Natuphos[®] 10000 L

Enzyme Supplement for Swine and Poultry Feeds

Registration Number: 982186

Guaranteed Analysis: Phytase activity min 10,000 FTU/g

General Information: Natuphos[®] 10000 L is a source of the enzyme called Phytase, which increases the availability of phosphorus in swine and poultry rations.

This product is free of antimicrobial activity and is not a source of viable cells.

Ingredients: *Aspergillus niger* fermentation extract (Liquid), Sorbitol.

Directions for Use: Natuphos[®] 10000 L is to be used as a post pellet application at a level between 0.025 kg and 0.100 kg per tonne of complete feed, depending on species and stage of growth.

Natuphos[®] 10000 L should be used within 6 months of date of manufacture.

Note: One unit of phytase activity (FTU) is defined as the amount which liberates 1.0 micromole of inorganic phosphorus per minute from 0.0051 mol/L sodium phytate at 37° C and pH 5.5.

Caution: This product may cause dermal and respiratory irritation and/or sensitivity. Appropriate protective equipment must be worn during handling.

Attention: Refer to the material safety data sheet regarding safety, hazards, procedures, and disposal of this product. Consult your supervisor for additional information.
