementing further efficiency measures. BASF carried out numerous measures to increase its competitiveness. Special charges arose from, for example, the closure of the sterol site in Pasadena, Texas, at the end of 2015. These charges were contrasted by special income from the disposal of parts of the pharmaceutical ingredients and services business.

Performance Chemicals

In the Performance Chemicals division, sales to third parties rose by EUR 53 million to EUR 4,121 million compared with 2014. This was mainly the result of positive currency effects with lower volumes and prices (volumes -3%, prices -2%, portfolio -2%, currencies 8%).

In all regions except Europe, BASF achieved considerable sales growth, which was supported to a large extent by its business with plastic additives. Sales volumes were in total slightly below 2014 levels. This is mostly attributable to the unscheduled shutdown of a polyisobutene plant in Antwerp, Belgium, as well as the significant, oil-price-related decrease in demand for oilfield chemicals. BASF also posted a volumes decline in the portion of its paper chemicals business that has been allocated to the division since 2015. BASF sales prices fell particularly as a result of a drop in raw material costs. In addition, sales were weighed down by the disposal of its textile chemicals business at the end of June 2015.

Income from operations before special items rose considerably compared with 2014. Higher margins in almost every business area were able to more than offset a currency-driven rise in fixed costs. Special income arose from the sale of its textile chemicals business. Special charges came in part from measures to restructure its businesses with water, oilfield, mining, and paper chemicals.

FUNCTIONAL MATERIALS AND SOLUTIONS

Segment overview

The Functional Materials & Solutions segment consists of the Catalysts, Construction Chemicals, Coatings and Performance Materials divisions. The segment bundles system solutions, services and innovative products for specific sectors and customers, in particular for the automotive, electrical, chemical and construction industries as well as for household applications and for sports and leisure.

Segment strategy

Key success factors for these businesses include a sound understanding of the customer industries and their value chains as well as multidisciplinary know-how that enables constant innovation. The tailor-made products and services BASF offers are supported by industry and application expertise.

The segment's portfolio is made up of system solutions, services and innovative products that allow customers to stand out from the competition. One focus of the segment's strategy is the ongoing optimization of its product portfolio and structures in accordance with different regional market requirements as well as trends in its customer industries. The segment aims to grow faster than the market and become even less dependent on the cyclical nature of individual industries. In addition, the segment aims to assure its leading market position in Europe, to profitably expand its position in the North American market and to selectively extend the activities in the growth regions of Asia, South America, Eastern Europe and the Middle East.

Innovation

BASF has developed a catalyst technology that allows refineries to increase yields of valuable products like gasoline, diesel and other fuels from crude oil. The nickel contained in crude oil presents a particular challenge to further processing, as it significantly increases the generation of undesirable by-products like petroleum coke and hydrogen. Combined with an optimized pore structure, BASF's new catalyst based on the metalloid boron intercepts nickel in processing, thus preventing undesirable chemical reactions.

The MasterEase range of concrete additives greatly improves the flow properties of the building material. This is especially true of modern high-performance concrete. Its lower water and cement content improves stability and increases buildings' longevity, but also makes the material sticky and harder to pump. Developed by BASF, polymers contained in MasterEase products reduce the concrete's viscosity by up to 30%. From mixing and pumping to sealing and smoothing, processing therefore becomes easier, quicker and more economical.

With XSpark®, BASF has developed an exclusive color effect for automotive OEM coatings that sparkles with particular brilliance in direct sunlight. Tiny glass particles that reflect light more precisely than other effect pigments are applied together with the paint layer in a single step. The resulting homogeneous surface provides a pure, solid-color reflection with particular depth, a complex paint effect that creates a high-quality, elegant-looking coating without being intrusive. This innovative product has already won several international awards.

Together with BASF's partner ContiTech Vibration Control, BASF developed the world's first plastic transmission crossbeam in the rear axle subframe of vehicles for the S-Class from Mercedes-Benz. Made

of Ultramid® engineering plastic, the component reduces noise and is 25% lighter than typical models made of aluminum, which means a reduction in vehicle fuel consumption. Thanks to BASF's Elastollan® thermoplastic polyurethane, the company Schwalbe has been able to reduce weight in its "Evo Tube" inner tube designed for mountain bikes by up to 65% compared with conventional, butyl-based inner tubes.

BASF Group business review and analysis

In 2015, the Functional Materials & Solutions segment, BASF increased sales to third parties by EUR 798 million to EUR 18,523 million as compared with the previous year. This development was essentially due to positive currency effects in all divisions. Prices dipped slightly overall, while volumes remained stable (volumes 0%, prices -4%, portfolio 0%, currencies 9%). Higher demand, especially from the automotive industry, was not able to offset lower sales volumes in precious metal trading. At EUR 1,649 million, income from operations before special items exceeded 2014 levels by EUR 452 million, primarily thanks to the sharp earnings increases in the Performance Materials and Construction Chemicals divisions. Despite higher special charges in the Catalysts division, income from operations for the segment grew by EUR 457 million to EUR 1,607 million.

Catalysts

In 2015, sales to third parties in the Catalysts division rose by EUR 171 million to EUR 6,306 million, mostly through highly positive currency effects from the U.S. dollar (volumes -2%, prices -8%, portfolio 1%, currencies 12%). The decline in volumes and prices in the Catalysts division was largely attributable to lower volumes and prices in precious metal trading, reducing this business's contribution by EUR 187 million to EUR 2,388 million. Greater sales volumes of mobile emissions catalysts in Europe and Asia positively affected sales. BASF posted a decline in volumes of chemical and refinery catalysts, especially in Asia. Income from operations before special items dropped considerably compared with the previous year, due in particular to lower contributions from precious metal trading and battery materials. The decline in precious metal trading was essentially the result of lower precious metal prices. In the battery materials business, fixed costs rose partly on account of increased investment in research and development. The gradual startup of plants in Środa Śląska, Poland, and Ludwigshafen, Germany, for mobile emissions catalysts and chemical catalysts also contributed significantly to the rise in fixed costs. Special charges arose mainly through an impairment on intangible assets.

In February 2015, BASF acquired from TODA KOGYO CORP. a 66% share in a company that specializes in cathode materials for lithium-ion batteries in Japan, thus expanding BASF's global battery materials network.

Construction Chemicals

In the Construction Chemicals division, sales to third parties rose in 2015 by EUR 244 million year-on-year to EUR 2,304 million. This was predominantly the result of positive currency effects in almost every region, as well as higher volumes (volumes 5%, prices -1%, portfolio 0%, currencies 8%).

In Europe, sales especially increased on account of greater demand. In North America, considerable year-on-year sales growth was mainly attributable to positive currency effects, in addition to slightly higher volumes and prices. Positive currency effects and a rise in volumes were largely responsible for considerably improved sales in the region South America, Africa, Middle East. Demand for BASF products grew particularly in the countries of the Middle East. Sales in Asia increased predominantly on account of positive currency effects, with volumes growing slightly and prices down. Income from operations before special items considerably surpassed the level of 2014, especially because of higher volumes and positive currency effects.

Coatings

In the Coatings division, sales to third parties grew by EUR 182 million to EUR 3,166 million in 2015, predominantly through positive currency effects. Portfolio effects, along with higher volumes and prices, also contributed to this sales increase (volumes 1%, prices 1%, portfolio 1%, currencies 3%). BASF raised prices in all business areas. Increased volumes especially in North America and Europe more than compensated for a volumes decline in South America. BASF's sales of automotive OEM coatings saw considerable growth, driven both by currency effects and by higher volumes in Europe and North America. For automotive refinish coatings, BASF was able to more than offset weaker demand in South America and Asia through higher sales prices and positive currency effects. The rise in sales in the industrial coatings business was partly attributable to positive currency effects. Sales fell sharply in the decorative paints business in Brazil, despite increased sales prices. This was predominantly the result of negative currency effects as well as overall weak demand.

BASF was able to slightly raise income from operations before special items, mostly through the contribution from automotive OEM coatings. In 2015, BASF began operations at its new coating resins plant in Shanghai, China, to support growth in the region with innovative products from local production.

Performance Materials

In the Performance Materials division, sales to third parties increased by EUR 201 million to EUR 6,747 million in 2015 (volumes 0%, prices -4%, portfolio 0%, currencies 7%). This was largely the result of positive currency effects in North America and Asia. While volumes shrank in South America and Asia, BASF achieved higher volumes in Europe and North America. Sales prices fell as a consequence of lower raw material prices. BASF considerably increased sales to the automotive industry thanks to significantly higher demand in Europe, Asia and North America. With currency effects positive overall, BASF was able to raise sales volumes, particularly in the businesses with engineering plastics, polyurethane (PU) systems, and the special elastomer Cellasto®. BASF's business with the consumer goods industry also developed well, despite lower volumes in Asia and South America. This was essentially thanks to volumes growth for polyurethane systems in Europe and North America as well as for thermoplastic polyurethanes (TPU) and biopolymers. Sales to the construction industry declined, however, due primarily to the divestiture of the white expandable polystyrene (EPS) business in North and South America. Volumes rose in the polyurethane systems business despite a decrease in Asia. BASF achieved considerably higher income from operations before special items. This was predominantly because of higher margins resulting from lower raw material prices as well as the positive development of its high-margin specialties businesses. In 2015, BASF expanded its specialties business, especially Cellasto®, through investments at the site in Shanghai, China. Moreover, BASF started operations at a new compounding plant for Ultramid® and Ultradur® at the site in Yesan, South Korea, and at a new polyurethane system house in Geismar, Louisiana. With the acquisition of Taiwan Sheen Soon Co. Ltd. Completed in 2015, BASF has expanded its portfolio of thermoplastic polyurethanes.

AGRICULTURAL SOLUTIONS

Segment overview

The Agricultural Solutions segment consists of the Crop Protection division. The division develops and produces innovative active ingredients and formulations for the improvement of crop health and yields, and markets them worldwide. Its portfolio also includes technologies for seed treatment and biological control. Solutions to manage water, nutrients and plant stress are under development in the global business unit Functional Crop Care. BASF Plant Science conducts research in the field of plant biotechnology, focusing on higher-yielding crops, herbicide tolerance and fungal resistance. The activities of Plant Science are reported in "Other".

Crop Protection

Strategy

The division's strategy has been developed based on long-term market trends. To meet the needs of a growing world population, crop yields need to be increased. Since natural resources, such as arable farmland and water are limited, innovations are essential to produce more - and more nutritious - food efficiently. BASF is committed to the responsible treatment of its products and the environment. It offers its customers a broad portfolio of integrated solutions and continually invests in its development pipeline in order to create innovations in chemistry and biology. Research and development activities focus on solutions ranging from guarding plants against fungi, insects and weeds, to seeds and soil management, to plant health. The Functional Crop Care business unit, for example, not only offers seed enhancement products and innovations for better soil management, but also provides biological and chemical technologies that make plants more resistant to stress factors such as heat, cold and nutrient deficiency. In addition, the division is intensifying its investment in growth markets and continues to expand its position in its core markets.

BASF is intensifying its investment in growth markets and continuing to expand the position in its core markets. In collaboration with seed companies, BASF benefits from the technological competence of BASF Plant Science. In addition, the division works together with other BASF divisions and with external partners to be able to offer solutions for its customers. Together with John Deere, BASF collaborates with farmers to further the development of integrated IT applications for precision agriculture. These will provide not only more exact information on crop development, but also support farmers in carrying out the legally required procedures for application and documentation of crop protection measures. In Brazil, BASF's customers can already make use of the DigiLab application to easily diagnose plant diseases and access information on possible and recommended treatments.

Investments

In 2015, BASF invested EUR 334 million in property, plant and equipment. A major portion of this total consisted of investments to expand production capacities for the dicamba and Kixor[®] herbicides, as well as the fungicide Xemium[®]. Furthermore, BASF continues to invest in the expansion of its capacities in Functional Crop Care. Examples include its new research and development center for seed solutions in Limburgerhof, Germany, and the ramped up production facility in Littlehampton, England, that strengthens the portfolio of biological solutions for agriculture and gardening. In order to continue meeting ongoing high demand for innovative products in the future, BASF will invest around EUR 810 million in developing and expanding the production and formulation capacities for active ingredients between 2016 and 2020.

Innovation

The division's innovation strategy focuses on developing integrated solutions that help farmers secure and increase their yields. By constantly investing in its development pipeline, the division strives for expanding its portfolio both in and beyond conventional crop protection. In 2015, BASF invested EUR 514 million in research and development in the Crop Protection division, representing around 9% of sales for the segment.

BASF's innovation pipeline in the division comprises products launched between 2015 and 2025. With a current peak sales potential of EUR 3 billion, the pipeline comprises innovations from all business areas. The herbicide Engenia[®], for example, is being introduced in the United States as a key component of dicamba- and glyphosate-tolerant cropping systems. In 2016, BASF will apply for approval of a new fungicide that can be used in many crops around the world. BASF also bolstering its insecticide portfolio with novel high-performance ingredients.

BASF Group business review and analysis

In the Crop Protection division, BASF improved sales to third parties in 2015 by EUR 374 million to EUR 5,820 million compared with the previous year. This was primarily attributable to higher contributions from the herbicide business in North America and from the fungicide business in Europe and South America. In the second half of the year, BASF was able to offset the depreciation of emerging-market currencies by raising prices (volumes 1%, prices 5%, currencies 1%).

In Europe, sales rose by EUR 61 million to EUR 2,107 million, mainly through strong demand for fungicides as well as higher prices in the first half of the year. This allowed BASF to more than compensate for weaker demand in the second half of the year due to dry conditions in Western Europe. The business in Russia and Ukraine grew, despite a difficult political environment. Sales in North America exceeded the previous year's level by EUR 296 million, reaching EUR 1,870 million. Higher herbicide sales, especially of Kixor[®], and positive currency effects from the U.S. dollar supported this growth. In the fungicides business, sales declined on account of lower crop commodity prices and unfavorable weather conditions. At EUR 525 million, sales in Asia matched prior-year levels as positive currency effects compensated for a sharp drop in volumes. Lower demand for soy herbicides in India was a major factor behind the volumes decline, and was attributable to reduced soybean acreage, a very dry season, and increased competition from generic manufacturers. BASF's sales in South America grew by EUR 18 million to EUR 1,318 million, while the total South American crop protection market shrank in 2015. In this difficult environment, BASF considerably increased sales volumes of fungicides, especially Xemium[®]. In the second half of the year, price increases were unable to fully offset currency losses from the depreciation of the Brazilian real. Income from operations before special items amounted to EUR 1,090 million, which was EUR 19 million below the level of the previous year. This slight decrease was attributable to higher fixed costs arising mainly from lower plant capacity utilization as a result of the startup of new capacities and inventory reduction at the same time.

BASF Plant Science

Plant biotechnology at BASF

BASF Plant Science is one of the world's leading suppliers of plant biotechnology for agriculture. Its headquarters at the Research Triangle Park site near Raleigh, North Carolina, ensure proximity to its main markets in North and South America. With its global network of research sites, BASF Plant Science helps farmers to meet the growing demand for increased agricultural productivity as well as better nutrition. BASF invested around EUR 150 million in 2015 to accomplish these goals. Research and development expenses, sales, earnings and all other data of BASF Plant Science are not included in the Agricultural Solutions segment; they are reported in "Other".

Strategy

With a pioneering platform for gene identification, BASF Plant Science has specialized in the development of plant characteristics such as higher yield, herbicide tolerance and disease resistance. BASF's goal is to optimize crops so that farmers can achieve greater and more secure yields. In this way, BASF makes an important contribution to securing a better food supply for a growing world population. BASF also contributes to sustainable agriculture, as the cultivation of these plants significantly reduces the amount of land, water and energy required to produce each metric ton of harvested crops. One example is the drought-resistant corn launched on the market in 2013, which can protect farmers in the United States from harvest losses in times of drought.

Research and development

BASF Plant Science cooperates with numerous biotechnology and seed companies, research institutes, and universities worldwide on developing crops with higher yields and improved resistance to unfavorable environmental factors, such as drought. BASF also works closely together with the Crop Protection division to research and bring to market innovative herbicide tolerance solutions. In 2015, BASF launched the Cultivance® production system, a combination of genetically modified soybeans and the corresponding herbicide. Cultivance® therefore provides farmers with a complete solution for weed control in soybean cultivation.

OIL & GAS

Segment overview

BASF's oil and gas activities are bundled in the Wintershall Group. Wintershall and its subsidiaries operate in the business sectors Exploration & Production.

