

# A new level of color matching efficiency: baslac® e-finder star

A brand of  
BASF - We create chemistry

Fast, easy, accurate – the new handheld color retrieval instrument baslac® e-finder star makes color matching more efficient than ever.

Your benefits: better color matching, faster repair times and higher profitability.

With the ergonomically designed baslac® e-finder star, you hold a complete next-generation color matching solution in your hand. It fits seamlessly into your bodyshop workflows and supports fast and accurate use of baslac® Formula Finder, the global baslac® color database.

## FAST

- The new baslac® e-finder star enables automatic calibration on black for significantly faster calibration than existing systems provide
- It uses WiFi to connect seamlessly with baslac® Formula Finder for faster color mixing
- Thanks to its large touchscreen, the painter can process vehicle information directly on the device – no need to switch to another computer

## EASY

- The small and ergonomic device is easy to operate with one hand on every surface of the vehicle
- Thanks to intuitive design with user-friendly buttons, touchscreen and stylus, it requires no special knowledge
- The large display allows direct access to all relevant information at a glance
- The baslac® e-finder star docking station charges the device automatically – after just 4 hours of charging, it's ready for 2 days of work
- A self-closing cover on the device keeps the measurement window clean and protected at all times

## ACCURATE

- The baslac® e-finder star is fully compatible with the baslac® Formula Finder color database
- It features a five-angle technology for more accurate reading of all solid, metallic and pearlescent paints
- A green or red LED signal light tells you immediately if your measurement is correct
- A blue LED embedded in the system provides an additional benefit while scanning the color
- Automatic calibration on black after each job means you can be sure of consistent accuracy

Convince yourself and try the new baslac® e-finder star for your daily paint jobs, it will make your work easy and efficient.
