## **BASF opens new office building for Berlin Service Hub**

- **BASF Services Europe GmbH is investing in an efficient and sustainable working environment for approximately 2,800 employees**
- **Modern office workstations, spanning 15,000 square meters in the Prenzlauer Berg district, are designed to facilitate flexible working models**
- **The Service Hub in Berlin offers services for BASF Group companies in Europe, the Middle East, and Africa**

Berlin, November 24, 2023 – BASF Services Europe GmbH today opened its new service Hub location in Berlin. BASF will use 15,000 square meters over eight floors in the SCALE office complex in the Prenzlauer Berg district. With around 2,800 employees, BASF Services Europe GmbH provides a wide range of business management services for BASF Group companies in Europe, the Middle East and Africa. Previously, BASF Services Europe GmbH had been situated in Berlin for 18 years at Oberbaum City in the Friedrichshain-Kreuzberg district.

“We have invested in a modern, efficient and sustainable working environment in Berlin that will optimally support our flexible working models for our employees in the future. At the same time, we are underlining BASF Services Europe GmbH's long-term commitment to Berlin. We are now recognized as an attractive employer, especially by international applicants,” says Gunilla Roesler-Dalitz, Managing Director of BASF Services Europe GmbH.

The new office building offers various room concepts to meet the different needs of employees. For example, there are flexible project and meeting rooms for two to

200 people, which enable hybrid meetings so that employees can participate from anywhere.

With an innovative smart app, employees can book workstations and rooms, organize appointments and navigate through the building using a 3D floor plan via a browser or their personal mobile device. The app also makes it easier to find colleagues present at the site.

Based in Berlin, BASF Services Europe GmbH provides business management services for BASF Group companies in the areas of finance, controlling, human resources, supply chain, procurement, project management, process and product safety as well as IT and digitalization for BASF companies in EMEA (Europe, Middle East, Africa). Language skills are of great importance, and the Berlin Hub offers its services in 26 different languages, whenever possible, with native speakers. The employees at the Berlin Hub are correspondingly international, originating from over 100 different countries.

As an employer, BASF Services Europe stands for maximum flexibility in terms of working models and is therefore an attractive employer for talented people with diverse professional backgrounds. The company places great importance on ensuring that everyone feels comfortable in an inclusive working environment and a barrier-free office, enabling them to fully unleash their creativity.