Segment strategy

BASF's subsidiary Wintershall is Germany's largest producer of crude oil and natural gas. Wintershall has been active in the exploration and production of oil and gas for more than 80 years and concentrates on selected oil and gas-rich regions in Europe, Russia, North Africa, South America and the Middle East. In Europe, Wintershall is also active in the transport of natural gas. At the end of the third quarter of 2015, Wintershall exited the natural gas trading and storage business previously operated together with Gazprom in exchange for additional oil and gas production assets in western Siberia. In the future, crude oil and natural gas will continue to contribute significantly toward covering the sharply rising energy demand of a growing world population. That is why Wintershall invests in the exploration and production of oil and gas, primarily in its core regions Europe, Russia, North Africa and South America. Wintershall also aims to establish the Middle East as another of its core regions.

Its growth strategy is based on three pillars: innovative technologies, selected collaborations and partnerships, and the responsible development and production of hydrocarbons. In addition to the successful execution of BASF Group's projects, Wintershall focuses on continuously optimizing its portfolio of oil and gas activities. Measured by production volumes as well as by contribution to income from operations before special items, gas activities comprised around 70% of the portfolio in 2015.

Handling hydrocarbons in a responsible manner demands special measures for the protection of people and the environment. BASF therefore carefully assesses the potential effects of every project before begin. Together with experts, contractors and relevant stakeholders, BASF develops methods and implements measures to be able to use resources even more efficiently and minimize the impact on the environment. In doing so, BASF acts in accordance with international agreements, legal requirements and its own, self-imposed high standards.

On September 30, 2015, BASF and its partner Gazprom completed the swap of assets of equivalent value that had originally been planned for the end of 2014. The swap took place with retroactive financial effect to April 1, 2013. This transaction gave BASF the economic equivalent of 25.01% of the blocks IV and V in the Achimov formation of the Urengoy natural gas and condensate field in western Siberia. These two blocks will be developed jointly by Gazprom and Wintershall. According to the development plan originally confirmed by Russian authorities, they contain total hydrocarbon resources of 274 billion cubic meters of natural gas and 74 million metric tons of condensate. As these figures are still undergoing review, new findings may give rise to adjustments. Production is scheduled to start in 2018. In return, BASF transferred its shares in the previously jointly run natural gas trading and storage business to Gazprom. This included the 50.02% shares in the following: the natural gas trading company WINGAS GmbH, Kassel, Germany; the storage company Astora GmbH & Co. KG, Kassel, Germany, which operates natural gas storage facilities in Rehden and Jemgum, Germany; and WINGAS Holding GmbH, Kassel, Germany, including its

share in the natural gas storage facility in Haidach, Austria. BASF also transferred its 50% share in each of the natural gas trading companies Wintershall Erdgas Handelshaus GmbH & Co. KG, Berlin, Germany, and Wintershall Erdgas Handelshaus Zug AG, Zug, Switzerland. Gazprom furthermore became a 50% shareholder in Wintershall Noordzee B.V. in Rijswijk, Netherlands, which is active in the exploration and production of natural gas and crude oil deposits in the North Sea. In the first three quarters of 2015, these activities contributed a total of around EUR 10.1 billion to sales, about EUR 260 million to income from operations before special items, and approximately EUR 650 million to EBITDA. This EBITDA figure includes special income from the asset swap. BASF's cooperation with Gazprom in the natural gas transport business will continue unaltered. With Western Europe's demand for natural gas steadily on the rise while its local production simultaneously decreases, it is becoming more and more important to secure sufficient imports. For this reason, BASF and other European partners want to participate in the expansion of the Nord Stream Pipeline. The Nord Stream 2 project intends to build two additional offshore pipelines from Russia to Germany through the Baltic Sea, helping ensure a long-term and reliable supply of natural gas to the European Union.

Exploration & Production

Europe: The Mittelplate oilfield off the North Sea coast is the cornerstone of Wintershall's crude oil production in Germany. Wintershall owns a 50% stake in this field, the largest known oil deposit in the country. At the Bockstedt oilfield, the field test was continued for increasing recovery rates with the biopolymer Schizophyllan.

With the acquisition of shares in the Vega and Gjøa fields in Norway at the end of 2014, Wintershall established itself as one of the largest producers on the Norwegian continental shelf. In March 2015, Wintershall Norge AS took over operatorship of the Vega oil and gas field from Statoil. BASF began production in the Knarr field in the Norwegian North Sea in March 2015. BASF continued work on developing the Edvard Grieg oilfield, and the first volumes were produced at the end of November. At the beginning of September 2015, the Norwegian Ministry of Petroleum and Energy approved the plan for development and operation of the Maria field submitted by Wintershall, the field's operator. The plan involves linking the field to the Kristin, Heidrun and Åsgard B production platforms via subsea ties. BASF began production of natural gas at the unmanned L6-B "minimum facility" platform in the Dutch North Sea. This miniplatform is one of a new generation of facilities that can be deployed in especially shallow waters, enabling economic yield from even very small deposits. BASF ceased the production of crude oil from the Kotter and Logger developments in the Dutch North Sea, as the limited volumes remaining can no longer be produced in an economical manner.

Russia: The Yuzhno Russkoye natural gas field in western Siberia, in which BAS has a 35% economic interest, has been operating at plateau production since 2009. The first wells were successfully drilled for the development of the Turon horizons, a further formation in this natural gas field. BASF holds a 50% stake in the development of Block IA of the Achimov formation in the Urengoy field in western Siberia. The gradual development of this field was continued; 62 wells were producing at the end of 2015. BASF will develop blocks IV and V of the Achimov formation together with Gazprom.

North Africa / Middle East: In Libya, BASF is the operator of eight oilfields in the onshore concessions 96 and 97. Due to difficult political conditions, BASF is only able to produce in concession 96 from February to May 2015 and from September to the beginning of November 2015, for a total of 125 days. Operations were able to continue uninterrupted at the Al Jurf offshore oilfield in Libya, in which BASF has a stake. In Abu Dhabi, BASF completed its first exploration drilling as operator in the development of the Shuweihat sour gas field; preparations are underway for a further exploration well. The activities in Qatar were suspended in May of 2015 with the expiration of the concession license.

South America: BASF holds shares in a total of fifteen onshore and offshore fields in Argentina. BASF began two shale drillings as operator in the Vaca Muerta formation in the Neuquén province in March, as stipulated in the joint operation agreement between Wintershall Energía and Gas y Petróleo del Neuquén. In December 2015, BASF increased its share in the Aguada Federal block – part of the Vaca Muerta formation in the Neuquén province – from 50% to 90%. In Chile, BASF holds 10% of the San Sebastian block.

Natural Gas Trading

BASF's natural gas trading and storage activities were transferred to Gazprom with the asset swap completed in September 2015. BASF will continue the joint activities in the gas transport sector with Gazprom in the Oil & Gas segment, but they will not be separately reported. As a holding company for the German subsidiaries in natural gas transport, WIGA Transport Beteiligungs-GmbH & Co. KG (WIGA) mainly fulfills a reporting and financing capacity. GASCADE Gastransport GmbH, OPAL Gastransport GmbH & Co. KG, and NEL Gastransport GmbH all act as independent subsidiaries under the umbrella of

the holding company. This organizational structure allows to meet the unbundling requirements set down by the German Energy Act. The widely regulated transport sector is characterized by stable conditions and yields based on approved costs and tariffs. The companies under the WIGA umbrella operate a 3,300 kilometer long-distance network that includes the pipeline links to the Nord Stream Pipeline, the Baltic Sea Pipeline Link (OPAL) and the North European Gas Pipeline (NEL).

BASF holds a 15.5% share in the Nord Stream Pipeline through Nord Stream AG, which is accounted for in the BASF Group's financial statements using the equity method. Other shareholders are Gazprom (51%) and E.ON (15.5%), as well as N.V. Nederlandse Gasunie and GDF Suez (9% each). With a total capacity of 55 billion cubic meters of natural gas per year, this pipeline, which stretches from Russia to the German coast over the Baltic Sea, helps shore up supply security in Europe. In order to carry out the Nord Stream 2 pipeline project, BASF signed the contracts in September 2015 to build two additional offshore pipelines through the Baltic Sea. The project will be developed by the company Nord Stream 2 AG. Gazprom holds a 50% share in the project company; BASF/Wintershall, ENGIE, E.ON, OMV and Shell will each hold a 10% share upon approval by the relevant authorities.

Research and development

BASF's research and development activities in the Oil & Gas segment focus on improving the discovery rate of oil and gas reservoirs, developing technologies for reservoirs with challenging development and production conditions, and increasing the recovery factor of reservoirs.

BASF Group business review and analysis

In the Oil & Gas segment, sales to third parties in 2015 at EUR 12,998 million were EUR 2,147 million lower than in 2014 (volumes 15%, prices/currencies -9%, portfolio -20%). This was largely a result of the asset swap with Gazprom completed at the end of September, which meant that contributions from the natural gas trading and storage business, as well as from Wintershall Noordzee B.V., ceased starting in the fourth quarter of 2015. The significant drop in the price of oil led to slightly lower sales in the Exploration & Production business sector. However, sales were positively impacted by a volumes increase in both the Exploration & Production and Natural Gas Trading business sectors. The drop in sales meant a decline in income from operations before special items by EUR 429 million to EUR 1,366 million. Special charges totaled EUR 636 million in 2015; these arose predominantly from impairments on exploration and production projects and on goodwill as a result of BASF's reduced oil and gas price assumptions. Special income of EUR 342 million, particularly from the asset swap with Gazprom, was only partly able to compensate for this. Income from operations therefore decreased by EUR 616 million to EUR 1,072 million. Net income declined by EUR 414 million to EUR 1,050 million.

Exploration & Production

In 2015, sales to third parties in the Exploration & Production business sector amounted to EUR 2,809 million, 4% below the level of the previous year. Higher volumes in Russia and portfolio-driven growth in Norway were unable to offset the sharp drop in prices. Furthermore, sales at Wintershall Noordzee B.V. have not been included in BASF Group sales since the fourth quarter of 2015, as the asset swap with Gazprom resulted in accounting for the company using the equity method instead of full consolidation. The price of Brent crude oil fell by 47% compared with 2014, to U.S. dollar 52 per barrel. In euro terms, this was a decrease of 37% to EUR 47 per barrel (2014: EUR 74 per barrel). Income from operations before special items fell considerably compared with the previous year, mainly as a result of lower prices. BASF increased its crude oil and natural gas production by 13%, up to 153 million barrels of oil equivalent (BOE). Production rose substantially both in Norway and in the joint operation Achimgaz in Russia. Despite difficult political conditions, BASF was able to produce in onshore concession 96 in Libya from February to May and from September to the beginning of November 2015 for a total of 125 days. Contrasting this was the further decrease of production in Germany, which was influenced by both a natural production decline and the authorization logjam for fracking plans in conventional deposits that has continued for more than four years. In the search for new crude oil and natural gas deposits, BASF finished drilling a total of 25 exploration and appraisal wells in 2015, of which 17 were successful. BASF's proven crude oil and natural gas reserves increased by 2% compared with the end of 2014, to 1,744 million BOE. BASF replenished 123% of the volumes produced in 2015. The reserve-to-production ratio is around 11 years (2014: 13 years). This is based on Wintershall's share of production in 2015 and refers to the reserves at year-end.

Natural Gas Trading

In 2015, sales to third parties in the Natural Gas Trading business sector decreased by 17% to EUR 10,189 million. This was due to the asset swap completed with Gazprom on September 30, 2015, through which the contributions from trading and storage activities were discontinued in the fourth quarter.

In the first three quarters of 2015, these activities had contributed around EUR 10,100 million to sales. In the same period, 497 billion kilowatt hours in volumes were generated, which was 88 billion kilowatt hours more than in the same period of the previous year. As a consequence of the transaction, sales volumes decreased by 64 billion kilowatt hours compared with the full 2014 business year. WINGAS provided 3% of its volumes to BASF Group companies outside of the Oil & Gas segment. Income from operations before special items considerably exceeded the level of the prior year. Lower contributions from both the storage and transport businesses were more than offset by higher earnings from the trading business.

RESPONSIBILITY ALONG THE VALUE CHAIN

BASF defines sustainability as balancing economic success with social and environmental responsibility and has strategically embedded sustainability into the company as a significant driver for growth. Its sustainability management has three responsibilities: Identifying significant topics early on, taking advantage of business opportunities and minimizing risks. This endeavor is supported by constant, trust-based exchange with BASF's stakeholders as well as by a systematic materiality analysis. BASF takes advantage of business opportunities by offering its customers innovative products and solutions that contribute to sustainable development. BASF includes sustainability in the development and implementation of its business units' strategies and research projects. BASF minimizes risks by setting itself globally uniform standards for safety and security, environmental and health protection, product stewardship and compliance, as well as labor and social standards. In addition, BASF has integrated various dimensions of sustainability into its standard processes for evaluating investment decisions in property, plant and equipment as well as in financial assets.

Supply chain management: Both new and existing suppliers are selected and evaluated not only on the basis of economic criteria, but also on environmental, social and corporate governance (ESG) standards. BASF's Supplier Code of Conduct is based on internationally recognized guidelines, such as the principles of the United Nations' Global Compact Initiative, the International Labor Organization (ILO) conventions and Responsible Care. The Supplier Code of Conduct comprises environmental protection and compliance with human rights, labor and social standards, as well as antidiscrimination and anticorruption policies. In 2015, BASF provided training on sustainability-oriented supplier management to 525 employees in procurement around the world.

Raw materials: The Verbund system is an important component of BASF's resource efficiency concept: The by-products of one plant often serve as feedstock elsewhere, thus helping BASF to use raw materials more efficiently. In 2015, BASF purchased a total of around 30,000 different raw materials from more than 6,000 suppliers. Some of the most important raw materials are naphtha, natural gas, methanol, ammonia and benzene. BASF investigates the use of renewable resources in the Verbund system and is involved in the responsible cultivation and utilization of renewables in numerous projects along the value chain. In 2015, around 5.8% of the raw materials BASF purchased worldwide were from renewable resources.

Safety, security and health

Responsible Care Management System: BASF's Responsible Care Management System comprises the global rules, standards and procedures for environmental and health protection, safety and security for the various stations along the value chain. BASF's regulations cover the transportation of raw materials, the activities at its sites and warehouses, the distribution of its products and the customers' application of the products. Specifications for implementing these measures are laid out in binding directives that are introduced in consultation with employee representatives. These describe the relevant responsibilities, requirements and assessment methods. BASF regularly conducts audits to monitor its performance and progress in environmental and health protection, safety and security. Findings from these audits are used for continual improvement.

Transportation and storage:

In 2014, BASF had already nearly achieved its goal of reducing the number of worldwide transportation accidents per 10,000 shipments by 70% from 2003 to 2020. That is why BASF redesigned its reporting on transportation accidents in 2015. From now on, BASF is focusing on transportation incidents with dangerous goods spillages that significantly impacted the environment. BASF will report on dangerous goods leaks of BASF products in excess of 200 kilograms on public transportation routes, provided BASF arranged the transport. The global requirement for reporting on transportation incidents was adjusted accordingly and implemented worldwide.

Production:

In 2015, BASF revised its goal for occupational safety, making it even more ambitious. BASF continues to pursue its health protection goal. BASF has furthermore defined a new goal for process safety. In its

guidelines and requirements, BASF stipulates globally mandatory standards for safety, security and health protection. A global network of experts supports BASF in their implementation through standardized processes. BASF regularly conduct audits on safety, security, health and environmental protection in order to monitor its performance. BASF especially promotes safe conduct at work through systematic risk assessments and specific qualification measures. Based on its corporate values, leaders serve as safety role models for its employees. Together, they contribute to the constant development of the safety culture.

Products: BASF ensures uniformly high standards for product stewardship worldwide and its voluntary initiatives go beyond legal requirements. BASF monitors the implementation of its guidelines with regular audits. BASF provides extensive information on its chemical products to its customers and the public with safety data sheets in more than 30 languages. This is achieved with the help of a global database containing continuously updated environmental, health and safety data on all substances and products. BASF's global emergency hotline network provides information around the clock. Customers are offered training in the safe use of BASF's products and are kept informed early on of any changes in regulations.

Environment

Energy and climate protection: BASF aims to reduce greenhouse gas emissions in its production and along the entire value chain. BASF has thoroughly analyzed the greenhouse gas emissions from its production in the past few years and implemented comprehensive reduction measures. This is how, for example, BASF has been able to reduce nitrous oxide emissions significantly since 1997. To supply its production sites with energy, BASF relies on highly efficient combined heat and power plants with gas and steam turbines and the use of heat released by production processes. Comparisons with European emissions trading benchmarks show that BASF's greenhouse gas-intensive chemical plants also operate at above-average efficiency. Around 50% of BASF Group emissions in 2015 resulted from steam and electricity generation in its own power plants as well as in its energy suppliers' power plants. BASF aims to further reduce these emissions with the help of numerous smaller measures and projects to increase energy efficiency.

Water: BASF aims to use water as sparingly as possible and further reduce emissions to water. For this, a Group directive has been set out with globally applicable standards. BASF explores measures for implementing sustainable water management, especially at production sites in water stress areas.

Air and soil: Regular monitoring of BASF's emissions to air is a part of environmental management at BASF. In addition to greenhouse gases, BASF also measures emissions of other pollutants into the atmosphere. It offers its customers products that enable them to reduce emissions of air pollutants. In addition, BASF's Raw Material Verbund helps the company prevent and reduce waste. BASF regularly carries out audits to inspect external waste management companies, ensuring that its hazardous waste is properly disposed of.

MAJOR SHAREHOLDERS

Under the German Securities Trading Act (*Wertpapierhandelsgesetz*, WpHG) shareholders and individuals having access to voting rights are obliged to notify the issuer and the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*, BaFin) immediately when reaching, exceeding or falling below the thresholds of 3, 5, 10, 15, 20, 25, 30, 50 or 75% of the voting rights in a publicly listed company either through the acquisition or disposal of shares or other financial instruments or by any other means (§§ 21, 25 and 25 a WpHG).

For details of the history of notifications received by BASF where holders exceeded or fell below any of the statutory notification thresholds mentioned above refer to

<https://www.basf.com/en/company/investor-relations/share-and-adrs/shareholder-structure/notification-of-voting-rights.html>

Based on notifications received by BASF pursuant to Section 21 Paragraph 1 of the WpHG BASF is, as of the date of this Prospectus, not aware of any shareholder owning ten percent or more of BASF's outstanding shares.

To BASF's knowledge, BASF is not directly or indirectly controlled or owned by another cooperation, by any government, or by any other natural or legal person, acting severally or jointly, and there are no arrangements which may result in a change of control.

MATERIAL CONTRACTS

BASF Group did not enter into any contracts in the ordinary course of business, which could result in any member of the BASF Group being under an obligation or entitlement that is material to BASF's ability to meet its obligations to the Holders in respect of the Notes.

LEGAL PROCEEDINGS

General

BASF Group companies are involved in legal, regulatory, governmental and arbitration proceedings in Germany and a number of foreign jurisdictions, including the United States, involving claims by and against them, which arise in the ordinary course of their businesses, including in connection with their business activities, employers, investors and taxpayers. It is not feasible to predict or determine the ultimate outcome of the ending or threatened proceedings. The management does not believe that the outcome of these proceedings, including those discussed below, will have or have had in the 12 months preceding the date of this Prospectus significant effects on the financial position or profitability of BASF and/or BASF Group after consideration of any applicable reserves.

Specific proceedings

On August 12, 2014, Metrogas S.A., Chile, filed its Statement of Claim in the arbitration proceedings initiated in May 2013 against Wintershall Energía S.A., Argentina (WIAR), Total Austral S.A., Argentina, and Pan American Energy LLC, Argentina. The defendants, as sellers, concluded a natural gas supply contract with Metrogas in 1997. Metrogas claims damages valued in an amount of EUR 220 million as a result of insufficient gas deliveries. WIAR's share of supply in the contract is 37.5%. The defendants submitted their response to the proof of claim on December 10, 2014. The defendants are of the opinion that Metrogas does not have any claim for damages.

BASF Corporation has potential liability under the Comprehensive Response, Compensation and Liability Act of 1980, as amended, and related state laws for investigation and cleanup at certain sites. The Lower Passaic River Study Area (LPRSA) is one such site comprising the lower 17 miles of the Passaic River in New Jersey. BASF Corporation, along with more than 60 other companies (The Lower Passaic River Study Area Cooperating Parties Group, CPG), agreed with the U.S. Environmental Protection Agency (USEPA) to perform a remedial investigation and feasibility study of the LPRSA. Based on the remedy concept proposed by the CPG and BASF's estimates of its share of these costs, BASF now considers its portion to be immaterial.

Since November 2014, a putative class action lawsuit in the United States District Court of the Southern District of New York has been pending against BASF Metals Limited (BML), along with other defendants, alleging violations of antitrust and commodities laws stemming from the price discovery process for platinum and palladium. BASF Metals Limited, based in the United Kingdom, and the other three defendants are accused of improper conduct concerning the calculation of the market prices of platinum and palladium. Four additional lawsuits were filed between November 2014 and March 2015. All these matters were consolidated, and a Second Consolidated Amended Class Action Complaint was eventually filed in July 2015. This Complaint also names as a defendant, among others, BASF Corporation. On September 21, 2015, defendants filed a Joint Motion to Dismiss the Second Consolidated Amended Class Action Complaint, and BML and BASF Corporation filed individual motions to dismiss. In addition, a pro se complaint with similar allegations was filed in the same court in September 2015, and is currently on a separate schedule than the consolidated action.

Furthermore, BASF SE and its affiliated companies are defendants in or parties to a variety of judicial, arbitrational or regulatory proceedings on a recurring basis. To its current knowledge, none of these proceedings will have a material effect on the economic situation of BASF.

SIGNIFICANT CHANGES/TREND INFORMATION

There have been no significant changes in the financial or trading position of BASF Group since June 30, 2016. There has been no material adverse change in the prospects of BASF Group since the date of the last published audited financial statements as of December 31, 2015.

OUTLOOK FOR 2016

BASF expects conditions to remain challenging in 2016. The global economy and industrial production will presumably grow at a level approximating that of 2015. Chemical production is likely to grow at a slower rate than in 2015. For 2016, BASF assumes an average price of U.S. dollar 40 for a barrel of Brent blend crude oil and an exchange rate of U.S. dollar 1.10 per euro. The global economy continues to face increasing risks. BASF nevertheless aims to raise sales volumes in all segments. BASF Group sales will decline considerably, however, especially as a result of the divestiture of the gas trading and storage business as well as lower oil and gas prices. BASF's income from operations before special items in 2016 is expected to be particularly dependent on oil price developments.

Opportunities and risks

The development of BASF's sales markets is one of the strongest drivers of opportunities and risks.

BASF continues to see a significant macroeconomic risk in an increased slowdown of the Chinese economy, which would have considerable impact on demand for intermediate goods for industrial production as well as investment goods. This would have an effect on emerging markets that export raw materials as well as on advanced economies that specialize in technological goods. Risks to the global economy would also be posed by the possible escalation of geopolitical conflicts.

Opportunities are seen in the implementation of the "We create chemistry" strategy.

Forecast

BASF Group's forecast is based on the following assumptions for the global economy in 2016:

- Growth of gross domestic product: 2.6%
- Growth in industrial production: 2.0%
- Growth in chemical production: 3.4%
- An average euro-to-dollar exchange rate of U.S. dollar 1.10 per euro
- An average oil price for the year of U.S. dollar 40 per barrel

BASF Group sales are expected to decrease considerably in 2016. As a consequence of the asset swap with Gazprom, the Oil & Gas segment is no longer receiving contributions from the natural gas trading and storage business in particular. In the first three quarters of 2015, these activities had contributed a total of around EUR 10.1 billion to sales. Sales are expected to be furthermore reduced by lower prices for oil and gas. BASF aims to increase sales volumes, excluding the effects of acquisitions and divestitures.

"**Capital Market Indebtedness**" means any obligation for the repayment of borrowed money which is in the form of, or represented or evidenced by, bonds, notes or other securities, with an original maturity of more than one year, which are, or are capable of being, quoted, listed, dealt in or traded on a stock exchange or other recognized securities market.

§ 2

STATUS, NEGATIVVERPFLICHTUNG[, GARANTIE UND NEGATIVVERPFLICHTUNG DER GARANTIN]

(1) *Status*. Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.

(2) *Negativverpflichtung*. Die Emittentin verpflichtet sich, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern, ohne jeweils die Gläubiger zur gleichen Zeit und im gleichen Rang an solchen Sicherheiten oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, teilnehmen zu lassen.

"Kapitalmarktverbindlichkeit" bezeichnet jede Verbindlichkeit hinsichtlich der Rückzahlung aufgenommenen Geldbeträge, die durch Schuldverschreibungen oder sonstige Wertpapiere mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können, verbrieft oder verkörpert ist.

Die Garantin hat sich außerdem in einer Negativverpflichtung (die "**Negativverpflichtung**") verpflichtet, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten (wie vorstehend definiert) und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern oder eine solche Besicherung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. Die Garantie und die Negativverpflichtung stellen einen Vertrag zugunsten jedes Gläubigers als begünstigtem Dritten gemäß § 328 BGB dar, welcher das Recht jedes Gläubigers begründet, Erfüllung aus der Garantie und der Negativverpflichtung unmittelbar von der Garantin zu verlangen und die Garantie und die Negativverpflichtung unmittelbar gegen die Garantin durchzusetzen.]

Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75 % der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und die keinen Gegenstand der § 5 Absatz 3, Nr. 1 bis Nr. 8 des SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

(3) *Beschlüsse der Gläubiger.* Beschlüsse der Gläubiger werden nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung nach § 18 SchVG oder einer Gläubigerversammlung nach § 9 SchVG gefasst.

(4) *Leitung der Abstimmung.* Die Abstimmung wird von einem von der Emittentin beauftragten Notar oder, falls der gemeinsame Vertreter zur Abstimmung aufgefordert hat, vom gemeinsamen Vertreter geleitet.

(5) *Stimmrecht.* An Abstimmungen der Gläubiger nimmt jeder Gläubiger nach Maßgabe des Nennwerts oder des rechnerischen Anteils seiner Berechtigung an den ausstehenden Schuldverschreibungen teil.

anwendbar

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluß eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluß sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

(2) *Ankauf.* Die Emittentin ist berechtigt, jederzeit Schuldverschreibungen im Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei dem Fiscal Agent zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Gläubigern gemacht werden.

(1) *Anwendbares Recht.* Form und Inhalt der Schuldverschreibungen sowie die Rechte und Pflichten der Gläubiger und der Emittentin bestimmen sich in jeder Hinsicht nach deutschem Recht.

Für die Zwecke des Vorstehenden bezeichnet "**Depotbank**" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Gläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. **ANLEIHEBEDINGUNGEN DER SCHULDVERSCHREIBUNGEN
Deutschsprachige Fassung**

§ 1

WÄHRUNG, STÜCKELUNG, FORM, BESTIMMTE DEFINITIONEN

(1) *Währung; Stückelung.* Diese Serie der Schuldverschreibungen (die "**Schuldverschreibungen**") der [BASF SE] [BASF Finance Europe N.V.] (["BASF"] ["BASF Finance"]) oder die "Emittentin" wird in [festgelegte Währung] (die "**festgelegte Währung**") im Gesamtnennbetrag [Falls die Globalurkunde eine NGN ist, ist Folgendes anwendbar: (vorbehaltlich § 1 Absatz (4))] von [Gesamtnennbetrag] (in Worten: [Gesamtnennbetrag in Worten]) in einer Stückelung von [festgelegte Stückelung] (die "**festgelegte Stückelung**") begeben.

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber.

[(3) *Dauerglobalurkunde.* Die Schuldverschreibungen sind durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft. Die Dauerglobalurkunde trägt die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und ist von dem Fiscal Agent oder in dessen Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.]

Im Fall von Schuldverschreibungen, die durch eine Dauerglobalurkunde verbrieft sind, ist Folgendes anwendbar

[(3) *Vorläufige Globalurkunde – Austausch.*

(a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in der festgelegten Stückelung, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde tragen jeweils die Unterschriften ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von dem Fiscal Agent oder in dessen Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

Im Fall von Schuldverschreibungen, die anfänglich durch eine vorläufige Globalurkunde verbrieft sind, ist Folgendes anwendbar

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag gegen die Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Begebung der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen liegt. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen gemäß U.S. Steuerrecht erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist für jede solche Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz (3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, dürfen nur außerhalb der Vereinigten Staaten (wie in § 6 Absatz (2) definiert) geliefert werden.]

(4) *Clearing System.* Die Globalurkunde, die die Schuldverschreibung verbrieft, wird von einem oder für ein Clearing Systems verwahrt. "**Clearing System**" bedeutet [Bei mehr als einem Clearing System ist Folgendes anwendbar: jeweils] Folgendes: [Clearstream Banking AG, Neue Börsenstraße 1, 60487 Frankfurt am Main, Bundesrepublik Deutschland, ("CBF")] [Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxemburg, Großherzogtum Luxemburg, ("CBL") und Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brussels, Belgien,

("Euroclear") (CBL und Euroclear jeweils ein "ICSD" und zusammen die "ICSDs"]) sowie jeder Funktionsnachfolger.

Im Fall von Schuldverschreibungen, die im

Namen der ICSDs verwahrt werden, und die Globalurkunde eine NGN ist, ist Folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer *New Global Note* ("NGN") ausgegeben und von einem common safekeeper im Namen beider ICSDs verwahrt.

Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen die Register zu verstehen sind, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind maßgeblicher Nachweis des Gesamtnennbetrages der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine für zu diesem Zweck von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Schuldverschreibungen ist maßgebliche Bescheinigung des Inhalts des Registers des betreffenden ICSD zu dem fraglichen Zeitpunkt.

Bei jeder Tilgung oder einer Zinszahlung auf die durch die Globalurkunde verbrieften Schuldverschreibungen bzw. beim Kauf und der Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten der Rückzahlung, Zahlung oder des Kaufs und der Entwertung bezüglich der Globalurkunde entsprechend in die Unterlagen der ICSDs eingetragen werden, und dass nach dieser Eintragung vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen wird.

[Falls die vorläufige Globalurkunde eine NGN ist, ist Folgendes anwendbar: Bei Austausch nur eines Teils von Schuldverschreibungen, die durch eine vorläufige Globalurkunde verbrieft sind, wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs entsprechend in die Register der ICSDs aufgenommen werden.]

Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, und die Globalurkunde eine CGN ist, ist Folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer *Classical Global Note* ("CGN") ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]

(5) *Gläubiger von Schuldverschreibungen.* "Gläubiger" bedeutet jeder Inhaber eines Miteigentumsanteils oder anderen vergleichbaren Rechts an den Schuldverschreibungen.

(6) *In Bezug genommene Bedingungen.* Die Bestimmungen gemäß Schedule 5 des geänderten und neugefassten Fiscal Agency Agreement vom 12. September 2016 (das "Agency Agreement") zwischen BASF, BASF Finance und Deutsche Bank Aktiengesellschaft als Fiscal Agent sowie als Zahlstelle (einsehbar unter www.bourse.lu), die überwiegend das für Gläubigerversammlungen oder Abstimmungen der Gläubiger ohne Versammlung zu wählende Verfahren betreffen, sind in vollem Umfang durch diese Anleihebedingungen in Bezug genommen.

§ 2

STATUS, NEGATIVVERPFLICHTUNG[, GARANTIE UND NEGATIVVERPFLICHTUNG DER GARANTIN]

(1) *Status.* Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.

(2) *Negativverpflichtung.* Die Emittentin verpflichtet sich, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten und keine

Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern, ohne jeweils die Gläubiger zur gleichen Zeit und im gleichen Rang an solchen Sicherheiten oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, teilnehmen zu lassen.

"**Kapitalmarktverbindlichkeit**" bezeichnet jede Verbindlichkeit hinsichtlich der Rückzahlung aufgenommener Geldbeträge, die durch Schuldverschreibungen oder sonstige Wertpapiere mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können, verbrieft oder verkörpert ist.

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(3) *Garantie und Negativverpflichtung der Garantin.* BASF (die "**Garantin**") hat die unbedingte und unwiderrufliche Garantie (die "**Garantie**") für die ordnungsgemäße und pünktliche Zahlung von Kapital und Zinsen und sonstiger auf die Schuldverschreibungen zahlbarer Beträge übernommen. Die Garantin hat sich außerdem in einer Negativverpflichtung (die "**Negativverpflichtung**") verpflichtet, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten (wie vorstehend definiert) und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern oder eine solche Besicherung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. Die Garantie und die Negativverpflichtung stellen einen Vertrag zugunsten jedes Gläubigers als begünstigtem Dritten gemäß § 328 BGB dar, welcher das Recht jedes Gläubigers begründet, Erfüllung aus der Garantie und der Negativverpflichtung unmittelbar von der Garantin zu verlangen und die Garantie und die Negativverpflichtung unmittelbar gegen die Garantin durchzusetzen.]

§ 3 ZINSEN

(1) *Zinszahlungstage.*

(a) Die Schuldverschreibungen werden bezogen auf ihren Gesamtnennbetrag ab dem **[Verzinsungsbeginn]** (der "**Verzinsungsbeginn**") (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) und danach von jedem Zinszahlungstag (einschließlich) bis zum nächstfolgenden Zinszahlungstag (ausschließlich) verzinst. Im Fall der FRN-Konvention ist Folgendes anwendbar

[auf den nächstfolgenden Geschäftstag verschoben, es sei denn, jener würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall (i) wird der Zinszahlungstag auf den unmittelbar vorhergehenden Geschäftstag vorgezogen und (ii) ist jeder nachfolgende Zinszahlungstag der jeweils letzte Geschäftstag des Monats, der **[Zahl]** Monate nach dem vorhergehenden anwendbaren Zinszahlungstag liegt.]

Im Fall der folgender Geschäftstag-Konvention ist Folgendes anwendbar

[auf den nachfolgenden Geschäftstag verschoben.]

Falls der Angebotssatz für Einlagen in der festgelegten Währung EURIBOR ist, ist Folgendes anwendbar

[(2) *Zinssatz*. Der Zinssatz (der "**Zinssatz**") für jede Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt wird der Angebotssatz, (ausgedrückt als Prozentsatz *per annum*) für Einlagen in der festgelegten Währung für die jeweilige Zinsperiode, der auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) gegen 11.00 Uhr (Brüsseler Ortszeit) angezeigt wird [[zuzüglich] [abzüglich] der Marge (wie nachstehend definiert)], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

"**Zinsperiode**" bezeichnet jeweils den Zeitraum vom Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. von jedem Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Zinszahlungstag (ausschließlich).

"Referenzbanken" bezeichnet vier Großbanken im Interbanken-Markt in der Euro-Zone.

Der Zinssatz (der **"Zinssatz"**) für jede Zinsperiode (wie nachstehend definiert) ist, sofern nachstehend nichts Abweichendes bestimmt wird der Angebotssatz, (ausgedrückt als Prozentsatz *per annum*) für Einlagen in der festgelegten Währung für die jeweilige Zinsperiode, der auf der Bildschirmseite am Zinsfestlegungstag (wie nachstehend definiert) gegen 11.00 Uhr (Londoner Ortszeit) angezeigt wird **[[zuzüglich] [abzüglich] der Marge (wie nachstehend definiert)],** wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

"Zinsperiode" bezeichnet jeweils den Zeitraum vom Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. von jedem Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Zinszahlungstag (ausschließlich).

"Zinsfestlegungstag" bezeichnet den **[ersten] [zweiten] [relevante(s) Finanzzentrum(en)]** Geschäftstag **[vor Beginn]** der jeweiligen Zinsperiode. **"[relevante(s) Finanzzentrum(en)] Geschäftstag"** bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in **[relevante(s) Finanzzentrum(en)]** für Geschäfte (einschließlich Devisen- und Sortengeschäfte) geöffnet sind.

[Die "Marge" beträgt [] % per annum.]

"Bildschirmseite" bedeutet Reuters Bildschirmseite **[LIBOR01] [LIBOR02]** oder die jeweilige Nachfolgesite, die vom selben System angezeigt wird oder aber von einem anderen System, das zum Vertreter von Informationen zum Zwecke der Anzeigen von Sätzen oder Preisen ernannt wurde, die dem betreffenden Angebotssatz vergleichbar sind.

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit kein Angebotssatz angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige Angebotssätze (jeweils als Prozentsatz *per annum* ausgedrückt) für Einlagen in der festgelegten Währung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden Banken im Londoner Interbanken-Markt um ca. 11.00 Uhr (Londoner

Ortszeit) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, ist der Zinssatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Hunderttausendstel Prozent, wobei 0,000005 aufgerundet wird) dieser Angebotssätze **[[zuzüglich] [abzüglich] der Marge]**, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Zinssatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Hunderttausendstel Prozent, wobei 0,000005 aufgerundet wird) der Angebotssätze ermittelt, die von der Berechnungsstelle in angemessener Sorgfalt ausgewählte Großbanken im Londoner Interbanken-Markt der Berechnungsstelle auf ihre Anfrage als den jeweiligen Satz nennen, zu dem sie um ca. 11.00 Uhr (Londoner Ortszeit) am betreffenden Zinsfestlegungstag Darlehen in der festgelegten Währung für die betreffende Zinsperiode und über einen repräsentativen Betrag gegenüber führenden Europäischen Banken anbieten **[[zuzüglich] [abzüglich] der Marge].**

"**repräsentativer Betrag**" bedeutet ein Betrag, der zu der jeweiligen Zeit in dem jeweiligen Markt für eine einzelne Transaktion repräsentativ ist.

"**Referenzbanken**" bezeichnet vier Großbanken im Londoner Interbanken-Markt.

Falls der Zinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes (2) ermittelt werden kann, ist der Zinssatz der Angebotssatz auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem dieser Angebotssatz angezeigt wurde **[[zuzüglich] [abzüglich] der Marge** (wie vorstehend definiert)], wobei alle Festlegungen durch die Berechnungsstelle erfolgen.]

(3) *Zinsbetrag*. Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf die festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf die festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

(4) *Mitteilung von Zinssatz und Zinsbetrag*. Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin **[Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar:** und der Garantin] sowie den Gläubigern gemäß § 13 baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden **[TARGET] [relevante(s) Finanzzentrum(en)]** Geschäftstag (wie in § 3 Absatz (2) definiert) sowie jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst nach der Bestimmung, aber keinesfalls später als am ersten Tag der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich geändert (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Änderung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, sowie den Gläubigern gemäß § 13 mitgeteilt.

(5) *Verbindlichkeit der Festsetzungen*. Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses § 3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, den Fiscal Agent, die Zahlstellen und die Gläubiger bindend.

(6) *Auflaufende Zinsen*. Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, endet die Verzinsung der Schuldverschreibungen nicht am Fälligkeitstag, sondern erst mit der tatsächlichen Rückzahlung der Schuldverschreibungen. Der jeweils geltende Zinssatz ist der gesetzlich festgelegte

Satz für Verzugszinsen.⁽¹⁾

(7) *Zinstagequotient*. "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

Im Fall von
Actual/365 (Fixed)
ist Folgendes
anwendbar

[die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 365.]

Im Fall von
Actual/360 ist
Folgendes
anwendbar

[die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 360.]

§ 4 ZAHLUNGEN

(1) (a) *Zahlungen auf Kapital*. Zahlungen auf Kapital in Bezug auf die Schuldverschreibungen erfolgen nach Maßgabe des nachstehenden Absatzes (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems.

(b) *Zahlung von Zinsen*. Die Zahlung von Zinsen auf Schuldverschreibungen erfolgt nach Maßgabe von Absatz (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems.

Im Fall von

einfügen

[Die Zahlung von Zinsen auf Schuldverschreibungen, die durch die vorläufige Globalurkunde verbrieft sind, erfolgt nach Maßgabe von Absatz (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems, und zwar nach ordnungsgemäßer Bescheinigung gemäß § 1 Absatz (3)(b).]

(2) *Zahlungsweise*. Vorbehaltlich (i) geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften und (ii) eines Einbehalts oder Abzugs aufgrund eines Vertrags wie in Section 1471(b) des U.S. Internal Revenue Code von 1986 (der "**Code**") beschrieben bzw. anderweit gemäß Section 1471 bis Section 1474 des Code auferlegt, etwaigen aufgrund dessen getroffener Regelungen oder geschlossener Abkommen, etwaiger offizieller Auslegungen davon, oder von Gesetzen zur Umsetzung einer Regierungszusammenarbeit dazu erfolgen zu leistende Zahlungen auf die Schuldverschreibungen in der festgelegten Währung.

(3) *Erfüllung*. Die Emittentin wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.

(4) *Zahltag*. Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann hat der Gläubiger keinen Anspruch auf Zahlung vor dem nächsten Zahltag am jeweiligen Geschäftsort. Der Gläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen.

Für diese Zwecke bezeichnet "**Zahltag**" einen Tag, der ein Geschäftstag ist.

(5) *Bezugnahmen auf Kapital und Zinsen*. Bezugnahmen in diesen Anleihebedingungen auf Kapital der Schuldverschreibungen schließen, soweit anwendbar, die folgenden Beträge ein: den Rückzahlungsbetrag der Schuldverschreibungen; sowie jeden Aufschlag sowie sonstige auf oder in Bezug auf die Schuldverschreibungen zahlbaren Beträge. Bezugnahmen in diesen Anleihebedingungen auf Zinsen auf die Schuldverschreibungen sollen, soweit anwendbar, sämtliche gemäß § 7 zahlbaren zusätzlichen Beträge einschließen.

⁽¹⁾ Der gesetzliche Verzugszinssatz beträgt für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 Absatz 1, 247 Absatz 1 BGB.

(6) *Hinterlegung von Kapital und Zinsen.* Die Emittentin ist berechtigt, beim Amtsgericht Frankfurt am Main, Bundesrepublik Deutschland, Zins- oder Kapitalbeträge zu hinterlegen, die von den Gläubigern nicht innerhalb von zwölf Monaten nach dem Fälligkeitstag beansprucht worden sind, auch wenn die Gläubiger sich nicht in Annahmeverzug befinden. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die diesbezüglichen Ansprüche der Gläubiger gegen die Emittentin.

§ 5 RÜCKZAHLUNG

(1) *Rückzahlung bei Endfälligkeit.* Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Schuldverschreibungen zu ihrem Rückzahlungsbetrag am in den **[Rückzahlungsmonat]** fallenden Zinszahlungstag (der "**Fälligkeitstag**") zurückgezahlt. Der "**Rückzahlungsbetrag**" in Bezug auf jede Schuldverschreibung entspricht dem Nennbetrag der Schuldverschreibung.

Im Fall von Schuldverschreibungen, die von BASF begeben werden, ist Folgendes anwendbar

[(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.* Die Schuldverschreibungen können insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 Tagen und nicht mehr als 60 Tagen gegenüber dem Fiscal Agent und gemäß § 13 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem Rückzahlungsbetrag zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden, falls die Emittentin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Bundesrepublik Deutschland oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt, diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 Absatz (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird und diese Verpflichtung nicht durch das Ergreifen vernünftiger, der Emittentin zur Verfügung stehender Maßnahmen vermieden werden kann.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühest möglichen Termin erfolgen, an dem die Emittentin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, in dem die Kündigungsmitteilung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist. Der für die Rückzahlung festgelegte Termin muss ein Zinszahlungstag sein.]

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(2) *Vorzeitige Rückzahlung aus steuerlichen Gründen.* Die Schuldverschreibungen können insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin mit einer Kündigungsfrist von nicht weniger als 30 Tagen und nicht mehr als 60 Tagen gegenüber dem Fiscal Agent und gemäß § 13 gegenüber den Gläubigern vorzeitig gekündigt und zu ihrem Rückzahlungsbetrag zuzüglich bis zum für die Rückzahlung festgesetzten Tag aufgelaufener Zinsen zurückgezahlt werden, falls die Emittentin oder die Garantin als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze und -vorschriften der Bundesrepublik Deutschland oder der Niederlande oder deren politischen Untergliederungen oder Steuerbehörden oder als Folge einer Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze und Vorschriften (vorausgesetzt, diese Änderung oder Ergänzung wird am oder nach dem Tag, an dem die letzte Tranche dieser Serie von Schuldverschreibungen begeben wird, wirksam) am nächstfolgenden Zinszahlungstag (wie in § 3 Absatz (1) definiert) zur Zahlung von zusätzlichen Beträgen (wie in § 7 dieser Bedingungen definiert) verpflichtet sein wird und diese Verpflichtung nicht durch das Ergreifen vernünftiger, der Emittentin oder der Garantin zur Verfügung stehender Maßnahmen vermieden werden kann.

Eine solche Kündigung darf allerdings nicht (i) früher als 90 Tage vor dem frühest möglichen Termin erfolgen, an dem die Emittentin oder die Garantin verpflichtet wäre, solche zusätzlichen Beträge zu zahlen, falls eine Zahlung auf die

Schuldverschreibungen dann fällig sein würde, oder (ii) erfolgen, wenn zu dem Zeitpunkt, in dem die Kündigungsmitteilung erfolgt, die Verpflichtung zur Zahlung von zusätzlichen Beträgen nicht mehr wirksam ist. Der für die Rückzahlung festgelegte Termin muss ein Zinszahlungstag sein.]

Eine solche Kündigung hat gemäß § 13 zu erfolgen. Sie ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin nennen und eine zusammenfassende Erklärung enthalten, welche die das Rückzahlungsrecht der Emittentin begründenden Umständen darlegt.

Falls die Gläubiger das Wahlrecht haben, die Schuldverschreibungen vorzeitig aufgrund eines Kontrollwechsels zu kündigen, ist Folgendes anwendbar

[(3) *Kontrollwechsel*. Tritt ein Kontrollwechsel ein und kommt es innerhalb des Kontrollwechselzeitraums zu einer Absenkung des Ratings auf Grund des Kontrollwechsels (zusammen, ein "**Rückzahlungsereignis**"), hat jeder Gläubiger das Recht (sofern nicht die Emittentin, bevor die nachstehend beschriebene Rückzahlungsmitteilung gemacht wird, die Rückzahlung der Schuldverschreibungen nach § 5 Absatz (2) angezeigt hat), die Rückzahlung seiner Schuldverschreibungen durch die Emittentin zum Nennbetrag, zuzüglich aufgelaufener Zinsen bis zum Rückzahlungstag (ausschließlich), zu verlangen.

Für Zwecke dieses Wahlrechts:

Bedeutet "**Ratingagentur**" jede Ratingagentur von Standard and Poor's Rating Services, eine Abteilung von The McGraw-Hill Companies, Inc. ("**S&P**") und Moody's Investors Services ("**Moody's**") oder eine ihrer jeweiligen Nachfolgegesellschaften oder jede andere von BASF von Zeit zu Zeit bestimmte Ratingagentur vergleichbaren internationalen Ansehens;

Gilt eine "**Absenkung des Ratings**" in Bezug auf einen Kontrollwechsel als eingetreten, wenn innerhalb des Kontrollwechselzeitraums ein vorher für BASF oder die Schuldverschreibungen vergebenes Rating einer Ratingagentur (i) zurückgezogen oder (ii) von einem Investment Grade Rating (BBB- von S&P/Baa3 von Moody's oder jeweils gleichwertig, oder besser) in ein non-Investment Grade Rating (BB+ von S&P/Ba1 von Moody's oder jeweils gleichwertig, oder schlechter) geändert wird;

Gilt ein "**Kontrollwechsel**" jedes Mal als eingetreten, wenn eine Person oder mehrere Personen (die "**relevante(n) Person(en)**"), die im Sinne von § 30 Absatz 2 des Wertpapiererwerbs- und Übernahmegesetzes (WpÜG) abgestimmt handeln, oder ein oder mehrere Dritte(r), die im Auftrag der relevanten Person(en) handeln, zu irgendeiner Zeit mittelbar oder unmittelbar (unabhängig davon, ob der Vorstand oder der Aufsichtsrat der BASF seine Zustimmung erteilt hat) eine solche Anzahl von Aktien der BASF hält bzw. halten oder erworben hat bzw. haben, auf die mehr als 50% der Stimmrechte entfallen;

Ist der "**Kontrollwechselzeitraum**" der Zeitraum, der 120 Tage nach dem Eintritt eines Kontrollwechsels endet; und

Ist der "**Rückzahlungstag**" der fünfzehnte Tag nach dem letzten Tag des Ausübungszeitraums.

Sofort nachdem die Emittentin von einem Rückzahlungsereignis Kenntnis erlangt, wird sie den Gläubigern gemäß § 13 Mitteilung vom Rückzahlungsereignis machen (eine "**Rückzahlungsmitteilung**"), in der die Umstände des Rückzahlungsereignisses sowie das Verfahren für die Ausübung des in diesem § 5 Absatz (3) genannten Wahlrechts angegeben sind.

Um dieses Wahlrecht auszuüben, hat der Gläubiger innerhalb eines Zeitraums von 45 Tagen nachdem die Rückzahlungsmitteilung veröffentlicht ist (der "**Ausübungszeitraum**"), an die bezeichnete Geschäftsstelle des Fiscal Agent eine Mitteilung zur vorzeitigen Rückzahlung in Textform (z.B. eMail oder Fax) oder in schriftlicher Form ("**Ausübungserklärung**") zu schicken. Falls die Ausübungserklärung nach 17:00 Uhr Frankfurter Zeit am 45. Tag nach Veröffentlichung der Rückzahlungsmitteilung eingeht, ist das Wahlrecht nicht wirksam ausgeübt. Die Ausübungserklärung hat anzugeben: (i) den gesamten Nennbetrag der Schuldverschreibungen, für die das Wahlrecht ausgeübt wird und (ii) die Wertpapierkennnummern dieser Schuldverschreibungen (soweit vergeben). Für die Ausübungserklärung kann ein Formblatt, wie es bei den bezeichneten Geschäftsstellen des Fiscal Agent in deutscher und englischer Sprache erhältlich ist und das weitere Hinweise enthält, verwendet werden. Die Ausübung des Wahlrechts

Falls die Emittentin das Wahlrecht hat, die Schuldverschreibungen vorzeitig zum Rückzahlungsbetrag zurückzahlen, ist Folgendes anwendbar

kann nicht widerrufen werden. Die Rückzahlung der Schuldverschreibungen, für welche das Wahlrecht ausgeübt worden ist, erfolgt nur gegen Lieferung der Schuldverschreibungen an die Emittentin oder deren Order.]

[[4)] *Vorzeitige Rückzahlung nach Wahl der Emittentin.*

- (a) Die Emittentin kann, nachdem sie gemäß Absatz (b) gekündigt hat, die Schuldverschreibungen insgesamt oder teilweise am **[Zahl]** Jahre nach dem Verzinsungsbeginn folgenden Zinszahlungstag und danach an jedem darauf folgenden Zinszahlungstag (jeder ein "**Wahl-Rückzahlungstag (Call)**") zum Rückzahlungsbetrag nebst etwaigen bis zum jeweiligen Wahl-Rückzahlungstag (Call) (ausschließlich) aufgelaufenen Zinsen zurückzahlen.
- (b) Die Kündigung ist den Gläubigern der Schuldverschreibungen durch die Emittentin gemäß § 13 bekannt zu geben. Sie beinhaltet die folgenden Angaben:
- (i) die zurückzuzahlende Serie von Schuldverschreibungen;
 - (ii) eine Erklärung, ob diese Serie ganz oder teilweise zurückgezahlt wird und im letzteren Fall den Gesamtnennbetrag der zurückzuzahlenden Schuldverschreibungen; und
 - (iii) den Wahl-Rückzahlungstag (Call), der nicht weniger als 30 Tage und nicht mehr als 60 Tage nach dem Tag der Kündigung durch die Emittentin gegenüber den Gläubigern liegen darf.
- (c) Wenn die Schuldverschreibungen nur teilweise zurückgezahlt werden, werden die zurückzuzahlenden Schuldverschreibungen in Übereinstimmung mit den Regeln des betreffenden Clearing Systems ausgewählt. **[Falls die Schuldverschreibungen in Form einer NGN begeben werden, ist Folgendes anwendbar:** Die teilweise Rückzahlung wird in den Registern von CBL und Euroclear nach deren Ermessen entweder als Pool-Faktor oder als Reduzierung des Gesamtnennbetrags wiedergegeben.]]

Der Fiscal Agent, die Zahlstelle und die Berechnungsstelle behalten sich das Recht vor, jederzeit ihre bezeichneten Geschäftsstellen durch eine andere bezeichnete Geschäftsstelle in derselben Stadt zu ersetzen.

(2) *Änderung der Bestellung oder Abberufung.* Die Emittentin behält sich das Recht vor, jederzeit die Bestellung des Fiscal Agents oder einer Zahlstelle oder der Berechnungsstelle zu ändern oder zu beenden und einen anderen Fiscal Agent oder zusätzliche oder andere Zahlstellen oder eine andere Berechnungsstelle zu bestellen. Die Emittentin wird zu jedem Zeitpunkt (i) einen Fiscal Agent unterhalten **[Im Fall von Zahlungen in U.S. Dollar ist Folgendes anwendbar:**, (ii) falls Zahlungen bei den oder durch die Geschäftsstellen aller Zahlstellen außerhalb der Vereinigten Staaten (wie unten definiert) aufgrund der Einführung von Devisenbeschränkungen oder ähnlichen Beschränkungen hinsichtlich der vollständigen Zahlung oder des Empfangs der entsprechenden Beträge in U.S. Dollar widerrechtlich oder tatsächlich ausgeschlossen werden, eine Zahlstelle mit bezeichneter Geschäftsstelle in New York City unterhalten] [,] [und] [(iii)] eine Berechnungsstelle unterhalten. Eine Änderung,

Abberufung, Bestellung oder ein sonstiger Wechsel wird nur wirksam (außer im Insolvenzfall, in dem eine solche Änderung sofort wirksam wird), sofern die Gläubiger hierüber gemäß § 13 vorab unter Einhaltung einer Frist von mindestens 30 Tagen und nicht mehr als 45 Tagen informiert wurden. Für die Zwecke dieser Anleihebedingungen bezeichnet "**Vereinigte Staaten**" die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Ricos, der U.S. Virgin Islands, Guam, American Samoa, Wake Island und Northern Mariana Islands).

(3) *Erfüllungsgehilfe(n) der Emittentin.* Der Fiscal Agent, die Zahlstelle und die Berechnungsstelle handeln ausschließlich als Erfüllungsgehilfen der Emittentin und übernehmen keinerlei Verpflichtungen gegenüber den Gläubigern und es wird kein Auftrags- oder Treuhandverhältnis zwischen ihnen und den Gläubigern begründet.

§ 7 STEUERN

Im Fall von Schuldverschreibungen, die von BASF begeben werden, ist Folgendes anwendbar

[Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde der oder in der Bundesrepublik Deutschland auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich vorgeschrieben. Ist ein solcher Einbehalt gesetzlich vorgeschrieben, so wird die Emittentin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlicher Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:

- (a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Emittentin aus den von ihr zu leistenden Zahlungen von Kapital oder Zinsen einen Abzug oder Einbehalt vornimmt; oder
- (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zu der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland oder die Europäische Union beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
- (d) aufgrund einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß § 13 wirksam wird.

Die seit dem 1. Januar 2009 in der Bundesrepublik Deutschland geltende Abgeltungssteuer und der darauf erhobene Solidaritätszuschlag sind keine Steuer oder sonstige Abgabe im oben genannten Sinn, für die zusätzliche Beträge seitens der Emittentin zu zahlen wären.]

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

- (d) aufgrund einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß § 13 wirksam wird.

Die seit dem 1. Januar 2009 in der Bundesrepublik Deutschland geltende Abgeltungssteuer und der darauf erhobene Solidaritätszuschlag sind keine Steuer oder sonstige Abgabe im oben genannten Sinn, für die zusätzliche Beträge seitens der Emittentin zu zahlen wären.]

§ 8 VORLEGUNGSFRIST

Die in § 801 Absatz 1 Satz 1 BGB bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf zehn Jahre verkürzt.

§ 9 KÜNDIGUNG

Im Fall von Schuldverschreibungen, die von BASF begeben werden, ist Folgendes anwendbar

[(1) *Kündigungsgründe.* Jeder Gläubiger ist berechtigt, seine Schuldverschreibung zu kündigen und deren sofortige Rückzahlung zu ihrem Rückzahlungsbetrag zuzüglich (etwaiger) bis zum Tage der Rückzahlung aufgelaufener Zinsen zu verlangen, falls:

- (a) die Emittentin Kapital oder Zinsen nicht innerhalb von 30 Tagen nach dem betreffenden Fälligkeitstag zahlt; oder
- (b) die Emittentin die ordnungsgemäße Erfüllung einer anderen Verpflichtung aus den Schuldverschreibungen unterlässt und diese Unterlassung länger als 30 Tage fort dauert, nachdem der Fiscal Agent hierüber eine Benachrichtigung von einem Gläubiger erhalten hat; oder
- (c) eine Kapitalmarktverbindlichkeit (wie in § 2 Absatz (2) definiert) oder ein Schuldscheindarlehen (mit einer ursprünglichen Laufzeit von mehr als einem Jahr) der Emittentin vorzeitig zahlbar wird aufgrund einer Nicht- oder Schlechtleistung des dieser Kapitalmarktverbindlichkeit oder des Schuldscheindarlehens (mit einer ursprünglichen Laufzeit von mehr als einem Jahr) zugrunde liegenden Vertrages, oder die Emittentin einer Zahlungsverpflichtung in Höhe oder im Gegenwert von mehr als EUR 200.000.000 aus einer Kapitalmarktverbindlichkeit oder einem Schuldscheindarlehen (mit einer ursprünglichen Laufzeit von mehr als einem Jahr) oder aufgrund einer Bürgschaft oder Garantie, die für die Kapitalmarktverbindlichkeit oder ein Schuldscheindarlehen (mit einer

ursprünglichen Laufzeit von mehr als einem Jahr) Dritter gegeben wurde, nicht innerhalb von 30 Tagen nach ihrer Fälligkeit bzw. im Falle einer Bürgschaft oder Garantie nicht innerhalb von 30 Tagen nach Inanspruchnahme aus dieser Bürgschaft oder Garantie nachkommt, es sei denn, die Emittentin bestreitet in gutem Glauben, dass diese Zahlungsverpflichtung besteht oder fällig ist bzw. diese Bürgschaft oder Garantie berechtigterweise geltend gemacht wird, oder falls eine für solche Verbindlichkeiten bestellte Sicherheit für die oder von den daraus berechtigten Gläubiger(n) in Anspruch genommen wird; oder

- (d) die Emittentin ihre Zahlungsunfähigkeit allgemein bekanntgibt oder ihre Zahlungen einstellt; oder
- (e) ein Gericht ein Insolvenzverfahren gegen die Emittentin eröffnet, ein solches Verfahren eingeleitet und nicht innerhalb von 60 Tagen aufgehoben oder ausgesetzt worden ist, oder die Emittentin ein solches Verfahren einleitet oder beantragt; oder

- (g) die Emittentin in Liquidation tritt, es sei denn, dies geschieht im Zusammenhang mit einer Verschmelzung oder einer anderen Form des Zusammenschlusses mit einer anderen Gesellschaft oder im Zusammenhang mit einer Umwandlung und diese Gesellschaft übernimmt alle Verpflichtungen, die die Emittentin im Zusammenhang mit diesen Schuldverschreibungen eingegangen ist.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

(2) *Quorum*. In den Fällen des Absatz (1)(b) und/oder (1)(c) wird eine Kündigung, sofern nicht bei deren Eingang zugleich einer der in Absatz (1)(a) und (1)(d) bis (g) bezeichneten Kündigungsgründe vorliegt, erst wirksam, wenn bei dem Fiscal Agent Kündigungserklärungen von Gläubigern von Schuldverschreibungen im Gesamtnennbetrag von mindestens $\frac{1}{10}$ der dann ausstehenden Schuldverschreibungen eingegangen sind.

(3) *Benachrichtigung*. - (b) die Emittentin die ordnungsgemäße Erfüllung einer anderen Verpflichtung aus den Schuldverschreibungen oder die Garantin die Erfüllung einer Verpflichtung aus der Garantie unterlässt und diese Unterlassung länger als 30 Tage fort dauert, nachdem der Fiscal Agent hierüber eine Benachrichtigung von einem Gläubiger erhalten hat; oder
- (c) eine Kapitalmarktverbindlichkeit (wie in § 2 Absatz (2) definiert) oder ein Schuldscheindarlehen (mit einer ursprünglichen Laufzeit von mehr als einem Jahr) der Emittentin oder der Garantin vorzeitig zahlbar wird aufgrund einer Nicht- oder Schlechtleistung des dieser Kapitalmarktverbindlichkeit oder des Schuldscheindarlehens zugrunde liegenden Vertrages, oder die Emittentin oder die Garantin einer Zahlungsverpflichtung in Höhe oder im Gegenwert von mehr als EUR 200.000.000 aus einer Kapitalmarktverbindlichkeit oder einem Schuldscheindarlehen oder aufgrund einer Bürgschaft oder Garantie, die für die Kapitalmarktverbindlichkeit oder ein Schuldscheindarlehen Dritter gegeben wurde, nicht innerhalb von 30 Tagen nach ihrer Fälligkeit bzw. im Falle einer Bürgschaft oder Garantie nicht innerhalb von 30 Tagen nach Inanspruchnahme aus dieser

Bürgschaft oder Garantie nachkommt, es sei denn, die Emittentin oder die Garantin bestreitet in gutem Glauben, dass diese Zahlungsverpflichtung besteht oder fällig ist bzw. diese Bürgschaft oder Garantie berechtigterweise geltend gemacht wird, oder falls eine für solche Verbindlichkeiten bestellte Sicherheit für die oder von den daraus berechtigten Gläubiger(n) in Anspruch genommen wird; oder

- (d) die Emittentin oder die Garantin ihre Zahlungsunfähigkeit allgemein bekanntgibt oder ihre Zahlungen einstellt; oder
 - (e) ein Gericht ein Insolvenzverfahren gegen die Emittentin oder die Garantin eröffnet, ein solches Verfahren eingeleitet und nicht innerhalb von 60 Tagen aufgehoben oder ausgesetzt worden ist, oder die Emittentin oder die Garantin ein solches Verfahren einleitet oder beantragt oder die Emittentin ein "*surseance van betaling*" (im Sinne des niederländischen Insolvenzrechts) beantragt; oder
 - (f) die Emittentin oder die Garantin ihre Geschäftstätigkeit ganz oder überwiegend einstellt, alle oder den wesentlichen Teil ihres Vermögens veräußert oder anderweitig abgibt und (i) dadurch den Wert ihres Vermögens wesentlich vermindert und (ii) es dadurch wahrscheinlich wird, dass die Emittentin oder die Garantin ihre Zahlungsverpflichtungen gegenüber den Gläubigern nicht mehr erfüllen kann; oder
 - (g) die Emittentin oder die Garantin in Liquidation tritt, es sei denn, dies geschieht im Zusammenhang mit einer Verschmelzung oder einer anderen Form des Zusammenschlusses mit einer anderen Gesellschaft oder im Zusammenhang mit einer Umwandlung und diese Gesellschaft übernimmt alle Verpflichtungen, die die Emittentin oder die Garantin im Zusammenhang mit diesen Schuldverschreibungen eingegangen ist; oder
 - (h) die Garantie aus irgendeinem Grund nicht mehr wirksam und rechtlich bindend ist.
- Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

In den Fällen des Absatz (1)(b) und/oder (1)(c) wird eine Kündigung, sofern nicht bei deren Eingang zugleich einer der in Absatz (1)(a) und (1)(d) bis (h) bezeichneten Kündigungsgründe vorliegt, erst wirksam, wenn bei dem Fiscal Agent Kündigungserklärungen von Gläubigern von Schuldverschreibungen im Gesamtnennbetrag von mindestens $\frac{1}{10}$ der dann ausstehenden Schuldverschreibungen eingegangen sind.

(3) *Benachrichtigung*. § 11

ÄNDERUNG DER ANLEIHEBEDINGUNGEN, GEMEINSAMER VERTRETER[, ÄNDERUNG DER GARANTIE]

(1) *Änderung der Anleihebedingungen.* Die Gläubiger können entsprechend den Bestimmungen des Gesetzes über Schuldverschreibungen aus Gesamtemissionen (*Schuldverschreibungsgesetz – "SchVG"*) durch einen Beschluss mit der in Absatz 2 bestimmten Mehrheit über einen im SchVG zugelassenen Gegenstand eine Änderung der Anleihebedingungen mit der Emittentin vereinbaren. Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluss

der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75 % der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und die keinen Gegenstand der § 5 Absatz 3, Nr. 1 bis Nr. 8 des SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

(3) *Beschlüsse der Gläubiger.* Beschlüsse der Gläubiger werden nach Wahl der Emittentin im Wege der Abstimmung ohne Versammlung nach § 18 SchVG oder einer Gläubigerversammlung nach § 9 SchVG gefasst.

Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluß eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluß sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.

Im Fall von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(7) *Änderung der Garantie.* Die oben aufgeführten auf die Schuldverschreibungen anwendbaren Bestimmungen finden sinngemäß auf die Bestimmungen der Garantie der BASF Anwendung.]

§ 12

BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN, ANKAUF UND ENTWERTUNG

(1) *Begebung weiterer Schuldverschreibungen.* Die Emittentin ist berechtigt, jederzeit ohne Zustimmung der Gläubiger weitere Schuldverschreibungen mit gleicher Ausstattung (gegebenenfalls mit Ausnahme des Tags der Begebung, des Verzinsungsbeginns und/oder des Ausgabepreises) in der Weise zu begeben, dass sie mit diesen Schuldverschreibungen eine einheitliche Serie bilden.

(2) *Ankauf.* Die Emittentin ist berechtigt, jederzeit Schuldverschreibungen im Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin

erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei dem Fiscal Agent zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Gläubigern gemacht werden.

(3) *Entwertung*. Sämtliche vollständig zurückgezahlten Schuldverschreibungen sind unverzüglich zu entwerten und können nicht wiederbegeben oder wiederverkauft werden.

§ 13 MITTEILUNGEN

Im Fall von Schuldverschreibungen, die in der offiziellen Liste der Luxemburger Börse notiert werden, ist Folgendes anwendbar

[(1) *Bekanntmachung*. Alle die Schuldverschreibungen betreffenden Mitteilungen erfolgen durch elektronische Publikation auf der Website der Luxemburger Börse (www.bourse.lu). Jede Mitteilung gilt am dritten Tag nach dem Tag der Veröffentlichung als wirksam erfolgt.

(2) *Mitteilungen an das Clearing System*. Solange Schuldverschreibungen an der Luxemburger Börse notiert sind, findet Absatz (1) Anwendung. Soweit die Mitteilung den Zinssatz von variabel verzinslichen Schuldverschreibungen betrifft oder die Regeln der Luxemburger Börse dies sonst zulassen, kann die Emittentin eine Veröffentlichung nach Absatz (1) durch eine Mitteilung an das Clearing System zur Weiterleitung an die Gläubiger ersetzen; jede derartige Mitteilung gilt am siebten Tag nach dem Tag der Mitteilung an das Clearing System als den Gläubigern mitgeteilt.]

Im Fall von Schuldverschreibungen, die nicht an einer Börse notiert sind, ist Folgendes anwendbar

[(1) *Mitteilungen an das Clearing System*. Die Emittentin wird alle die Schuldverschreibungen betreffenden Mitteilungen an das Clearing System zur Weiterleitung an die Gläubiger übermitteln. Eine solche Mitteilung kann über das Clearing System in der von dem Fiscal Agent und dem Clearing System dafür vorgesehenen Weise erfolgen.

§ 14 ANWENDBARES RECHT, GERICHTSSTAND UND GERICHTLICHE GELTENDMACHUNG

(1) *Anwendbares Recht*. Form und Inhalt der Schuldverschreibungen sowie die Rechte und Pflichten der Gläubiger und der Emittentin bestimmen sich in jeder Hinsicht nach deutschem Recht.

(2) *Gerichtsstand*. Nicht ausschließlich zuständig für sämtliche im Zusammenhang mit den Schuldverschreibungen entstehenden Klagen oder sonstige Verfahren ("**Rechtsstreitigkeiten**") ist das Landgericht Frankfurt am Main, Bundesrepublik Deutschland.

Im Falle von Schuldverschreibungen, die von BASF Finance begeben werden, ist Folgendes anwendbar

[(3) *Bestellung von Zustellungsbevollmächtigten*. Für etwaige Rechtsstreitigkeiten vor deutschen Gerichten bestellt die Emittentin die BASF SE, Carl-Bosch-Straße 38, 67056 Ludwigshafen am Rhein, Bundesrepublik Deutschland, zu ihrer Zustellungsbevollmächtigten in der Bundesrepublik Deutschland.]

[(4)] *Gerichtliche Geltendmachung.* Jeder Gläubiger von Schuldverschreibungen ist berechtigt, in jedem Rechtsstreit gegen die Emittentin oder in jedem Rechtsstreit, in dem der Gläubiger und die Emittentin Partei sind, seine Rechte aus diesen Schuldverschreibungen im eigenen Namen auf der folgenden Grundlage zu schützen oder geltend zu machen: (i) er bringt eine Bescheinigung der Depotbank bei, bei der er für die Schuldverschreibungen ein Wertpapierdepot unterhält, welche (a) den vollständigen Namen und die vollständige Adresse des Gläubigers enthält, (b) den Gesamtnennbetrag der Schuldverschreibungen bezeichnet, die unter dem Datum der Bestätigung auf dem Wertpapierdepot verbucht sind und (c) bestätigt, dass die Depotbank gegenüber dem Clearing System eine schriftliche Erklärung abgegeben hat, die die vorstehend unter (a) und (b) bezeichneten Informationen enthält; und (ii) er legt eine Kopie der die betreffenden Schuldverschreibungen verbriefenden Globalurkunde vor, deren Übereinstimmung mit dem Original eine vertretungsberechtigte Person des Clearing Systems oder des Verwahrers des Clearing Systems bestätigt hat, ohne dass eine Vorlage der Originalbelege oder der die Schuldverschreibungen verbriefenden Globalurkunde in einem solchen Verfahren erforderlich wäre. Für die Zwecke des Vorstehenden bezeichnet "**Depotbank**" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Gläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. Unbeschadet des Vorstehenden kann jeder Gläubiger seine Rechte aus den Schuldverschreibungen auch auf jede andere Weise schützen oder geltend machen, die im Land des Rechtsstreits prozessual zulässig ist.

GARANTIE

der

BASF SE, Ludwigshafen am Rhein, Bundesrepublik Deutschland, zu Gunsten der Gläubiger von Schuldverschreibungen (die "Schuldverschreibungen"), die von der BASF Finance Europe N.V., Arnhem, Niederlande, im Rahmen des EUR 20.000.000.000 Debt Issuance Program (das "Programm") begeben werden

PRÄAMBEL

- (A) Die BASF SE ("**BASF**") und die BASF Finance Europe N.V. ("**BASF Finance**") beabsichtigen, von Zeit zu Zeit Schuldverschreibungen im Rahmen des Programms zu begeben, deren jeweils ausstehender Gesamtnennbetrag das Programm-Limit nicht übersteigt.
- (B) Die Schuldverschreibungen unterliegen den Anleihebedingungen der Schuldverschreibungen nach deutschem Recht (in der durch die anwendbaren Endgültigen Bedingungen jeweils geänderten, ergänzten oder modifizierten Fassung, die "**Bedingungen**").
- (C) Die BASF SE (die "**Garantin**") beabsichtigt, mit dieser Garantie die Zahlung von Kapital und Zinsen sowie von jeglichen sonstigen Beträgen zu garantieren, die aufgrund der von der BASF Finance zu irgendeiner Zeit im Rahmen des Programms begebenen Schuldverschreibungen zu leisten sind.

HIERMIT WIRD FOLGENDES VEREINBART:

1. Die Garantin übernimmt gegenüber den Gläubigern jeder einzelnen Schuldverschreibung (wobei dieser Begriff jede (vorläufige oder Dauer-) Globalurkunde, die Schuldverschreibungen verbrieft, einschließt), die jetzt oder später von der BASF Finance im Rahmen des Programms begeben wird, die unbedingte und unwiderrufliche Garantie für die ordnungsgemäße Zahlung von Kapital und Zinsen auf die Schuldverschreibungen sowie von jeglichen sonstigen Beträgen, die in Übereinstimmung mit den Bedingungen auf irgendeine Schuldverschreibung zahlbar sind, und zwar zu den in den Bedingungen bestimmten Fälligkeiten.
2. Diese Garantie begründet eine unwiderrufliche, nicht nachrangige und (vorbehaltlich der Bestimmungen in Ziffer 4 dieser Garantie) nicht besicherte Verpflichtung der Garantin, die mit allen sonstigen nicht nachrangigen und nicht besicherten Verpflichtungen der Garantin wenigstens im gleichen Rang steht (soweit nicht zwingende gesetzliche Bestimmungen entgegenstehen).
3. Sämtliche auf diese Garantie zu zahlenden Beträge sind ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde der oder in der Bundesrepublik Deutschland auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich vorgeschrieben. In diesem Fall wird die Garantin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Gläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Gläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlicher Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:
 - (a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die BASF Finance oder die Garantin aus den von ihr zu leistenden Zahlungen von Kapital oder Zinsen einen Abzug oder Einbehalt vornimmt; oder
 - (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Gläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
 - (c) aufgrund (i) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (ii) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland oder die Europäische Union beteiligt ist, oder (iii) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
 - (d) aufgrund einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer

Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß den Bedingungen wirksam wird.

4. Die Garantin verpflichtet sich gegenüber jedem Gläubiger, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, keine gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeiten und keine Garantien oder andere Gewährleistungen dafür durch Grund- oder Mobiliarpfandrechte an ihrem Vermögen zu besichern, oder eine solche Besicherung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit oder an solchen anderen Sicherheiten, die von einem internationalen angesehenen unabhängigen Wirtschaftsprüfer als gleichwertige Sicherheit anerkannt werden, im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. "**Kapitalmarktverbindlichkeit**" ist jede Verbindlichkeit hinsichtlich der Rückzahlung aufgenommener Geldbeträge, die durch Schuldverschreibungen oder sonstige Wertpapiere mit einer ursprünglichen Laufzeit von mehr als einem Jahr, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können, verbrieft oder verkörpert ist.
5. Die Verpflichtungen der Garantin aus dieser Garantie (i) sind selbständig und unabhängig von den Verpflichtungen der BASF Finance aus den Schuldverschreibungen und (ii) bestehen ohne Rücksicht auf die Rechtmäßigkeit, Gültigkeit, Verbindlichkeit und Durchsetzbarkeit der Schuldverschreibungen.
6. Die Verpflichtungen der Garantin aus dieser Garantie erstrecken sich, ohne dass eine weitere Handlung durchgeführt werden oder ein weiterer Umstand entstehen muss, auf solche Verpflichtungen jeglicher nicht mit der Garantin identischen neuen Emittentin, die infolge einer Schuldnerersetzung gemäß den anwendbaren Bestimmungen der Bedingungen in Bezug auf jedwede Schuldverschreibung entstehen.
7. Diese Garantie erstreckt sich auf sämtliche Schuldverschreibungen, die am oder nach dem Datum dieser Garantie von der BASF Finance unter dem Programm begeben werden.
8. Diese Garantie und alle hierin enthaltenen Vereinbarungen sind ein Vertrag zu Gunsten der Gläubiger der Schuldverschreibungen als begünstigte Dritte gemäß § 328 Abs. 1 BGB und begründen das Recht eines jeden Gläubigers, die Erfüllung der hierin eingegangenen Verpflichtungen unmittelbar von der Garantin zu fordern und diese Verpflichtungen unmittelbar gegenüber der Garantin durchzusetzen.

Ein Gläubiger einer Schuldverschreibung kann im Falle der Nichterfüllung von Zahlungen auf die Schuldverschreibungen zur Durchsetzung dieser Garantie unmittelbar gegen die Garantin Klage erheben, ohne dass zunächst ein Verfahren gegen die BASF Finance eingeleitet werden müsste.

9. Die Deutsche Bank Aktiengesellschaft, mit der die hierin enthaltenen Vereinbarungen getroffen werden, handelt als Fiscal Agent nicht als Beauftragte, Treuhänderin oder in einer ähnlichen Eigenschaft für die Gläubiger von Schuldverschreibungen.
10. Die hierin verwendeten und nicht anders definierten Begriffe haben die ihnen in den Bedingungen zugewiesene Bedeutung.
11. Die auf die Schuldverschreibungen Anwendung findenden Bestimmungen über die Änderung der Anleihebedingungen und den Gemeinsamen Vertreter gelten sinngemäß auch für diese Garantie.
12. Diese Garantie unterliegt dem Recht der Bundesrepublik Deutschland.
13. Diese Garantie ist in deutscher Sprache abgefasst und in die englische Sprache übersetzt. Die deutschsprachige Fassung ist verbindlich und allein maßgeblich.
14. Das Original dieser Garantie wird der Deutsche Bank Aktiengesellschaft ausgehändigt und von dieser verwahrt.
15. Ausschließlicher Gerichtsstand für alle Rechtsstreitigkeiten gegen die Garantin aus oder im Zusammenhang mit dieser Garantie ist Frankfurt am Main, Bundesrepublik Deutschland.
16. Jeder Gläubiger einer Schuldverschreibung kann in jedem Rechtsstreit gegen die Garantin und in jedem Rechtsstreit, in dem er und die Garantin Partei sind, seine aus dieser Garantie hervorgehenden Rechte auf der Grundlage einer von einer vertretungsberechtigten Person der Deutsche Bank Aktiengesellschaft beglaubigten Kopie dieser Garantie ohne Vorlage des Originals im eigenen Namen wahrnehmen und durchsetzen.

Wir akzeptieren die Bestimmungen der vorstehenden Garantie ohne Obligo, Gewährleistung oder Rückgriff auf uns.

**BASF SE, Ludwigshafen am Rhein, Federal Republic of Germany,
for the benefit of the holders of notes (the "Notes"), issued by BASF Finance Europe N.V.,
Arnhem, The Netherlands, under the EUR 20,000,000,000 Debt Issuance
Program (the "Program")**

WHEREAS:

- (A) BASF SE ("**BASF**") and BASF Finance Europe N.V. ("**BASF Finance**") intend to issue Notes under the Program from time to time, the outstanding aggregate principal amount of which will not exceed the Program Amount.
- (B) The Notes will be issued with Terms and Conditions under German law (as amended, supplemented or modified by the applicable Final Terms, the "**Conditions**").
- (C) BASF SE (the "**Guarantor**") wishes to guarantee the due payment of principal and interest and any other amounts payable in respect of any and all Notes that may be issued by BASF Finance under the Program.

IT IS AGREED AS FOLLOWS:

- (1) The Guarantor unconditionally and irrevocably guarantees to the holder of each Note (which expression shall include any Temporary Global Note or Permanent Global Note representing Notes) (each a "**Holder**") issued by BASF Finance now or at any time hereafter under the Program, the due and punctual payment of the principal of, and interest on, the Notes and any other amounts which may be expressed to be payable under any Note, as and when the same shall become due, in accordance with the Conditions.
- (2) This Guarantee constitutes an irrevocable, unsecured (subject to paragraph (4) hereunder) and unsubordinated obligation of the Guarantor and ranks *pari passu* with all other present or future unsecured and unsubordinated obligations of the Guarantor outstanding from time to time, subject to any obligations preferred by law.
- (3) All amounts payable in respect of this Guarantee shall be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by way of withholding or deduction by or on behalf of the Federal Republic of Germany or any political subdivision or any authority thereof or therein having power to tax unless such withholding or deduction is required by law. In such event, the Guarantor will pay such additional amounts (the "**Additional Amounts**") as shall be necessary in order that the net amounts received by the Holders, after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in the absence of such withholding or deduction; except that no such Additional Amounts shall be payable on account of any taxes or duties which:
 - (a) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by BASF Finance or the Guarantor from payments of principal or interest made by it, or
 - (b) are payable by reason of the Holder having, or having had, some personal or business connection with the Federal Republic of Germany or another member state of the European Union and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, the Federal Republic of Germany, or
 - (c) are deducted or withheld pursuant to (i) any European Union Directive or Regulation concerning the taxation of interest income, or (ii) any international treaty or understanding relating to such taxation and to which the Federal Republic of Germany or the European Union is a party, or (iii) any provision of law implementing, or complying with, or introduced to conform with, such Directive, Regulation, treaty or understanding, or
 - (d) are payable by reason of a change in law that becomes effective more than 30 days after the relevant payment becomes due, or is duly provided for and notice thereof is published in accordance with the Conditions, whichever occurs later.
- (4) The Guarantor undertakes towards each Holder, so long as any of the Notes remains outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, not to provide security upon any of its assets for any present or future Capital Market

Indebtedness or any guarantees or other indemnities resulting therefrom, without at the same time having the Holders share equally and rateably in such security or such other security as shall be approved by an independent accounting firm of internationally recognized standing as being equivalent security. "**Capital Market Indebtedness**" means any obligation for the repayment of borrowed money which is in the form of, or represented or evidenced by, bonds, notes or other securities, with an original maturity of more than one year, which are, or are capable of being, quoted, listed, dealt in or traded on a stock exchange or other recognized securities market.

- (5) The obligations of the Guarantor under this Guarantee (i) shall be separate and independent from the obligations of BASF Finance under the Notes, and (ii) shall exist irrespective of the legality, validity and binding effect or enforceability of the Notes.
- (6) The obligations of the Guarantor under this Guarantee shall, without any further act or thing being required to be done or to occur, extend to the obligations of any Substitute Debtor which is not the Guarantor arising in respect of any Note by virtue of a substitution pursuant to the Conditions.
- (7) This Guarantee is given in respect of any and all Notes which are or will be issued by BASF Finance under the Program on or after the date hereof.
- (8) This Agreement and all undertakings contained herein constitute a contract for the benefit of the Holders from time to time as third party beneficiaries pursuant to § 328 (1) BGB (German Civil Code)⁽¹⁾. They give rise to the right of each such Holder to require performance of the obligations undertaken herein directly from the Guarantor, and to enforce such obligations directly against the Guarantor.

Any Holder has the right in case of non-performance of any payments on the Notes to enforce the Guarantee by filing a suit directly against the Guarantor without the need to take prior proceedings against BASF Finance.

- (9) Deutsche Bank Aktiengesellschaft which accepted this Guarantee, in its capacity as Fiscal Agent does not act in a relationship of agency or trust, a fiduciary or in any other similar capacity for the Holders.
- (10) Terms used in this Agreement and not otherwise defined herein shall have the meaning attributed to them in the Conditions.
- (11) The provisions regarding the Amendment of the Terms and Conditions and the Holders' Representative applicable to the Notes shall be applicable *mutatis mutandis* also to this Guarantee.
- (12) This Agreement shall be governed by, and construed in accordance with, German law.
- (13) This Agreement is written in the German language and attached hereto is a non-binding English translation.
- (14) The original version of this Agreement shall be delivered to, and kept by, Deutsche Bank Aktiengesellschaft.
- (15) Exclusive place of jurisdiction for all legal proceedings arising out of or in connection with this Agreement against the Guarantor shall be Frankfurt am Main, Federal Republic of Germany.
- (16) On the basis of a copy of this Agreement certified as being a true copy by a duly authorized officer of Deutsche Bank Aktiengesellschaft each Holder may protect and enforce in his own name his rights arising under this Agreement in any legal proceedings against the Guarantor or to which such Holder and the Guarantor are parties, without the need for production of this Agreement in such proceedings.

Eurosystem eligibility⁽²³⁾
EZB-Fähigkeit

Intended to be held in a manner which would allow Eurosystem eligibility [Yes/No]
Soll in EZB-fähiger Weise gehalten werden [Ja/Nein]

[Note that the designation "yes" in the case of an NGN means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.]

[Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes in the case of an NGN may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]

⁽²²⁾ If proceeds are intended for more than one principal use will need to split up and present in order of priority. Sofern die Erträge für verschiedene wichtige Verwendungszwecke bestimmt sind, sind diese aufzuschlüsseln und nach der Priorität der Verwendungszwecke darzustellen.

⁽²³⁾ Select "Yes" if the Notes are in NGN form and are to be kept in custody by an ICSD as common safekeeper or if the Notes are in CGN form and are to be kept in custody by Clearstream Banking AG, Frankfurt. Select "No" if the Notes are in NGN form and are to be kept in custody by the common service provider as common safekeeper. "Ja" wählen, falls die Schuldverschreibungen in Form einer NGN begeben und von einem ICSD als common safekeeper gehalten werden sollen oder falls die Schuldverschreibungen in Form einer CGN begeben und von Clearstream Banking AG, Frankfurt gehalten werden sollen. "Nein" wählen, falls die Schuldverschreibungen in Form einer NGN begeben und vom common service provider als common safekeeper gehalten werden sollen.

[Es wird darauf hingewiesen, dass "ja" im Fall einer NGN hier lediglich bedeutet, dass die Schuldverschreibungen nach ihrer Begebung bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden; es bedeutet nicht notwendigerweise, dass die Schuldverschreibungen bei ihrer Begebung, zu irgendeinem Zeitpunkt während ihrer Laufzeit oder während ihrer gesamten Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

[Auch wenn die Bezeichnung mit Datum dieser Endgültigen Bedingungen "nein" lautet, sollten die Zulassungskriterien des Eurosystems sich zukünftig dergestalt ändern, dass die Schuldverschreibungen diese erfüllen können, könnten die Schuldverschreibungen im Fall einer NGN dann bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden. Es wird darauf hingewiesen, dass dies jedoch nicht notwendigerweise bedeutet, dass die Schuldverschreibungen dann zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

DESCRIPTION OF RULES REGARDING RESOLUTIONS OF HOLDERS

The Terms and Conditions pertaining to a certain issue of Notes provide that the Holders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed in a meeting (*Gläubigerversammlung*) or by taking votes without a meeting. Any such resolution duly adopted by resolution of the Holders shall be binding on each Holder of the respective issue of Notes, irrespective of whether such Holder took part in the vote and whether such Holder voted in favor of or against such resolution.

In addition to the provisions included in the Terms and Conditions of a particular issue of Notes, the rules regarding resolutions of Holders are substantially set out in Schedule 5 to the Fiscal Agency Agreement in the German language together with an English translation. If the Notes are for their life represented by Global Notes, the Terms and Conditions of such Notes fully refer to the rules pertaining to resolutions of Holders in the form of such Schedule to the Fiscal Agency Agreement. Under the German Act on Debt Securities (*Schuldverschreibungsgesetz – "SchVG"*), these rules are largely mandatory, although they permit in limited circumstances supplementary provisions set out in or incorporated into the Terms and Conditions.

Resolutions of the Holders with respect to the Notes can be passed in a meeting (*Gläubigerversammlung*) in accordance with § 5 et seqq. SchVG or by way of a vote without a meeting pursuant to § 18 and § 9 et seqq. SchVG (*Abstimmung ohne Versammlung*).

The following is a brief summary of some of the statutory rules regarding the convening and conduct of meetings of Holders and the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Rules regarding Holders' Meetings

Meetings of Holders may be convened by the Issuer or the Holders' Representative, if any. Meetings of Holders must be convened if one or more Holders holding 5% or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. Attendance and exercise of voting rights at the meeting may be made subject to prior registration of Holders. The convening notice will provide what proof will be required for attendance and voting at the meeting. The place of the meeting in respect of a German issuer is the place of the issuer's registered office, provided, however, that where the relevant Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Holder may be represented by proxy. A quorum exists if Holders' representing by value not less than 50% of the outstanding Notes. If the quorum is not reached, a second meeting may be called at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25% of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. In the case of Notes represented by one or more Global Notes, resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the relevant Global Note(s).

In insolvency proceedings instituted in Germany against an Issuer, a Holders' Representative, if appointed, is obliged and exclusively entitled to assert the Holders' rights under the Notes. Any resolutions passed by the Holders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions, Holders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

Specific Rules regarding Votes without Meeting

In the case of resolutions to be passed by Holders without a meeting, the rules applicable to Holders' Meetings apply *mutatis mutandis* to any taking of votes by Holders without a meeting, subject to certain special provisions. The following summarises such special rules.

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) where a common representative of the Holders (the "**Holders'**

Representative") has been appointed, the Holders' Representative if the vote was solicited by the Holders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Holders' votes shall set out the period within which votes may be cast. During such voting period, the Holders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Holder's entitlement to cast a vote based on evidence provided by such Holder and shall prepare a list of the Holders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Holders. Within one year following the end of the voting period, each Holder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Holder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Holder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

USE OF PROCEEDS

The net proceeds from each issue of Notes by BASF will be used for general corporate purposes unless stated otherwise in the applicable Final Terms. The net proceeds from each issue of Notes by BASF Finance will only be lent to or invested in companies belonging to the same group of companies to which BASF Finance belongs.

TAXATION

The following is a general discussion of certain German, Dutch, Luxembourg, UK, Irish, and Austrian tax consequences of the acquisition and ownership of the Notes. This discussion does not purport to be a comprehensive description of all tax considerations, which may be relevant to a decision to purchase Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws (including tax treaties) currently in force and as applied on the date of this Prospectus, in Germany, The Netherlands, the Grand Duchy of Luxembourg, the United Kingdom of Great Britain and Northern Ireland, the Republic of Ireland and the Republic of Austria which are subject to change, possibly with retroactive effect.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS APPLICABLE IN GERMANY, THE NETHERLANDS, THE GRAND DUCHY OF LUXEMBOURG, THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND, THE REPUBLIC OF IRELAND, THE REPUBLIC OF AUSTRIA AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS OR OTHERWISE SUBJECT TO TAXATION.

1. Germany

Income tax

Notes held by tax residents as private assets

- Taxation of interest

Payments of interest on the Notes to Holders who are tax residents of Germany (*i.e.*, persons whose residence or habitual abode is located in Germany) are subject to German income tax. In each case where German income tax arises, a solidarity surcharge (*Solidaritätszuschlag*) is levied in addition. Furthermore, church tax may be levied, where applicable. If coupons or interest claims are disposed of separately (*i.e.* without the Notes), the proceeds from the disposition are subject to income tax. The same applies to proceeds from the redemption of coupons or interest claims if the Note is disposed of separately.

On payments of interest on the Notes to individual tax residents of Germany income tax is generally levied as a flat income tax at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax). As from January 1, 2015, the church tax is generally levied by way of withholding unless the Holder has filed a blocking notice (*Sperrvermerk*) with the German Federal Tax Office (*Bundeszentralamt für Steuern*). The total investment income of an individual will be decreased by a lump sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for married couples filing jointly), not by a deduction of expenses actually incurred.

If the Notes are held in a custodial account which the Holder maintains with a German branch of a German or non-German bank or financial services institution or with a securities trading business or bank in Germany (the "**Disbursing Agent**") the flat income tax will be levied by way of withholding at the aforementioned rate from the gross interest payment to be made by the Disbursing Agent.

In general, no withholding tax will be levied if the Holder is an individual (i) whose Note does not form part of the property of a trade or business and (ii) who filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent but only to the extent the interest income derived from the Note together with other investment income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the Holder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office.

If no Disbursing Agent (as defined above) is involved in the payment process the Holder will have to include its income on the Notes in its tax return and the flat income tax of 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25%. In this case income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

- Taxation of capital gains

From January 1, 2009, also capital gains realized by individual tax residents of Germany from the disposition or redemption of the Notes acquired after December 31, 2008 will be subject to the flat income tax on investment income at a rate of 25% (plus solidarity surcharge in an amount of 5.5% of such tax, resulting in a total tax charge of 26.375%, plus, if applicable, church tax), irrespective of any holding period. As from January 1, 2015, the church tax is generally levied by way of withholding unless the Holder has filed a blocking notice with the German Federal Tax Office. This will also apply to Notes on which the principal is effectively repaid in whole or in part although the repayment was not guaranteed.

If the Notes are held in a custodial account which the Holder maintains with a Disbursing Agent (as defined above) the flat income tax will be levied by way of withholding from the difference between the redemption amount (or the proceeds from the disposition) and the issue price (or the purchase price) of the Notes. If the Notes have been transferred into the custodial account of the Disbursing Agent only after their acquisition, and no evidence on the acquisition data has been provided to the new Disbursing Agent by the Disbursing Agent which previously kept the Notes in its custodial account, withholding tax will be levied on 30% of the proceeds from the disposition or redemption of the Notes.

If no Disbursing Agent is involved in the payment process the Holder will have to include capital gains from the disposition or redemption of the Notes in its tax return and the flat income tax of 25% plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25%. In this case income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

Notes held by tax residents as business assets

Payments of interest on Notes and capital gains from the disposition or redemption of Notes held as business assets by German tax resident individuals or corporations (including via a partnership, as the case may be), are generally subject to German income tax or corporate income tax (in each case plus solidarity surcharge and, if applicable, church tax). The interest and capital gain will also be subject to trade tax if the Notes form part of the property of a German trade or business.

If the Notes are held in a custodial account which the Holder maintains with a Disbursing Agent (as defined above) tax at a rate of 25% (plus a solidarity surcharge of 5.5% of such tax and, if applicable, church tax) will also be withheld from interest payments on Notes and (since January 1, 2009) generally also from capital gains from the disposition or redemption of Notes held as business assets. In these cases the withholding tax does not satisfy the income tax liability of the Holder, as in the case of the flat income tax, but will be credited as advance payment against the personal income or corporate income tax liability and the solidarity surcharge (and, if applicable, against the church tax) of the Holder.

With regard to capital gains no withholding will generally be required in the case of Notes held by corporations resident in Germany, provided that in the case of corporations of certain legal forms the status of corporation has been evidenced by a certificate of the competent tax office, and upon application in the case of Notes held by individuals or partnerships as business assets.

Notes held by non-residents

Interest and capital gains are not subject to German taxation in the case of non-residents, *i.e.* persons having neither their residence nor their habitual abode nor legal domicile nor place of effective management in Germany, unless the Notes form part of the business property of a permanent establishment maintained in Germany. Interest may, however, also be subject to German income tax if it otherwise constitutes income taxable in Germany, such as income from the letting and leasing of certain German-situs property or income from certain capital investments directly or indirectly secured by German situs real estate.

Non-residents of Germany are in general exempt from German withholding tax on interest and capital gains and from solidarity surcharge thereon. However, if the interest or capital gain is subject to German taxation as set forth in the preceding paragraph and the Notes are held in a custodial account with a Disbursing Agent (as defined above), withholding tax will be levied as explained above at "*Notes held by tax residents as business assets*" or at "*Notes held by tax residents as private assets*", respectively.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Note will generally arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German citizens who previously maintained a residence in Germany.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

2. The Netherlands

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Note and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of this summary it is assumed that no Holder of a Note has or will have a substantial interest, or - in the case of a Holder of a Note being an entity - a deemed substantial interest, in the Issuer and that no connected person (verbonden persoon) to the Holder of a Note has or will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in an entity if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have, or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have, (I) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of an entity or the issued and outstanding capital of any class of shares of such company, or (II) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of such entity.

Generally speaking, a non-resident entity has a substantial interest in an entity if such entity, directly or indirectly has (I) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of an entity or the issued and outstanding capital of any class of shares of an entity, or (II) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of an entity. An entity holding a Note has a deemed substantial interest in an entity if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this summary refers to "The Netherlands" or "Dutch", it refers only to the European part of the Kingdom of the Netherlands. Where this summary refers to a Holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Note or otherwise being regarded as owning a Note for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of a Note.

Withholding Tax

All payments made by the Issuer of interest and principal under the Notes can be made free of withholding or deduction of any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands

or any political subdivision or taxing authority thereof or therein, unless the Notes qualify as debt that effectively functions as equity for purposes of article 10, paragraph 1, sub d of the Corporate Tax Act (*Wet op de vennootschapsbelasting 1969*).

Taxes on income and capital gains

Residents

- Resident entities

An entity holding a Note which is, or is deemed to be, resident in The Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax in respect of income or a capital gain derived from a Note at rates up to 25%.

- Resident individuals

An individual holding a Note who is, or is deemed to be, a resident in The Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from a Note at rates up to 52% if:

- (i) the income or capital gain is attributable to an enterprise from which the Holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, an individual holding a Note will be subject to income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from a Note. The deemed return amounts to 4% of the value of the individual's net assets as at the beginning of the relevant fiscal year (including the Note). As per January 1, 2017 the rate of 4% will be replaced by variable progressive rates. For the year 2017 this rate are set from 2.9% to 5.5%. The applicable rates will be updated annually on the basis of historic marked yields. Subject to application of certain allowances, the deemed return will be taxed at a rate of 30%.

Non-residents

A Holder of a Note which is not, and is not deemed to be, a resident in The Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from a Note unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in The Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) taxable in The Netherlands and the Holder of a Note derives profits from such enterprise (other than by way of securities); or
- (ii) the Holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and inheritance taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Note by way of gift by, or on the death of, a Holder of a Note, unless:

- (i) the Holder of a Note is, or is deemed to be, resident in The Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions.

Value added tax

The issuance or transfer of a Note, and payments of interest and principal under a Note, will not be subject to value added tax in The Netherlands.

Other taxes and duties

The subscription, issue, placement, allotment, delivery or transfer of a Note will not be subject to registration tax, stamp duty or any other similar tax or duty payable in The Netherlands.

Residence

A Holder of a Note will not be, or deemed to be, resident in The Netherlands for Dutch tax purposes and, subject to the exceptions set out above, will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Note or the execution, performance, delivery and/or enforcement of a Note.

3. Grand Duchy of Luxembourg*Non-Residents*

Under the existing laws of the Grand Duchy of Luxembourg, there is no withholding tax on the payment of interest on, or reimbursement of principal of, the Notes or on payments made under the Guarantee to non-residents of the Grand Duchy of Luxembourg through a paying agent established in Luxembourg.

Since January 1, 2015 the exchange of information procedure provided for under the Luxembourg laws of June 21, 2005 (or the relevant Accords) applies.

Residents

According to the law of December 23, 2005, as amended, interest on Notes paid by a Luxembourg paying agent or paying agents established in the EU, the EEA or in a State which has concluded with Luxembourg an international agreement related to the EU Savings Tax Directive to an individual Holder of Notes who is a resident of Luxembourg or to a residual entity established in another EU Member State or in the dependent and associated territories securing the payment for such individual will be subject to a withholding tax of 10%. In case of payment through a paying agent established in the EU, the EEA or in a State which has concluded with Luxembourg an international agreement related to the EU Savings Tax Directive, the Luxembourg resident individual Holder of Notes must under a specific procedure remit 10% tax to the Luxembourg Treasury.

If the individual Holder holds the Notes in the course of the management of his or her private wealth, the aforementioned 10% withholding tax will operate a full discharge of income tax due on such payments.

Interest on Notes paid by a Luxembourg paying agent to a resident Holder of Notes who is not an individual is not subject to withholding tax.

When used in the preceding paragraphs "*interest*", "*paying agent*" and "*residual entity*" have the meaning given thereto in the Luxembourg laws of June 21, 2005 (or the relevant Accords) and December 23, 2005, as amended. "*Interest*" will include accrued or capitalized interest at the sale, repayment or redemption of the Notes. Payments of interest or similar income under the Notes to Clearstream Banking AG, Clearstream Banking, société anonyme and Euroclear Bank SA/NV and payments by or on behalf of Clearstream Banking, société anonyme to financial intermediaries will not give rise to a withholding tax under Luxembourg law.

4. The United Kingdom of Great Britain and Northern Ireland ("UK")

For the purpose of this summary, the term "entity" means a company as well as any other person that is taxable as a company for UK corporate tax purposes.

Where this summary refers to "the UK", it refers only to the territories subject to Acts of the UK Parliament. Where this summary refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such a Note or otherwise being regarded as owning a Note for UK tax purposes. It is noted that for purposes of UK income tax and corporation tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Withholding Tax

As the Notes are admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and listed on the official list of the Luxembourg Stock Exchange, payment of interest on the Notes may be made without withholding or deduction for or on account of income tax.

Any premium that is or may be payable on redemption may constitute such a payment of interest. Where Notes are issued at an issue price of less than 100% of their principal amount, any payments in respect of

the accrued discount element on any such Notes will not be made subject to any withholding or deduction for or on account of income tax.

5. Republic of Ireland ("Ireland")

For the purpose of this summary, the term "entity" means a company as well as any other person that is taxable as a company for Irish corporate tax purposes.

Where this summary refers to "Ireland" or "Irish", it refers only to the territories subject to Acts of the Irish Parliament. Where this summary refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such a Note or otherwise being regarded as owning a Note for Irish tax purposes. It is noted that for purposes of Irish income tax and corporation tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Withholding Tax

Under Irish tax law there is no obligation on the issuers to operate any withholding tax on payments of interest on the Notes except where the interest has an Irish source and is annual interest in nature. The interest could be considered to have an Irish source, where, for example, interest is paid out of funds maintained in Ireland or where the Notes are secured on Irish situate assets. The mere offering of the Notes to Irish investors will not cause the interest to have an Irish source. In certain circumstances collection agents and other persons receiving interest on the Notes in Ireland on behalf of a Noteholder may be obliged to operate a withholding tax.

6. Republic of Austria

Income tax

Austrian Resident Taxpayers

Individuals having a domicile or their habitual abode in Austria or corporations having their corporate seat or their place of management in Austria are considered residents for Austrian income and corporate income tax law purposes, respectively.

Individual residents

- Notes held as private assets

Generally income arising with respect to the Notes in the form of either

- (i) fixed or floating interest payments (*Zinserträge*) or
- (ii) realized capital gains (*Einkünfte aus realisierten Wertsteigerungen*)

qualifies as "investment income" (*Einkünfte aus Kapitalvermögen*) and, as such, is taxed under a special regime at a flat rate of 27.5%. Realized capital gains are the difference between (a) the amount realized (e.g., the sale proceeds, the redemption or other pay-off amount, or the fair market value in case of a deemed realization) and (b) the acquisition costs; in both cases (amount realized and acquisition costs) including accrued interest, if any.

For Notes held as private assets, the acquisition costs do not include ancillary acquisition costs (*Anschaftungsnebenkosten*). An average price is determined regarding Notes not acquired at the same time, but held in the same securities account with the same securities identification number. Expenses and costs (*Aufwendungen und Ausgaben*) that are directly connected with investment income are not tax effective.

Capital gains are not only taxed upon an actual disposition or redemption of the Notes, but also upon a deemed realization.

- A deemed realization takes place due to a loss of the Austrian taxing right in the Notes (e.g. move abroad, donation to a non-resident, etc.). In case of relocation of the noteholder to another EU member state the possibility of a tax deferral exists, to be elected for in the tax return of the noteholder in the year of his or her relocation. If the Notes are held in an Austrian securities account, the Austrian withholding agent (custodian or paying agent) has to impose the withholding tax only upon an actual disposition of the Notes or withdrawal from the account. If the holder of

the notes has timely notified the Austrian withholding agent of his or her relocation to another EU Member State, not more than the value increase in the Notes until relocation is subject to Austria withholding tax. An exemption of withholding tax applies in case of moving to another EU Member State if the noteholder presents to the Austrian withholding agent a tax assessment notice of the year of migration in which the option for a deferral of tax has been exercised.

- A deemed realization also takes place upon withdrawals (*Entnahmen*) from an Austrian securities account and other transfers of Notes from one Austrian securities account to another one. Exemptions apply in this case for a transfer of the Notes to another deposit account, if certain information procedures are fulfilled and no loss of the Austrian taxing right occurs (e.g., no donation to a non-resident).

If an Austrian custodian (*inländische depotführende Stelle*, also referred to as "securities account keeping agent") or an Austrian paying agent (*auszahlende Stelle*) is involved in paying investment income (interest or capital gains), 27.5% withholding taxation is imposed. The Austrian custodian or paying agent has the responsibility to deduct and pay the withholding tax to the respective tax office.

The withholding tax generally results in a final income taxation; an option to assess the income at the progressive income tax rate exists (in particular for investors whose regular personal income tax rate is lower than 27.5%). If no withholding tax is imposed (e.g., because the Notes are held through a foreign paying agent), the investment income arising from the Notes generally has to be included into the income tax return in accordance with the law and will be subject to the special flat tax rate of 27.5%.

Losses from Notes held as private assets may only offset other investment income (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not offset any other income. Mandatory loss-offsetting rules to be handled by Austrian custodians apply. A carry-forward of losses is not possible in this context.

- Notes held as business assets

Generally, the same rules as described in the previous heading apply regarding Notes that are held as business assets by tax residents who are individuals. The most important differences are the following:

- Realized capital gains, contrary to interest income, have to be included in the annual tax return, since despite a 27.5% withholding taxation that is also imposed in the context of Notes held as business assets if an Austrian custodian is involved, no final income taxation applies.
- Writedowns and realized losses regarding the Notes held as business assets may be offset with positive income from realized capital gains that are investment income in the first place; 55% of the remaining losses may be offset against other income or carried forward.
- The acquisition costs of Notes held as business assets may also include ancillary costs incurred upon the acquisition.
- Loss off-setting is not made by the custodian, but can only be made in the assessment of the individual.

It is noted that expenses and costs (*Aufwendungen und Ausgaben*) directly connected with investment income are also not tax effective in case the Notes are held as business assets.

Corporate residents

Corporate investors deriving business income from the Notes may avoid the application of withholding tax by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian withholding tax agent, who has to forward a copy thereof to the finance office. Income derived from the Notes by corporate investors (including any capital gains) is subject to corporate income tax at the general corporate income tax rate of 25%.

A special tax regime applies for private foundations (*Privatstiftungen*).

Notes held by non-residents

Individuals who have neither a domicile nor their habitual abode in Austria or corporate investors that have neither their corporate seat nor their place of management in Austria ("*non-residents*") are not taxable in Austria with their income from the Notes provided the income is not attributable to a permanent establishment in Austria.

Non-resident investors who are resident individuals of an EU Member State and who hold the Notes through an Austrian paying agent have to consider the EU Savings Tax Directive regarding particular withholding tax rules (see in this respect below under the heading "*EU Savings Tax Directive*").

Since January 1, 2015, interest income from the Notes paid to non-resident investors who are individuals and not covered by the EU Savings Tax Directive would be subject to taxation in Austria if withholding taxation fell due, because the interest was paid by an Austrian withholding tax agent (i.e. an Austrian paying agent or an Austrian custodian), and if the debtor of the interest income had its seat or its place of management in Austria. Since the Issuers have their seats and place of management in Germany and The Netherlands, respectively, non-resident investors not covered by the EU Savings Tax Directive are not subject to taxation with interest payments received from the Notes through an Austrian withholding tax agent. Therefore, such non-resident investors may if they receive income from the Notes through an Austrian withholding tax agent avoid Austrian withholding taxation by way of evidencing their non-resident-status vis-à-vis the withholding tax agent. If Austrian withholding tax is imposed, the investor may apply for a refund thereof.

If non-residents receive income from the Notes through an Austrian permanent establishment, they are to a large extent subject to the same tax treatment as resident investors.

Final note on withholding tax imposed in Austria

Assuming that neither of the Issuers uses a branch or permanent establishment in Austria for the payment of interest under the Notes, neither of the Issuers do assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) or EU Withholding Tax (*EU-Quellensteuer*) charged in Austria at source and is not obliged to make additional payments in case of withholding tax deductions at source.

7. EU Savings Tax Directive

Under the EU Council Directive 2003/48/EC dated June 3, 2003 on the taxation of savings income in the form of interest payments (the "**EU Savings Tax Directive**") each EU Member State must require paying agents (within the meaning of such directive) established within its territory to provide to the competent authority of this state details of the payment of interest made to any individual resident in another EU Member State as the beneficial owner of the interest. The competent authority of the EU Member State of the paying agent is then required to communicate this information to the competent authority of the EU Member State of which the beneficial owner of the interest is a resident.

Austria applies a 35% withholding tax on interest payments made by Austrian paying agents to individuals resident in other member states of the EU. Such EU withholding taxation does not have to be imposed if the information process provided for by the EU directive is fulfilled on a voluntary basis (see also the previous paragraph). As from January 1, 2010 Belgium and as from January 1, 2015 also Luxembourg applies the information procedure described above.

In conformity with the prerequisites for the application of the EU Savings Tax Directive, a number of non-EU countries and territories, including Switzerland, agreed to apply measures equivalent to those contained in such directive (a withholding system in the case of Switzerland).

In Germany, provisions for implementing the EU Savings Tax Directive were enacted by legislative regulations of the Federal Government. These provisions apply since July 1, 2005.

On March 24, 2014, the European Council adopted an EU Council Directive amending and broadening the scope of the requirements described above (the "**Amending Directive**"). In particular, the changes expand the range of payments covered by the EU Savings Tax Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the EU Savings Tax Directive, to also include (in addition to individuals) certain types of entities and legal arrangements. EU Member States are required to implement national legislation giving effect to these changes by January 1, 2016 (which national legislation must apply from January 1, 2017).

It should, however, be noted that on November 10, 2015 the EU Savings Tax Directive has been repealed from January 1, 2017 in the case of Austria and from January 1, 2016 in the case of all other EU Member States (subject to ongoing requirements to fulfil administrative obligations such as the reporting and

exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This was to prevent an overlap between the EU Savings Tax Directive and a new automatic exchange of information regime to be implemented under EU Council Directive 2011/16/EU (as amended by EU Council Directive 2014/107/EU) on administrative cooperation in the field of taxation. Consequently, the EU Member States are no longer required to apply the new requirements of the Amending Directive.

Holders who are individuals should note that the Issuer will not pay additional amounts under § 7 of the Terms and Conditions of the Notes in respect of any withholding tax imposed as a result of the EU Savings Tax Directive.

8. Financial transaction tax

On February 14, 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common Financial Transaction Tax ("**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has in the meanwhile stated that it will no longer participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective Holders of Notes are advised to seek their own professional advice in relation to the FTT.

9. U.S. Foreign Account Tax Compliance Act Withholding ("FATCA")

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including Germany and the Netherlands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to 1 January 2019 (intended date) and Notes issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). However, if additional notes (as described under "*Terms and Conditions—Further Issues, Purchases and Cancellation*") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, the Issuer will not pay any additional amounts as a result of the withholding.

SELLING RESTRICTIONS

The Dealers have entered into an amended and restated dealer agreement dated September 12, 2016 (the "**Dealer Agreement**") as a basis upon which they or any of them may from time to time agree to purchase Notes.

Where the C Rules are specified in the relevant Final Terms as being applicable to any Tranche of Notes, Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented and agreed that it has not offered sold or delivered and will not offer, sell or deliver, directly or indirectly, Notes within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented and agreed in connection with the original issuance of Notes, that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either such Dealer or purchaser is within the United States or its possessions and will not otherwise involve its U.S. office in the offer or sale of Notes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the C Rules.

In addition, in respect of Notes issued in accordance with the D Rules, each Dealer has represented and agreed that:

Terms used in this paragraph (e) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

3. European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (i) if the Final Terms in relation to the Notes specify an offer of those Notes other than pursuant to Article 3 (2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (ii) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (iii) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or,

(iv) at any time in any other circumstances falling within Article 3 (2) of the Prospectus Directive, provided that no such offer of Notes referred to in (ii) to (iv) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in each Relevant Member State.

4. United Kingdom of Great Britain and Northern Ireland ("**United Kingdom**")

Each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that:

- (i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000, as amended ("**FSMA**")) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or the Guarantor; and
- (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to such Notes in, from or otherwise involving the United Kingdom.

5. Selling Restrictions Addressing Additional Netherlands Securities Laws

Each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that it will not make an offer of Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to the public in The Netherlands in reliance on Article 3(2) of the Prospectus Directive unless:

- (i) such offer is made exclusively to legal entities which are qualified investors as defined in the Dutch Financial Supervision Act (*Wet op het financieel toezicht*, the "**FMSA**") and which includes authorized discretionary asset managers acting for the account of retail investors under a discretionary investment management contract) in The Netherlands; or
- (ii) standard exemption logo and wording are disclosed as required by article 5:20(5) of the FMSA; or
- (iii) such offer is otherwise made in circumstances in which article 5:20(5) of the FMSA is not applicable,

provided that no such offer of Notes shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expressions (i) an "**offer of Notes to the public**" in relation to any Notes in the Netherlands; and (ii) "**Prospectus Directive**", have the meaning given to them above in the paragraph headed with "**European Economic Area**".

6. Japan

Each Dealer has acknowledged that the Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended, the "**Financial Instruments and Exchange Law**"). Each Dealer has represented and agreed that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan except only pursuant to an exemption from the registration requirements of, and otherwise in compliance with the Financial Instruments and Exchange Law and any applicable laws, regulations and guidelines of Japan.

GENERAL INFORMATION

Application has been made to the Commission, which is the Luxembourg competent authority for the purpose of the Prospectus Directive for its approval of this Prospectus.

Interests of Natural and Legal Persons involved in the Issue/Offer

Except as discussed in the relevant Final Terms, certain of the Dealers and their affiliates may be customers of, borrowers from or creditors of BASF, BASF Finance and its affiliates. In addition, certain Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for BASF, BASF Finance and its affiliates in the ordinary course of business. Furthermore, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers routinely hedge their credit exposure to the Issuers consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions, which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Program. Any such short positions could adversely affect future trading prices of Notes issued under the Program. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
